**Smith and Hogan's Criminal Law** David Ormerod, Karl Laird, John Cyril Smith, Brian Hogan, 2015 Criminal Law is written with the needs of the student foremost in mind to provide more than ever as modern and as comprehensive an exposition of the criminal law as he or she could possibly require The Routledge Handbook of International Crime and Justice Studies Bruce Arrigo, Heather Bersot, 2013-08-15 This book presents the enduring debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective **The Legitimacy of EU Criminal Law** Irene Wieczorek, 2020-07-09 This book traces the history of the EU competence EU policy discourse and EU legislation in the field of criminalisation from Maastricht until the present day It asks Why EU Criminal Law looking at what rationales the Treaty policy document and legislation put forth when deciding whether a certain behaviour should be a criminal offence To interpret the EU approach to criminalisation it relies on both modern and post modern theoretical frameworks on the legitimacy of criminal law read jointly with the theories on the functions of EU harmonisation of national law The book demonstrates that while EU constitutional law leans towards an effectiveness based enforcement driven understanding of criminal law the EU has in fact in more than one instance adopted symbolic EU criminal law ie criminal law aimed at highlighting what values are important to the EU but which is not fit to actually deter individuals from harming such values The book then questions whether this approach is consistent or in contradiction with the values based constitutional identity the EU has set for itself **Dishonesty, Liability and the Law** Sotirios Santatzoglou, Martin Wasik, Anthony Wrigley, 2025-07-31 In 2017 in Ivey v Genting Casinos the Supreme Court judged that the dishonesty test is objective and should be the single one in use for any area of law The judgment sparked some criticism regarding the inflexibility of an objective test The subsequent 2020 Court of Appeal judgment in R v Barton confirmed the objective test in Ivey However little dedicated discussion and analysis of the dishonesty test has subsequently taken place leaving a growing concern that the one currently in use may not be suitable for determining dishonesty in all contexts This interdisciplinary collection challenges the idea of the single objective test by considering the issue of context in defining dishonesty The volume is divided into three parts The first focuses on the analysis of the concept of dishonesty and the dishonesty test both in relation to context and its impact in determining whether or not liability arises In the second part the focus is on contexts of public and private dealings where dishonesty can be the reason to place liability or where its implications should be modified in order to limit liability Finally in the third part the focus is on the context of healthcare practice and its interface with the conceptual dichotomy of honesty dishonesty The conclusion draws together shared themes notably the issues of fairness and justice that arise from the work to demonstrate the definitional vacuum in the law on dishonesty The book will be of interest to academics researchers policy makers and regulators working in law ethics or areas of professional regulation and misconduct especially medicine nursing student academic misconduct and politics Similarly there will be appeal to those

