Commentary on Macaulay's History of England Sir Charles

Harding Firth, 2012-10-12 First published in 1964 Before the great war Sir Charles Firth used to give from time to time a course of lectures on Macaulay's History of England When he undertook the preparation of an illustrated edition of that work published 1913-15 in six volumes he began to revise his lectures in order to compile from them a commentary on the History Unfortunately the task of revision was interrupted during the war and never resumed except to publish two articles on Macaulay's Third Chapter¹ and Macaulay's Treatment of Scottish History² which form chapters vi and viii of this book Collated in this volume are these works and also commentary whose object is not merely to criticise the statements made by Macaulay and the point of view adopted by him but also to show the extent to which his conclusions had been invalidated or confirmed by later writers who had devoted their attention to particular parts of his subject or by the new documentary materials published during the last sixty years

Historians and the Church of England James Kirby, 2016 In the Victorian and Edwardian era history was one of the most prized forms of cultural and intellectual activity it was quite simply the lens through which most of the educated population understood human society *Historians and the Church of England* uncovers for the first time the extent to which this historical understanding was conditioned by religious ideas and institutions Rejecting the traditional chronology of intellectual secularization it contends that the Church of England in particular remained an active force in the development of scholarship leaving a deep impression on history just as it was becoming a modern discipline It therefore challenges readers to revise their understanding of the history of both historiography and religion in the nineteenth and early twentieth centuries
