Lure Of The Transcendent:

The Lure of the Transcendent Dwayne E. Huebner, 1999 The first and only volume to collect the essays of the seminal curriculum theorist Dwayne E Huebner edited and introduced by William F Pinar **Professional Care and Vocation** Timothy W. Wineberg, 2008-01-01 This book integrates the traditional understanding of a profession a calling to selfless service for the public good through the pursuit of a learned art with that of vocation work that offers a deep sense of personal fulfilment meaning and identity Professions are moral endeavours since they require vulnerable individuals to trust in the competence and integrity of someone who professes to care for them Currently most versions of professional ethics narrowly focus upon standards of conduct or upon ethical dilemmas Yet these are rarely compelling enough to change us they are not morally formative This volume takes a different tack to doing ethics It explicitly targets the moral development of educators This is crucial because as we develop our sensibilities of perception and qualities of character we can better interpret practice situations and respond fittingly Moreover this approach to ethics seeks to reconceptualize our professional obligation to embody it in more adequate metaphors and to revitalize its relational dimension In this view our task as educators is to seek out those relational metaphors images and narratives of practice which are profound enough to shape our self perceptions and to fund our moral formation This book explores five ethical spheres sacrifice community craft tradition and moral imagination and five respective pedagogical images which illuminate the nature of professional care servant moral friend mentor covenantor and moral companion When critically engaged and appropriated these rich metaphorical images provide clarity order and meaning to our perceptions and powerful imperatives for our own moral development **Love in the Post-Reconceptualist Era of Curriculum Work** Allan Michel Jales Coutinho, 2023-03-08 By employing the autobiographical method of currere and bifocalization this book sheds light on the significance of love and the ethics of caregiving as means to transform curriculum studies into a post reconceptualist and collective endeavor Advancing an understanding of curriculum as a collective public moral enterprise it critically asks whether we can build a world where love is not negotiated but only proliferated Through the creation of short and interconnected autobiographical narratives about the meanings of love the author provides pivotal insights for curricularists who labor in conflicting and paradoxical contexts As such the book seeks to demonstrate how the labor of love fortification may be accomplished in a world of agonistic antagonistic and competitive becoming s Highlighting the role of caregiving this book questions the role of evaluations in post reconceptualization and provides insights for educators and policymakers on how to promote actualization and reconciliation in schools in contexts across the global north and south Engaging with a long scholarly tradition that ultimately seeks to understand the meanings of love in our lives and in our work supporting the historization of the field of curriculum and with an international focus this book will appeal to scholars and students with interests in curriculum studies and curriculum theory Exploring Curriculum as an Experience of Consciousness Transformation Elise

L. Chu,2019-09-03 This book addresses the issue of de spiritualization in education through an interdisciplinary lens It draws on curriculum scholarship of Dwayne Huebner Martin Heidegger s interpretation of Plato s allegory of the cave Buddhism theories and philosophies of quantum physics and philosophical hermeneutics among others In doing so the author identifies the relationship between spiritual truth and education and probes the nature of consciousness self and reality On this basis she works to explore curriculum as an experience of consciousness transformation vital to the essence and purpose of education and argues for reason with faith and faith with reason as well as the imperative of curriculum imbued with spiritual wisdom and lived experiences

Challenges Bequeathed ,2009-01-01 In this thoughtful and provocative collection of essays a group of scholars from varied backgrounds and interests have each taken up the educational challenges bequeathed by Dwayne Huebner in his 1996 essay Challenges Bequeathed Huebner encouraged educators to surpass the technical foundations of education affirm the significance of the imagination use the world s intellectual traditions and achievements engage in public discourse about education and speak out for children and youth Each author has extended and in some ways transcended the discussion of these five challenges yet still draw upon the considerable contribution Dwayne Huebner has made to the field of education The writers in this volume grapple with the complexities of teaching and learning as always in process and as always relational of schools as sites of creative and imaginative acts of knowing and being The book begins with Huebner s 1996 essay wherein he delineates the challenges for educators as he perceived them Readers are invited to begin with this chapter However after taking in Professor Huebner s prescience his ability to see years in advance of everyone else what is deeply at work in present times where it is headed and what needs to be done about it Smith this volume we encourage readers to dip into this volume randomly rather than in sequential order While doing so it is important to be mindful that these challenges do not exist in isolation of each other rather they are inextricably linked in myriad ways Each one of these challenges requires consideration of classroom spaces the individuals who occupy these spaces and how these spaces are influenced by external forces Tupper this volume We invite you to take up a challenge

both American and Chinese intellectual traditions such as American nonviolence activism Taoism and Buddhism to formulate a vision of nonviolence in curriculum studies Centering cross cultural education and pedagogy about for and through nonviolence this volume contributes to internationalizing curriculum studies and introduces curriculum theorizing at the level of higher education Hongyu Wang brings together stories dialogues and juxtapositions of cross cultural pathways and pedagogies in a powerful case for theorizing and performing nonviolence education as visionary work in the internationalization of curriculum studies

