## **Mabive Retaliation:**

*The Soviet View of U.S. Strategic Doctrine* Jonathan Samuel Lockwood, 1983-01-01 Soviet perceptions of American strategic doctrine have influenced then use of military power in foreign policy An understanding of how those perceptions are being derived at and of their specific contents is therefore essential to any reflection on direction that American defense policy should take Particularly in the field of arms control and disarmament Soviet perceptions carry severe implications for U S proposals as well as general behavior Lockwood bases his examination on Soviet sources such as newspapers periodicals radio broadcasts and books He establishes that Soviet analysts tend to project their own notions of clear strategy onto U S doctrine and intentions Starting from the premise that the Soviets mean what they say Lockwood is able to give a historical account of Soviet perceptions starting from massive retaliation up to and including Presidential Directive 59 In his final chapter the author gives possible policy strategies to successfully counteract the Soviet military policy *The Nuclear Seduction* William A. Schwartz, Charles Derber, 2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 **Massive Retaliation** Paul Peeters, 1959 Foundation For Foreign Affairs Series No 2 *Military Technology, Military Strategy and the Arms Race* Marek Thee, 2025-03-03 First published in 1986 *Military Technology Military Strategy and the Arms Race* argues that a principal factor contributing to the arms race is the military research and development R and D sector It traces the arms race since World War II and explores the relationship between the emergence of new weapon technology the development of new weapon systems and their impact on strategic thinking It considers the positions for both the United States and its allies in NATO and for the erstwhile Soviet Union It argues that military R and D which consumes an increasing proportion of total funds spent on R and D has developed a self sustaining technological momentum which is baked by a powerful military industrial bureaucratic technological complex and is increasingly out of control of political leaders The book argues that negotiations to limit the numbers of weapons fail to address the main problem and that more emphasis should be given to considering ways of limiting and controlling military R and D It concludes by proposing a radical shift in policy to achieve this This historical reference work is important for scholars and researchers of military studies defence studies international relations diplomacy and international politics *Documents on Disarmament* United States. Arms Control and Disarmament Agency, 1979 *Documents on Disarmament* , 1979 *The State, Society, and Limited Nuclear War* Eric Mlyn, 1995-02-01 Drawing on theories of the state archives and interviews with top defense policymakers this book tells an important story of interest to any reader concerned with how security policy is fashioned in the United States **The Russian View of U.S. Strategy** Jonathan Samuel Lockwood, 2017-09-04 Soviet perceptions of U S strategy remained remarkably consistent from

the post Stalin period through the collapse of communism in Eastern Europe and the Soviet Union itself The consistency of the Soviet tendency to engage in the mirror image fallacy in their analyses of U S doctrine and strategic intentions has profound implications for the future relationship of the U S and the now independent republics This authoritative volume analyzes the Soviet Russian perspectives of U S strategic evolution from the declaration of the massive retaliation doctrine of 1954 through the Soviet collapse of 1991 The Soviets considered the growth of their strategic nuclear arsenal as the main factor giving them political leverage over U S foreign policy and predicted that a defense policy based on strategic defense would be the most effective deterrent from a Soviet perspective Now the Russian military and political leadership places a high value on strategic nuclear forces in terms of political leverage and prestige Building upon a wide variety of international sources the Lockwoods offer a penetrating assessment of how the present Russian perspective will affect political relationships not only with the U S and the West but also among the independent republics This factor will become ever more critical as they vie for decentralized versus unified control of what was the Soviet nuclear arsenal under the shadow of the collapsing economies The authors also introduce a new theory concerning the future impact of ballistic missile defense on operational warfare in light of the U S experience in Operation Desert Storm The Russian View of U S Strategy provides a comprehensive historical context and an up to date appraisal of an uncertain and potentially volatile development in U S Russian relations It will be of interest to historians policymakers and military analysts Military Realism Peter Campbell,2019-05-08 After the Vietnam War the U S Army considered counterinsurgency COIN a mistake to be avoided Many found it surprising then when setbacks in recent conflicts led the same army to adopt a COIN doctrine Scholarly debates have primarily employed existing theories of military bureaucracy or culture to explain the army s re embrace of COIN but Peter Campbell advances a unique argument centering on military realism to explain the complex evolution of army doctrinal thinking from 1960 to 2008 In five case studies of U S Army doctrine Campbell pits military realism against bureaucratic and cultural perspectives in three key areas nuclear versus conventional warfare preferences for offense versus defense and COIN missions and finds that the army has been more doctrinally flexible than those perspectives would predict He demonstrates that decision makers while vowing in the wake of Vietnam to avoid COIN missions nonetheless found themselves adapting to the geopolitical realities of fighting low intensity conflicts In essence he demonstrates that pragmatism has won out over dogmatism At a time when American policymakers remain similarly conflicted about future defense strategies Campbell s work will undoubtedly shape and guide the debate **Eisenhower and the Missile Gap** Peter Roman,2019-05-15 Uncertainty about Soviet intentions and capabilities after the launch of Sputnik required changes in U S strategic nuclear policy Peter J Roman draws from recently declassified archives to examine one of the most unstable periods in the Cold War Roman argues that presidential leadership from 1957 to 1960 was crucial to national security Dwight D Eisenhower was he argues actively involved in all nuclear policy making His responses to the extreme uncertainty of the

late 1950s shaped American nuclear policy for decades and in its internal deliberations his administration anticipated much of the subsequent public debate Eisenhower and the Missile Gap investigates a variety of issues actors and institutions to explain how a government deals with high levels of technological uncertainty Several significant themes emerge the evolution of American perceptions of vulnerability problems in intelligence collection and analysis the integration of new weapons systems into strategy the influence of the armed forces the impact of organizational interests on policy and force decisions Eisenhower's internal and external leadership style and presidential management of defense and foreign policy

