Lust Und Verlust:

Albrecht Dürer and the Embodiment of Genius Jeffrey Chipps Smith, 2020-10-09 During the nineteenth century Albrecht Dürer's art piety and personal character were held up as models to inspire contemporary artists and it was hoped to return Germany to international artistic eminence In this book Jeffrey Chipps Smith explores Dürer's complex posthumous reception during the great century of museum building in Europe with a particular focus on the artist's role as a creative and moral exemplar for German artists and museum visitors In an era when museums were emerging as symbols of civic regional and national identity dozens of new national princely and civic museums began to feature portraits of Dürer in their elaborate decorative programs embellishing the facades grand staircases galleries and ceremonial spaces Most of these arose in Germany and Austria though examples can be seen as far away as St Petersburg Stockholm London and New York City Probing the cultural political and educational aspirations and rivalries of these museums and their patrons Smith traces how Dürer was painted sculpted and prominently placed to accommodate the era's diverse needs and aspirations He investigates what these portraits can tell us about the rise of a distinct canon of famous Renaissance and Baroque artists addressing the question of why Dürer was so often paired with Raphael who was considered to embody the greatness of Italian art and why with the rise of German nationalism Hans Holbein the Younger often replaced Raphael as Dürer's partner Accessibly written and comprehensive in scope this book sheds new light on museum building in the nineteenth century and the rise of art history as a discipline It will appeal to specialists in nineteenth century and early modern art the history of museums and collecting and art historiography

Jesuit Survival and Restoration, 2014-11-27 In *Jesuit Survival and Restoration* leading scholars from around the world discuss the most dramatic event in the Society of Jesus's history The order was suppressed by papal command in 1773 and for the next forty one years ex-Jesuits endeavoured to keep

the Ignatian spirit alive and worked towards the order's restoration. When this goal was achieved in 1814 the Society entered one of its most dynamic but troubled eras. The contributions in the volume trace this story in a global perspective looking at developments in Europe, Asia, Africa and the Americas. Goethe Yearbook 7 Thomas Saine, 1994-11-17. A publication of the Goethe Society of North America carrying Goethe criticism and studies of his contemporaries, extensive book review section. The Goethe Yearbook is a publication of the Goethe Society of North America which was founded in 1980 to promote the study of Goethe and his contemporaries. Originally conceived as a vehicle for Goethe criticism in English during the Cold War political tensions when the most prestigious Goethe publication the Goethe Jahrbuch was not available to most Western scholars, the Yearbook subsequently gained the respect of the international community and has published articles in both English and German by scholars from around the world. It is unique among other periodicals devoted to the Goethezeit for its extensive book review section. *Material Change* Jan De Maeyer, Peter Jan Margry, 2021-12-17. The long nineteenth century c. 1780 c. 1920 in Western Europe saw an unprecedented rise in the production and possession of material goods. The material culture diversified and led to a rich variety of expressions. Dovetailing with a process of confessionalisation that manifested itself quite simultaneously, material religion witnessed its heyday in this period from church buildings to small devotional objects. The present volume analyses how various types of reform state, societal and ecclesiastical that were part of the process of modernisation affected the material devotional culture within Protestantism, Anglicanism and Roman Catholicism. Although the contributions in this book start from a comparative European perspective, the case studies mostly focus on individual countries in North West Europe, namely Germany, Belgium, the Netherlands, the United Kingdom, Ireland, Norway, Sweden and Denmark. The concept of material religion is approached in a very inclusive way. The volume discusses, amongst others, parish infrastructures and religious buildings that are part of land and cityscapes but also looks into interior design and decorations of chapels, churches, monasteries, cemeteries and educational, charitable and health institutions. It comprises the fine arts of religious painting and sculpture, the applied arts and iconographic designs. As far as private material culture is concerned, this volume examines and presents objects related to private devotion at home, including a great variety of popular devotional and everyday life objects such as booklets, cards, photographs and posters. **The International Reception of Emily Dickinson** Domhnall Mitchell, Maria Stuart, 2011-10-27. Emily Dickinson's poetry is known and read worldwide but to date there have been no studies of her reception and influence outside America. This collection of essays brings together international research on her reception abroad, including translations, circulation and the responses of private and professional readers to her poetry in different countries. The contributors address key translations of individual poems and lyric sequences, Dickinson's influence on other writers, poets and culture, more broadly biographical constructions of Dickinson as a poet, the political, cultural and linguistic contexts of translations and adaptations into other media. It will appeal to all those interested in the international reception of Dickinson and nineteenth-century American literature more widely.

Science and Societies in Frankfurt am Main Ayako Sakurai, 2016-09-12 The nineteenth century saw science move from being the preserve of a small learned elite to a dominant force which influenced society as a whole Sakurai presents a study of how scientific societies affected the social and political life of a city As it did not have a university or a centralized government Frankfurt am Main is an ideal case study of how scientific associations funded by private patronage for the good of the local populace became an important centre for natural history 1962 E Gutsche, K.
