He said: "I am today particularly concerned about the situation. I am today particularly concerned about the situation. I am today particularly concerned about the situation. I am today particularly concerned about the situation. I am today particularly concerned about the situation."

Three days later the British foreign minister, Lord Halifax, made his reply to suggest that peace should not be given up. He said: "I am today particularly concerned about the situation. I am today particularly concerned about the situation. I am today particularly concerned about the situation."

On July 21st Goering told the various Air Corps under them to do the same. Staff officers everywhere began seriously to forge their plans. All were agreed that the subjugation of the Royal Air Force must be the first and foremost aim. About how this was to be accomplished there were, however, differences of opinion.

Cutting from the Führer's before his Reichstag speech, he had issued his Directive No. 16, ordering "a landing operation against England to be prepared and, if necessary, carried out."

On July 31st, however, he disclosed at a conference at Obersalzberg with the Army C-in-C, von Brauchitsch, and his chief of general staff, Halder, that he wanted to attack Russia.

Despite this, the next day the Führer issued his Directive No. 17, permitting unrestricted air and sea operations against land as from August 5th. Hitler wished to study the effect

The Luftwaffe War Diaries Cajus Bekker, 1968 **THE LUFTWAFFE WAR DIARIES**, 1964 *The Luftwaffe War Diaries* Cajus D. Bekker, 1966 The Luftwaffe War Diaries [by] Cajus Bekker; Translated from the German and Edited by Frank Ziegler Cajus Bekker, 1968 *Angriffshöhe 4000. The Luftwaffe War Diaries ... Translated ... and Edited by Frank Ziegler. With Plates and Maps.* Cajus BEKKER (pseud.), Frank ZIEGLER, 1967 **Luftwaffe-Diaries** Cajus Bekker, 1969-09-12 **Targeting Civilians in War** Alexander B. Downes, 2011-05-15

Accidental harm to civilians in warfare often becomes an occasion for public outrage from citizens of both the victimized and the victimizing nation. In this vitally important book on a topic of acute concern for anyone interested in military strategy, international security, or human rights, Alexander B. Downes reminds readers that democratic and authoritarian governments alike will sometimes deliberately kill large numbers of civilians as a matter of military strategy. What leads governments to make such a choice? Downes examines several historical cases: British counterinsurgency tactics during the Boer War, the starvation blockade used by the Allies against Germany in World War I, Axis and Allied bombing campaigns in World War II, and ethnic cleansing in the Palestine War. He concludes that governments decide to target civilian populations for two main reasons: desperation to reduce their own military casualties or avert defeat, or a desire to seize and annex enemy territory. When a state's military fortunes take a turn for the worse, he finds, civilians are more likely to be declared legitimate targets to coerce the enemy state to give up. When territorial conquest and annexation are the aims of warfare, the population of the disputed land is viewed as a threat, and the aggressor state may target those civilians to remove them. Democracies historically have proven especially likely to target civilians in desperate circumstances. In *Targeting Civilians in War*, Downes explores several major recent conflicts, including the 1991 Persian Gulf War and the American-led invasion of Iraq in 2003. Civilian casualties occurred in each campaign, but they were not the aim of military action. In these cases, Downes maintains, the achievement of quick and decisive victories against overmatched foes allowed democracies to win without abandoning their normative beliefs by intentionally targeting civilians. Whether such restraint can be guaranteed in future conflicts against more powerful adversaries is, however, uncertain. During times of war, democratic societies suffer tension between norms of humane conduct and pressures to win at the lowest possible costs. The painful lesson of *Targeting Civilians in War* is that when these two concerns clash, the latter usually prevails.

