Ludlow 1085 1660 A Social Economic And Political History:

Ludlow, 1085-1660 Michael A. Faraday,1991 The Politics of Commonwealth Phil Withington,2005-02-17 The Politics of Commonwealth offers a major reinterpretation of urban political culture in England during the sixteenth and seventeenth centuries Examining what it meant to be a freeman and citizen in early modern England it also shows the increasingly pivotal place of cities and boroughs within the national polity It considers the practices that constituted urban citizenship as well as its impact on the economic patriarchal and religious life of towns and the larger commonwealth The author has recovered the language and concepts used at the time whether by eminent citizens like Andrew Marvell or more humble tradesmen and craftsmen Unprecedented in terms of the range of its sources and freshness of its approach the book reveals a dimension of early modern culture that has major implications for how we understand the English state economy and public sphere the political upheavals of the mid seventeenth century and popular political participation more generally **The Herefordshire Musters of 1539 and 1542** M A Faraday,2012 A muster meant that men in the local shires were called together to identify those able to serve in the King s army The muster records thereby created represent a valuable source of information about the local military resources and also gives the names of those involved The documents which form the subject of this edition the Herefordshire muster books for 1539 and 1542 came into existence during two military and diplomatic crises Neither lasted long The first was during Thomas Cromwell s term of office the second after his fall The first crisis was precipitated by the rapprochement between France and the Emperor Charles V signalled by the Treaty of Toledo on 12 January 1539 these powers then withdrew their ambassadors from London and made demonstrations of apparent warlike intent Henry VIII s Council then dominated by Thomas Cromwell called for musters throughout the country The commissions of array represent an attempt to discover the country s military resources **The Cambridge Urban History of Britain** Peter Clark,David Michael Palliser,Martin J. Daunton,2000 Surveys the history of British towns from their post Roman origins down to the sixteenth century **Deeds of the Palmers' Gild of Ludlow** M A Faraday,2012 These documents cover the 300 year history of the Palmer s Gild up to its dissolution in 1551 Some 1 495 deeds of various kinds mostly in Latin some in Norman French or English are all shown in English They demonstrate the extent of the Gild s interests and also provide the most important source of information about the families of the town and other places their descents the derivations of their names and their occupations The Gild became the leading institution in Ludlow and it supported a an important chantry in the parish church b a college of chaplains who provided many services both spiritual and secular c building and ornamentation work in the parish church and d provided a kind of mutual insurance service for its members who came from all over the country including at one time Richard duke of York himself The gild acquired many properties from donations bequests and purchases and the rents financed its activities There is a comprehensive index This is a paperback *Reimagining the Past in the Borderlands of Medieval England and Wales* Georgia Henley,2024-05-08 Challenging the standard view that England

emerged as a dominant power and Wales faded into obscurity after Edward I's conquest in 1282 this book considers how Welsh and British history became an enduringly potent instrument of political power in the late Middle Ages Brought into the broader stream of political consciousness by major baronial families from the March the borderlands between England and Wales this inventive history generated a new brand of literature interested in succession land rights and the origins of imperial power as imagined by Geoffrey of Monmouth These marcher families leveraged their ancestral political and ideological ties to Wales in order to strengthen their political power both regionally and nationally through the patronage of historical and genealogical texts that reimagined the Welsh past on their terms In doing so they brought ideas of Welsh history to a wider audience than previously recognized and came to have a profound effect on late medieval thought about empire monarchy and succession **Urban History 19:2** Kajal Lahiri, Geoffrey H. Lahiri, 1992-12-10 **The Routledge**

the Medieval Welsh Marches Matthew Siôn Lampitt, 2025-05-19 The Welsh Marches a name which today refers to the borderland regions between England and Wales are often coupled with images of idealized rusticity of blue remembered hills Yet in the Middle Ages the Marches stretched from the borders into much of modern day Mid and South Wales and were important spaces of conflict colonization and contact of complex shifting strategic politics and identities and crucially of vibrant literary activity An exploration of the Marches multilingual literary cultures this book is structured around three geotemporal case studies Hereford c 1170 c 1210 Ludlow c 1310 c 1350 Ynysforan c 1380 c 1410 Analysing texts and manuscripts composed copied compiled translated or otherwise circulated in these locales this study crosses linguistic and disciplinary boundaries to formulate readings of works in French Welsh English and Latin These readings are developed through an extended engagement with the philosophy of Bruno Latour particularly his work on Actor Network Theory and modes of existence From these perspectives this book not only situates the March within wider literary networks but also

