Ivins** William Mills Ivins, 2004-01-01 *Machine Politics and Money in Elections in New York City* William Mills Ivins, 1887 *Five Points* Tyler Anbinder, 2012-06-05 The very letters of the two words seem as they are written to redden with the blood stains of unavenged crime There is Murder in every syllable and Want Misery and Pestilence take startling form and crowd upon the imagination as the pen traces the words So wrote a reporter about Five Points the most infamous neighborhood in nineteenth century America the place where slumming was invented All but forgotten today Five Points was once renowned the world over Its handful of streets in lower Manhattan featured America s most wretched poverty shared by Irish Jewish German Italian Chinese and African Americans It was the scene of more riots scams saloons brothels and drunkenness than any other neighborhood in the new world Yet it was also a font of creative energy crammed full of cheap theaters and dance halls prizefighters and machine politicians and meeting halls for the political clubs that would come to dominate not just the city but an entire era in American politics From Jacob Riis to Abraham Lincoln Davy Crockett to Charles Dickens Five Points both horrified and inspired everyone who saw it The story that Anbinder tells is the classic tale of America s immigrant past as successive waves of new arrivals fought for survival in a land that was as exciting as it was dangerous as riotous as it was culturally rich Tyler Anbinder offers the first ever history of this now forgotten neighborhood drawing on a wealth of research among letters and diaries newspapers and bank records police reports and archaeological digs Beginning with the Irish potato famine influx in the 1840s and ending with the rise of Chinatown in the early twentieth century he weaves unforgettable individual stories into a tapestry of tenements work crews leisure pursuits both licit and otherwise and riots and political brawls that never seemed to let up Although the intimate stories that fill Anbinder s narrative are heart wrenching they are perhaps not so shocking as they first appear Almost all of us trace our roots to once humble stock Five Points is in short a microcosm of America Bulletin of the Public Library of the City of Boston Boston Public Library, 1889 The Spectator , 1889 A weekly review of politics literature theology and art *Select List of Works Relating to Taxation of Inheritances and of Incomes* Library of Congress. McGerr, 1988-05-19 In the 1984 presidential election only half of the eligible electorate exercised its right to vote Why does politics no longer excite many of not most Americans Michael McGerr attributes the decline in voting in the American North to the transformation of political style after the Civil War The Decline of Popular Politics vividly recreates a vanished world of democratic ritual and charts its disappearance in the rapid change of industrial society A century ago political campaigns meant torchlight parades spectacular pageants staged by opposing parties and crowds of citizens attired in military dress or proudly displaying their crafts at well attended

rallies The intense partisanship of presidential campaigns and party newspapers made political choice easy for people from all walks of life In the late 1860s and 1870s however the rise of liberalism led to a rejection of partisanship by the press and a move towards educational rather than spectacular electioneering This style then lost out at the turn of the century to the sensational journalism of Joseph Pulitzer and William Randolph Hearst and the advertised campaigning of Mark Hanna and other politicians McGerr shows how these new developments made it increasingly difficult for many Northerners to link their political impulses with political action By the 1920s Northern politics resembled our own public life today A vital democratic culture had yielded to advertised campaigns an emphasis on personalities rather than issues or partisanship and low voter turnout

The Money Machines Clifton K. Yearley, 1970-06-30 *The Money Machines* advances the provocative thesis that the mechanisms for financing state and local government in the Northern United States from 1860 to 1920 were deeply enmeshed with those financing the extralegal often illegal activities of the major political parties complicating reform or change mandated by the post Civil War breakdown of the North's legal fiscal machinery Few reformers then recognized the interdependence of government and the party money machines fewer still acknowledged the effectiveness or social value of the extralegal machines On the contrary basic fiscal reform in this period was characterized by attempts to exorcise politics in any form which in turn provoked counteraction from politicians whose organizations had the same need for efficient reliable revenue systems as did governments Dr Yearley demonstrates the failure of the established legal money machines to cope with the demands of postwar governments facing industrialization and urbanization He characterizes the revolt of old and new middle classes against fiscal inequity and inefficiency and shows how much of the North's new wealth escaped taxation altogether while much of its old wealth similarly went into hiding

Because of its forbidding complexities tax reform was sustained by a small group of experts from the middle class whose sincerity and competence were unquestionable but whose reformism evidenced the peculiar views and prejudices of their class Here therefore the graft grabbing politician is presented in a fresh light In his efforts to maintain his sources of revenue and power he emerges as a vital instrument of mass democracy of the new politics of the ever growing urban lower classes as well as their principal source of government welfare or support The author reevaluates the Gilded Age politician in several important ways principally regarding his power relationship to the business communities and his ability to perform his job well despite middle class disdain and continual allegations of fraud and incompetence Further Dr Yearley shows that often politicians were ahead of reformers in their fiscal thinking in recognizing and utilizing taxation of income rather than of property The volume considers in some depth several individual reformers revealing them to be among other things prototypes of present academic experts used by government to manage problems too complex for laymen The book then proceeds to explain essential changes made in local fiscal systems and which of these were to be the most effective explanations that are of particular interest in view of the continuing crises in state and local financing today The Quarterly Review William Gifford,Sir John Taylor Coleridge,John Gibson Lockhart,Whitwell Elwin,William Macpherson,William Smith,Sir John Murray (IV),John Murray,Rowland Edmund Prothero (Baron Ernle),George Walter Prothero,1890 *Author-title Catalog* University of California, Berkeley.
