au fil des si cles pour satisfaire au mieux les id aux de l imagination populaire      Encyclopedia of the Holy Grail Jeffrey John  
Dixon, 2023-03-22 In the twelfth century a French poet wrote a verse romance about a young knight who witnesses a  
mysterious procession centered on a radiant vessel a grail Left unfinished the poem inspired other writers of prose and verse  
until the story was completely rewritten into the Arthurian romances in which the vessel becomes a relic of the Last Supper  
the Holy Grail For hundreds of years the Grail story has haunted the western imagination But the original medieval texts are  
full of inconsistencies as different writers attempted to complete the story in varied ways This encyclopedia illuminates a  
path through the Perilous Forest of literature and legend Entries summarize the stories of the principal characters sacred  
objects and places associated with the Grail An Afterword shows how mysteries of the grail continue to enchant the scholars  
and creative writers who have transformed the medieval legend into modern mythology      **Cultures of Eschatology**  
Veronika Wieser, Vincent Eltschinger, Johann Heiss, 2020-07-20 In all religions in the medieval West as in the East ideas about  
the past the present and the future were shaped by expectations related to the End The volumes Cultures of Eschatology

**The Alexander Romance: History and Literature** Richard Stoneman,Krzysztof Nawotka, Agnieszka Wojciechowska,2018-07-31 The Alexander Romance is a difficult text to define and to assess justly From its earliest days it was an open text which was adapted into a variety of cultures with meanings that themselves vary and yet seem to carry a strong undercurrent of homogeneity Alexander is the hero who cannot become a god and who encapsulates the desires and strivings of the host cultures The papers assembled in this volume which were originally presented at a conference at the University of Wrocław Poland in October 2015 all face the challenge of defining the Alexander Romance Some focus on quite specific topics while others address more overarching themes They form a cohesive set of approaches to the delicate positioning of the text between history and literature From its earliest elements in

Hellenistic Egypt to its latest reworkings in the Byzantine and Islamic Middle East the Alexander Romance shows itself to be a work that steadily engages with such questions as kingship the limits of human and Greek nature and the purpose of history The Romance began as a history but only by becoming literature could it achieve such a deep penetration of east and west

*Greek Texts and Armenian Traditions* Francesca Gazzano, Lara Pagani, Giusto Traina, 2016-08-22 An interdisciplinary approach crucial as it is in most fields of research proves itself to be unescapable in the study of interactions between the ancient Armenian and Greek worlds and literatures The volume arises from such an awareness and collects papers presented in a conference which has been organized in 2013 at the University of Genova thanks to a cooperation with the Universit Paris Sorbonne following in the footsteps of a tradition inaugurated by Giancarlo Bolognesi in the years 80 and 90 The subject is explored from many points of view the topic of Armenian translations of Greek texts with considerations of a methodological nature and the discussion of case studies aspects which pertain to the historical context and the historiographical sources the wide theme of the Armenian reception of Biblical Christian and Byzantine literature and finally philological linguistic and lexical problems The aim of this kind of research is to exploit the cooperation among classical philologists linguists and Armenologists in order to face the challenge of investigating a subject which requires many different competences

**The Mirror in the Text** Lucien Dällenbach, 1989-07-27 The Mirror in the Text is concerned with the literary and artistic device of mise en abyme the use of an element within a work which mirrors the work as a whole like the play within a play in Hamlet In this classic study Lucien D llenbach provides the first systematic analysis of this device and its literary and artistic applications from Van Eyck and Velasquez to Gide Beckett and the French nouveau roman Alongside this wealth of examples D llenbach constructs his theoretical argument with elegance and clarity assuming no previous knowledge of arcane and specialized theory but guiding the reader helpfully through the maze of literary criticism The result is a new conceptual field a new grammar of the mise en abyme and an examination of its function within the work of art and literature The highly original study has been acclaimed as one of the most important works of contemporary literary theory It will be of interest to all students of English and European literature as well as to students of the visual arts

**The Alexander Romance in Persia and the East** Richard Stoneman, Kyle Erickson, Ian Richard Netton, 2012 Alexander the Great of Macedon was no stranger to controversy in his own time Conqueror of the Greek states of Egypt and of the Persian Empire as well as many of the principalities of the Indus Valley he nevertheless became revered as well as vilified Was he simply a destroyer of the ancient civilizations and religions of these regions or was he a hero of the Persian dynasties and of Islam The conflicting views that were taken of him in the Middle East in his own time and the centuries that followed are still reflected in the tensions that exist between east and west today The story of Alexander became the subject of legend in the medieval west but was perhaps even more pervasive in the east The Alexander Romance was translated into Syriac in the sixth century and may have become current in Persia as early as the third century AD From these beginnings it reached

into the Persian national epic the Shahnameh into Jewish traditions and into the Quran and subsequent Arab romance The papers in this volume all have the aim of deepening our understanding of this complex development If we can understand better why Alexander is such an important figure in both east and west we shall be a little closer to understanding what unites two often antipathetic worlds This volume collects the papers delivered at the conference of the same title held at the University of Exeter from July 26-29 2010 More than half the papers were by invited speakers and were designed to provide a systematic view of the subject the remainder were selected for their ability to carry research forward in an integrated way