**The Evolution of the US Air Force** Israel Guy, 2024-08-05 This book looks at the history of the US Air Force through the lens of its lack of preparedness for major wars which is shown to be a result of its organizational culture The U S Air Force is probably the most powerful military force in history both in its destructive firepower and in its ability to project it globally Yet despite its unparalleled power the Air Force entered its first three pivotal conflicts World War II the Korean War and the Vietnam War unprepared But surprisingly it was remarkably well prepared for its fourth major war the Gulf War of 1991 Could there be an underlying trait or characteristic which influenced the Air Force between the wars that historically caused the US Air Force to be unprepared for war or prepared for the wrong type of war Surprisingly there is such a factor which was quite prominent in the Air Force's complex identity its organizational culture Besides providing a historical description of the Air Force this book demonstrates clearly how its organizational culture evolved and how it caused the US Air Force to be prepared for the wrong war It also shows that when the organizational culture changed the Air Force changed its focus and arrived prepared for the following war the 1991 Gulf War This book will be of interest to students of air power strategic studies US public policy and security studies in general American Foreign Policy Glenn P.

Hastedt, 2020-02-17 Hastedt introduces students to America's changing role in the world and provides them with the critical thinking skills needed to participate in the debate about the conduct and content of American foreign policy **Grand**

**Expectations** James T. Patterson, 1996-04-18 James T Patterson skilfully weaves together political social cultural and economic history to present a fascinating survey of postwar America **Nuclear Deterrence** Roy E. Jones, 2025-04-01 Nuclear Deterrence 1968 examines the issue of nuclear armed powers deterring attacks upon themselves with the threats of devastating retaliatory responses It looks at the number of assumptions and conditions associated with the policy and the difficulties of national governments in maintaining these positions as part of their political platforms **Ideas, concepts,**

**doctrine** Robert Frank Futrell, 1980 *Pakistan's Tactical Nuclear Weapon: Conflict Redux* Brigadier Gurmeet Kanwal, Dr Monika Chansoria, 2013-10-15 Tactical Nuclear Weapons TNWs often referred to as battlefield sub strategic or non strategic nuclear weapons usually have a plutonium core and are typically distinct from strategic nuclear weapons Therefore they warrant a separate consideration in the realm of nuclear security The yield of such weapons is generally lower than that of strategic nuclear weapons and may range from the relatively low 0.1 kiloton to a few kilotons Pakistan's quest to acquire

tactical nuclear weapons has added a dangerous dimension to the already precarious strategic equation in South Asia. The security discourse in the subcontinent revolves around the perennial apprehension of a conventional or sub-conventional conflict triggering a chain reaction eventually paving the way for a potential nuclear crisis haunting peace and stability in the region. Pakistan believes that the successful testing of the 60 km nuclear capable short range missile Hatf 9 Nasr adds deterrence value to Pakistan's strategic weapons development programme at shorter ranges. In paradox the fact remains that this step has further lowered Pakistan's nuclear threshold through the likely use of TNWs. The introduction of TNWs into the tactical battle area further exacerbates credibility of their control. Pakistan has not formally declared a nuclear doctrine but it is well known that nuclear weapons are its first line of defence. The use of TNWs in the India-Pakistan case will alter the strategic scenario completely as Pakistan would threaten India with the use of TNWs in the event of New Delhi responding against Islamabad with a conventional strike in reaction to a 26/11 style terrorist attack. Pakistan forgets that given its offensive strategic posture and continuing involvement in terror strikes in India it is New Delhi which is confronted with the problem of developing a strategy to counter Pakistan's first strike and proxy war in the light of its declared no first use policy. This edited volume attempts to address and decipher complex issues including aspects such as China's WMD collaboration with Pakistan, nuclear command and control dynamics within Pakistan, overall rationale and implications of TNWs, safety and security of nuclear weapons, scenarios for nuclear usage, India's potential response options and more specifically the technical aspects of the Nasr delivery system.

Air University Review ,1975      **Encyclopedia of Violence, Peace, and Conflict** ,2008-09-05

The 2nd edition of Encyclopedia of Violence, Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life. Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over, the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change. Covering topics as diverse as Arms Control, Peace Movements, Child Abuse, Folklore, Terrorism and Political Assassinations, the Encyclopedia comprehensively addresses an extensive information area in 225 multi-disciplinary, cross-referenced and authoritatively authored articles. In his Preface to the 1st edition, Editor in Chief Lester Kurtz wrote: 'The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately. We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully. Instead we have increased the lethality of our combat through revolutions in weapons technology and military training. The Encyclopedia of Violence, Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena. Ten years on, the need for an authoritative and cross-disciplinary approach to the great issues of violence and peace seems greater than ever. More than 200 authoritative multidisciplinary articles in a 3 volume set

Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world **Department of Defense Appropriations for 1957** United States.