reads its texts as networking narratives that deconstruct binaries of centre and periphery of local and global of human and nonhuman and even of reality and fiction themselves Fourteenth Century England XIII Gwilym Dodd, Helen Lacey, 2025-02-11 Essays on a diverse range of topics presenting the latest research on themes of gender religion warfare the built environment and chronicle writing of the period This collection brings into dialogue scholarship on social religious economic military and political history offering exciting new insights into a range of topics based upon meticulous research into published and unpublished archival records Two studies reveal the influence of gendered norms and expectations at different ends of the social spectrum one focussing on peasant women charged with extramarital sex known as leyrwite the other on the martial achievements and expectations of Edward III Several essays examine patronage property investment and the built environment with actors ranging from the papacy to religious guilds and members of the gentry Further contributions provide new perspectives on conflict and violence a re examination of how the Peasants Revolt was recorded in the Anonimale Chronicle a consideration of how armies were recruited at the time of civil war in 1321 22 and an investigation of the life and career of Henry Crystede an Englishman fighting in Ireland *The Herefordshire Chantry Valuations of 1547* M A Faraday, 2012 In the later Middle Ages it was common for persons with property to endow chantries chiefly for prayers to be said for the donor or members of his family for the indefinite future From these endowments churches accumulated properties around the county sometime in other counties In the mid 1500s the properties were seized by the Crown and sold Lists of properties occupiers and purchasers were kept The present volume covers Hereford Chantries This record is of interest to scholars of the 16th century particularly of the post Reformation secularisation of Church property In addition family historians once they have reached the mid 16th century from which period parish registers and collections of wills are very much more sparse must of necessity look at any lists of residents in particular places and this is one *Identity and Agency in England, 1500-1800* J. Barry, H. French, 2004-11-23 This collection of essays is arranged around the central issue raised by a raft of new empirical research the relationship between social identity or the vision of the self and the ways in which this can explain historical agency If identities in early modern society were multiple complex and dependent on context rather than homogenous consistent or easily determined then it is difficult to make simple causal links to behaviour This collection aims to make innovative new research on the structures of English society available to the wider scholarly audience The essays use a number of detailed contextual case studies to explore the twin themes of the nature of identities in early modern society and their role in influencing historical agency They examine the variety of identities available to individuals in early modern England and the ways in which these were invoked and employed

Shropshire J. A. B. Somerset,1994-01-01 The Records of Early English Drama volumes make available historical transcripts that provide evidence of early English drama music ceremonial dance and other forms of communal public entertainment in Britain before 1642 together with the necessary interpretive introductions and notes to explicate the materials for the reader Shropshire in two volumes is the eleventh publication in the series In the introduction Alan Somerset surveys the social and economic history of each major borough and provides a

commentary on the major issues raised in the documents He discusses travelling performers routes the places they performed and the remarkable public exhibitions of high wire artists camels bears and giants The records for this county are rich and varied providing new detail about local playing and festivities From Shrewsbury for example comes the complete documentation of a unique semi circular outdoor amphitheatre The documents reveal much from robbery and riots to the sometimes acrimonious disputes that show the growing Puritan opposition to sports which attempted to combat an equally stubborn affection for traditional customs These records are an invaluable addition to the scholarship of early drama establishing as they do part of the total context of the great drama of Shakespeare his predecessors and his contemporaries

Wales and the Crusades Kathryn Hurlock,2011-10-31 This original study focussing on the impact of the crusading movement in medieval Wales considers both the enthusiasm of the Welsh and those living in Wales and its borders for the crusades as well as the domestic impact of the movement on warfare literature politics and patronage The location of Wales on the periphery of mainstream Europe and its perceived status as religiously and culturally underdeveloped did not make it the most obvious candidate for crusading involvement but this study demonstrates that both native and settler took part in the crusades supported the military orders and wrote about events in the Holy Land Efforts were made to recruit the Welsh in 1188 suggesting contemporary appreciation for Welsh fighting skills even though crusaders from Wales have been overlooked in modern studies By looking at patterns of participation this study shows how domestic warfare influenced the desire and willingness to join the crusade and the effect of such absences on the properties of those who did go The difference between north and south Wales Marcher lord and native prince Flemish noble and minor landholder are considered to show how crusading affected a broad spread of society Finally the political role of crusading participation as a way to remove potential troublemakers and cement English control over Wales is considered as the close of the peak years of crusading coincided with the final conquest of Wales in 1282