working in relevant professional regulatory areas such as law healthcare and sports governance      Introduction to Criminal Justice Callie Marie Rennison, Mary Dodge, 2021-02-02 Introduction to Criminal Justice Systems Diversity and Change Fourth Edition offers students a brief yet thorough introduction to criminal justice with up to date coverage of all aspects of the system in succinct and engaging chapters Authors Callie Marie Rennison and Mary Dodge weave four true criminal case studies throughout the book capturing students attention with memorable stories that illustrate the real life pathways and outcomes of criminal behavior and victimization Designed to show the connectedness of the criminal justice system each case study brings the chapter concepts to life Providing students with a more inclusive overview of criminal justice important and timely topics such as ethics policy gender diversity and victimization are emphasized throughout This title is accompanied by a complete teaching and learning package      **Smith, Hogan, and Ormerod's Criminal Law** David|Laird Ormerod (Karl|Gibson, Matthew), 2024      **Overcriminalization** Douglas Husak, 2008-01-08 In the US one out of every 138 residents is incarcerated The size of the prison population has quadrupled since 1980 Approximately 2 4% of Americans are either on probation and parole The US has the highest rate of criminal punishment in the Western world The problem with American criminal law as the philosopher of law Douglas Husak and many others see it is that there is simply too much of it Recent years have seen a dramatic expansion in the amount of criminal statutes and in the resulting reliance on punishment for convictions under those laws Husak argues that this is regrettable for several reasons but most importantly he says that much of the resulting punishment is unjust excessive and disproportionate He also claims that it is destructive to the rule of law and undermines the principle of legality What should be done Husak s goal in this book is formulate a normative theory of criminalization that will allow us to distinguish which criminal laws are justified and which are not something he sees this as essential in order to reverse the trend towards too many criminal laws The first part of his book makes the case that there is both too much criminal law and too much punishment and clarifies the relationship between the two using empirical data He then provides examples of dubious criminal laws enacted by legislatures in particular statutes on drugs possession and guns The latter part of the book develops his theory which establishes principles that should set limits both external and internal to the criminal law on what we can and should criminalize      *Criminal Law: The Basics* Jonathan Herring, 2021-09-06 Criminal Law The Basics is an insightful introduction to the legal aspects of criminal acts ranging from battery to burglary and harassment to homicide Starting with an in depth exploration of the very concept of crime the book considers key questions such as How should we decide what is criminal and what isn t What is the difference between murder and manslaughter Could you ever be guilty of stealing your own property What defences are available to those accused of crime Featuring a range of case studies from the infamous to the bizarre the new edition has been thoroughly updated to include new material on loss of control accessory liability dishonesty causation liability manslaughter and sexual offences Relevant cases statutes and suggestions for further reading are included throughout making Criminal Law The

Basics the ideal starting point for anyone studying this area for the first time      *Smith, Hogan, and Ormerod's Criminal Law* David Ormerod, Karl Laird, 2018 *Smith Hogan Ormerod's Criminal Law* is rightly regarded as the leading doctrinal textbook on criminal law in England and Wales Published in its first edition over fifty years ago it continues to be a key text for undergraduates and an essential reference source for practitioners      **The Routledge International Handbook of Criminal Responsibility** Thomas Crofts, Louise Kennefick, Arlie Loughnan, 2024-12-23 Presenting cutting edge research and scholarship this extensive volume covers everything from abstract theorising about the meanings of responsibility and how we blame to analysing criminal law and justice responses and factors that impact individual responsibility Inviting exchanges across a burgeoning critical scholarship on criminal responsibility this Handbook showcases the diverse range of methodologies applied to the field including socio political approaches critical historical methods criminological and sociological perspectives and interdisciplinary studies bridging law and the mind sciences Spanning global networks of established and emerging scholars of responsibility for crime this book explores how we relate to one another as human beings under the spotlight of the criminal law In doing so it is hoped that the collection not only does justice to the vibrant landscape of criminal responsibility studies but inspires new directions and future synergies in this compelling field The Routledge International Handbook of Criminal Responsibility will appeal to scholars and students of criminal law criminal justice criminology sociology psychology neuroscience philosophy and socio legal studies as well as practitioners and policymakers working in related fields      **Criminal Justice and Taxation** Peter Alldridge, 2017 A topical and lively discussion of how the criminal justice system attempts to ensure compliance with tax responsibility discussing the development of tax evasion offences and the relationship between evasion and evidential rules prosecution structures and alternatives to prosecution      Answering for Crime R A Duff, 2007-11-16 In this long awaited book Antony Duff offers a new perspective on the structures of criminal law and criminal liability His starting point is a distinction between responsibility understood as answerability and liability and a conception of responsibility as relational and practice based This focus on responsibility as a matter of being answerable to those who have the standing to call one to account throws new light on a range of questions in criminal law theory on the question of criminalisation which can now be cast as the question of what we should have to answer for and to whom under the threat of criminal conviction and punishment on questions about the criminal trial as a process through which defendants are called to answer and about the conditions bars to trial given which a trial would be illegitimate on questions about the structure of offences the distinction between offences and defences and the phenomena of strict liability and strict responsibility and on questions about the structures of criminal defences The net result is not a theory of criminal law but it is an account of the structure of criminal law as an institution through which a liberal polity defines a realm of public wrongdoing and calls those who perpetrate or are accused of perpetrating such wrongs to account      The SAGE Encyclopedia of Criminal Psychology Robert D. Morgan, 2019-04-25 The SAGE Encyclopedia