Curriculum, Spirituality and Human Rights towards a Just Public Education Rogério C. Venturini, 2023-05-08 Curriculum Spirituality and Human Rights towards a Just Public Education examines the integration of spirituality not religion into U S public education and curriculum The volume challenges celebratory curricularized forms of human rights and frames spirituality as a counter hegemonic human right Drawing on autobiography as inquiry Rog rio Venturini unpacks his spiritual struggles from within and experiences as a progressive spiritual person and educator The volume examines the subjectivity and objectivity of spirituality exploring the lethal social impact triggered by the absence of spirituality at the table of the so called curriculum conversations This volume places the struggle for spirituality in our field as a political struggle and challenges the epistemicidal nature of such conversations Venturini draws on critical anti colonial and decolonial frameworks and argues for an epistemological move towards an itinerant curriculum theory one that responds to the world s endless epistemological diversity and difference by assuming a non derivative non abyssal approach

the Curriculum this is a thrilling work of philosophy that builds upon the author's award winning text *Reclaiming Goodness Education and the Spiritual Quest* *The Making of Modern India* Nicol Macnicol, 1924 *The Person and the Common Life* J.G. Hart, 2013-11-11 What follows attempts to synthesize Husserl's social ethics and to integrate the themes of this topic into his larger philosophical concerns Chapter I proceeds with the hypothesis that Husserl believed that all of life could be examined and lived by the transcendental phenomenologist and therefore action was not something which one did isolated from one's commitment to being philosophical within the noetic noematic field Therefore besides attempting to be clear about the meaning of the reduction it relates the reduction to ethical life Chapter II shows that the agent properly understood i.e. the person is a moral theme indeed reflection on the person involves an ethical reduction which leads into the essentials of moral categoriality the topic of Chapter IV Chapter III mediates the transcendental ego individual person and the social matrix by showing how the common life comes about and what the constitutive processes and ingredients of this life are It also shows how the foundations of this life are imbued with themes which adumbrate moral categoriality discussed in Chapter IV The final Chapters V and VI articulate the communitarian ideal the godly person of a higher order emergent in Chapters II III and IV in terms of social political and theological specifications of what this godly life looks like **The Routledge Companion to Video Game Studies** Mark J.P. management early childhood education special education school psychology and school counseling have constructed notions of children and schooling that are often behaviorist instrumental and symptom focused Curriculum too often focuses on acquisition of knowledge and behaviors discipline is conceptualized as compliance and symptoms such as anger school resistance etc are pathologized and reacted to out of context children s special needs are often conceptualized instrumentally and children with complex psychological symptoms are delimited depersonalized or simply removed Professionals who work with children psychodynamically draw on diverse frameworks including the work of Anna Freud the long tradition of the Tavistock Clinic in London e g Anne Alvarez Susan Reid Margaret Rustin Frances Tustin etc the writings of Klein Winnicott and their colleagues French analysts e g Piera Aulagnier Didier Anzieu Laurent Danon Boileau Fran oise Dolto Maud Mannoni and Catherine Mathelin and Italian infant child analyst Alessandro Piontelli This work is valuable but often inaccessible to school professionals because the writing is somewhat specialized and because there is no tradition of teaching such work in professional preparation in those fields This collection is theoretically grounded in that the authors share a commitment to valuing children s emotions and understand the usefulness of psychoanalytic approaches for enhancing children s lives It is laden with examples to invite into this discussion those students and professionals who value these ideas but for whom this book may be their first introduction to progressive educational ideals and psychodynamic ways of working with children Psychodynamic Perspectives on Working with Children Families and Schools provides an introductory volume to open the door to the possibility of introducing psychodynamic frameworks to education and human service professors and school professionals and professionals working with children

Integration and Difference Grant Maxwell, 2022-06-30 This groundbreaking work synthesizes concepts from thirteen crucial philosophers and psychologists relating how the ancient problem of opposites has been opening to an integration which not only conserves differentiation but enacts it especially through the integration of myth into the dialectic Weaving a fascinating narrative that thinks with the complex encounters of theorists from Baruch Spinoza G W F Hegel Friedrich Nietzsche and William James to Alfred North Whitehead C G Jung Gilles Deleuze and Isabelle Stengers this book uniquely performs the convergence of continental philosophy pragmatism depth psychology and constructivist postmodern theory as a complement to the trajectory culminating in Jacques Derrida s deconstruction This is an important book for professionals and academics working across the humanities and social sciences particularly for continental theorists and depth psychologists interested in the construction of a novel epoch after the modern

Stone, 2017-06-26 Sacred Nature examines the crisis of environmental degradation through the prism of religious naturalism which seeks rich spiritual engagement in a world without a god Jerome Stone introduces students to the growing field of religious naturalism exploring a series of questions about how it addresses the environmental crises evaluating the merits of public prophetic discourse that uses the language of spirituality He presents and defends the concept of religious naturalism while drawing out the implications of religious naturalism for addressing some of the major environmental issues facing humans today This book is designed for undergraduate and graduate students as well as scholars specializing in contemporary religious thought or environmental studies **Wellbeing** Mark Vernon, 2014-12-05 The politics of wellbeing and the new science of happiness have shot up the agenda since Martin Seligman coined the phrase positive psychology After all who does not want to live the good life So ten years on why is it that much of this otherwise welcome debate sounds like as much apple pie work less earn enough keep fit find meaning enjoy freedoms The reason is not ultimately cynicism Rather it is because a central tricky question is being glossed over just what is wellbeing Mark Vernon argues that positive psychology has overlooked and sidelined the ancient wisdom on wellbeing notably from the Greek philosophers Now is the time to pay it proper attention Vernon shows surprisingly that wellbeing is not found in a focus on pleasure or even the pursuit of happiness itself Rather it is a question of meaning and responding to the great challenge of our day the search for transcendence For at root the life that is going well cultivates a way of life based upon love it is that which draws you out of yourself in friends hopes and ultimately the contemplation of mystery and orientates a life towards that which is good
