Research Report ,2012 Training Lessons Learned on Sights and Devices in the Land Warrior (LW) Weapon Subsystem Jean L. Dyer,1999 The Land Warrior LW system is the Army s future system for the individual soldier The LW consists of five subsystems with the weapon subsystem the focus of the training research The training of two platoons in

preparation for a LW operational test was observed Four sights and devices were trained the close combat optic two aiming lights and the thermal weapon sight plus a bore light The training adequately prepared the soldiers to qualify on the M4 carbine with the close combat optic and the thermal weapon sight Qualification standards were extremely difficult to achieve with the aiming lights on the M4 due to environmental conditions typical of Army ranges not to lack of firer expertise A standardized technique for boresighting all the devices was developed Diagnostic skills needed by trainers and soldiers to effectively hit targets with each device were identified The findings have immediate applicability to the Army as the devices are currently being fielded The report describes what contributes to quality training on the devices and what should be integrated into marksmanship programs of instruction technical manuals and the training and doctrine literature Stinet