**Doing Time on the Outside** Donald Braman, 2007-08-06 Stigma shame and hardship this is the lot shared by families whose young men have been swept into prison Braman reveals the devastating toll mass incarceration takes on the parents partners and children left behind Katherine S Newman Doing Time on the Outside brings to life in a compelling way the human drama and tragedy of our incarceration policies Donald Braman documents the profound economic and social consequences of the American policy of massive imprisonment of young African American males He shows us the link between the broad scale policy changes of recent decades and the isolation and stigma that these bring to family members who have a loved one in prison If we want to understand fully the impact of current criminal justice policies this book should be required reading Mark Mauer Assistant Director The Sentencing Project Through compelling stories and thoughtful analysis this book describes how our nation s punishment policies have caused incalculable damage to the fabric of family and community life Anyone concerned about the future of urban America should read this book Jeremy Travis The Urban Institute In the tradition of Elijah Anderson s Code of the Street and Katherine Newman s No Shame in My Game this startling new ethnography by Donald Braman uncovers the other side of the incarceration saga the little told story of the effects of imprisonment on the prisoners families Since 1970 the incarceration rate in the United States has more than tripled and in many cities urban centers such as Washington D C it has increased over five fold Today one out of every ten adult black men in the District is in prison and three out of every four can expect to spend some time behind bars But the numbers don t reveal what it s like for the children wives and parents of prisoners or the subtle and not so subtle effects mass incarceration is having on life in the inner city Author Donald Braman shows that those doing time on the inside are having a ripple effect on the outside reaching deep into the family and community life of urban America Braman gives us the

personal stories of what happens to the families and communities that prisoners are taken from and return to Carefully documenting the effects of incarceration on the material and emotional lives of families this groundbreaking ethnography reveals how criminal justice policies are furthering rather than abating the problem of social disorder Braman also delivers a number of genuinely new arguments Among these is the compelling assertion that incarceration is holding offenders unaccountable to victims communities and families The author gives the first detailed account of incarceration s corrosive effect on social capital in the inner city and describes in poignant detail how the stigma of prison pits family and community members against one another Drawing on a series of powerful family portraits supported by extensive empirical data Braman shines a light on the darker side of a system that is failing the very families and communities it seeks to protect

**White-Collar Crime** J. Goldstraw-White,2011-10-27 This book explores the accounts given by white collar crime offenders to defend their criminal behaviour in order to preserve their characters and social standing It is based on in depth interviews with 41 male and female convicted white collar offenders who were still serving their sentences in English prisons Whilst a number of texts have been written about white collar crime offenders very few studies have attempted to approach this by examining the actual reasons and motives for their criminal behaviour directly from the offenders This book aims to make further progress in this area By exploring the participants motives opportunities and morality this book will make a key contribution to exploring white collar crime offenders perspectives of their crimes This book not only adds to the academic knowledge in this area but also helps organizations to consider the strengths of their crime prevention methods and appropriateness of their fraud and security policies

**White-Collar Crime in the Shadow Economy** Petter Gottschalk,Lars Gunnesdal,2018-03-22 This open access book examines the magnitude causes of and reactions to white collar crime based on the theories and research of those who have uncovered various forms of white collar crime It argues that the offenders who are convicted represent only the tip of the iceberg of a much greater problem because white collar crime is forced to compete with other kinds of financial crime like social security fraud for police resources and so receives less attention and fewer investigations Gottschalk and Gunnesdal also offer insights into estimation techniques for the shadow economy in an attempt to comprehend the size of the problem Holding broad appeal for academics practitioners in public administration and government agencies this innovative study serves as a timely starting point for examining the lack of investigation detection and conviction of powerful white collar criminals