To Defeat the Few Douglas C. Dildy, Paul F. Crickmore, 2020-07-09. This history, based on an exhaustive study of German records, explores The Battle of Britain through the eyes of The Few. Over the past 80 years, histories of the Battle of Britain have consistently portrayed the feats of The Few as they were immortalized in Churchill's famous speech as being responsible for the RAF's victory in the epic battle. However, this is only part of the story. The results of an air campaign cannot be measured in terms of territory captured, cities occupied, or armies defeated, routed, or annihilated. Successful air campaigns are those that achieve their intended aims or stated objectives. Victory in the Battle

of Britain was determined by whether the Luftwaffe achieved its objectives The Luftwaffe of course did not and this detailed and rigorous study explains why Analysing the battle in its entirety in the context of what it was history s first independent offensive counter air campaign against the world s first integrated air defence system Douglas C Dildy and Paul F Crickmore set out to re examine this remarkable conflict Presenting the events of the Battle of Britain in the context of the Luftwaffe s campaign and RAF Fighter Command s battles against it this title is a new and innovative history of the battle that kept alive the Allies chances of defeating Nazi Germany

The Mediterranean Air War Robert S. Ehlers, Jr., 2015-03-27 Without what the Allies learned in the Mediterranean air war in 1942 1944 the Normandy landings and so perhaps the Second World War II would have ended differently This is one of many lessons of *The Mediterranean Air War* the first one volume history of the vital role of airpower during the three year struggle for control of the Mediterranean Basin in World War II and of its significance for the Allied successes in the war s last two years Airpower historian Robert S Ehlers opens his account with an assessment of the pre war Mediterranean theater highlighting the ways in which the players strategic choices strengths and shortcomings set the stage for and ultimately shaped the air campaigns over the Middle Sea Beginning with the Italian invasion of Abyssinia Ehlers reprises the developing international crisis initially between Britain and Italy and finally encompassing France Germany the US other members of the British Commonwealth and the Balkan countries He then explores the Mediterranean air war in detail with close attention to turning points joint and combined operations and the campaign s contribution to the larger Allied effort In particular his analysis shows how and why the success of Allied airpower in the Mediterranean laid the groundwork for combined arms victories in the Middle East the Indian Ocean area North Africa and the Atlantic northwest Europe Of grand strategic importance from the days of Ancient Rome to the Great Power rivalries of the eighteenth and nineteenth centuries the Middle Sea was no less crucial to the Allied forces and their foes Here in the successful offensives in North Africa in 1942 and 1943 the US and the British learned to conduct a coalition air and combined arms war Here in Sicily and Italy in 1943 and 1944 the Allies mastered the logistics of providing air support for huge naval landings and opened a vital second aerial front against the Third Reich bombing critical oil and transportation targets with great effectiveness The first full examination of the Mediterranean theater in these critical roles as a strategic and tactical testing ground for the Allies and as a vital theater of operations in its own right *The Mediterranean Air War* fills in a long missing but vital dimension of the history of World War II

Fighter Operations in Europe and North Africa, 1939-1945 David Wragg, 2012-02-29 *Fighter Operations in Europe and North Africa 1939 1945* tells the story of Allied and German fighter pilots in Europe over the Mediterranean and in North Africa during the Second World War The book starts with the early skirmishes as each side tested the others defenses moves through the Battle of Britain and then the Blitz when the emphasis switched from single engined day fighters to twin engined night fighters while increasingly fighters were used to sweep over enemy air fields and lines of communication in occupied France This overlapped with the need to provide

air cover for the besieged island fortress of Malta by day and by night as well as defensive operations against Axis forces in Crete and North Africa but as the balance of power changed in North Africa the Desert Air Force was formed incorporating elements from many Allied air forces and the emphasis moved to offensive operations in support of ground forces The invasions of Italy and the South of France also called for fighter cover initially by carrier based aircraft The lessons learnt in North Africa were put to good use by the 2nd Allied Tactical Air Force which accompanied the advancing allied armies towards and eventually into Germany achieving all important air supremacy which was a major factor in the Allied victory The book also covers Luftwaffe fighter pilots as they sought to stop the RAF by night and the USAAF by day against increasingly overwhelming odds Air Warfare and Air Base Air Defense, 1914-1973 John F.
