Portraiture At Home:

At-home portraiture, flashlight, commercial and press photography American School of Art and Photography (Scranton, Pa.), American School of Art and Photography, Scranton, Pa, 1911 Studio portraiture, pt. II. Studio system James Boniface Schriever, 1909 "*Interior Portraiture and Masculine Identity in France, 1789?914* " Heather Belnap Jensen, 2017-07-05

Focusing specifically on portraiture as a genre this volume challenges scholarly assumptions that regard interior spaces as uniquely feminine Contributors analyze portraits of men in domestic and studio spaces in France during the long nineteenth century the preponderance of such portraits alone supports the book's premise that the alignment of men with public life is oversimplified and more myth than reality The volume offers analysis of works by a mix of artists from familiar names such as David Delacroix Courbet Manet Rodin and Matisse to less well known image makers including Dominique Doncre Constance Mayer Anders Zorn and Lucien Etienne Melingue The essays cover a range of media from paintings and prints to photographs and sculpture that allows exploration of the relation between masculinity and interiority across the visual culture of the period The home and other interior spaces emerge from these studies as rich and complex locations for both masculine self expression and artistic creativity *Interior Portraiture and Masculine Identity in France 1789 1914* provides a much needed rethinking of modern masculinity in this period **Amateur Portraiture at Home** Frederick Dundas Todd, 1898 **How to Make Portraits** Frank Roy Fraprie, 1917 *House & Garden*, 1920 **American Photography**, 1927 A Plea for Art in the House William John Loftie, 1878 Complete Self-instructing Library of Practical Photography James Boniface Schriever, 1909 **High Art Down Home** Stuart Plattner, 1996-12 Met lit opg Met reg Case study of the St Louis art market The author has interviewed the local artists dealers and collectors Bulletin of Photography John Bartlett, Frank V. Chambers, Francis Stapleton Chambers, 1914 **Camera Magazine**, 1909 *Old Women and Art in the Early Modern Italian Domestic Interior* Erin J. Campbell, 2016-03-09 Though portraits of old women mediate cultural preoccupations just as effectively as those of younger women the scant published research on images of older women belies their significance within early modern Italy This study examines the remarkable flowering largely overlooked in portraiture scholarship to date of portraits of old women in Northern Italy and especially Bologna during the second half of the sixteenth century when as a result of religious reform the lives of women and the family came under increasing scrutiny *Old Women and Art in the Early Modern Italian Domestic Interior* draws on a wide range of primary visual sources including portraits religious images architectural views prints and drawings as well as extant palazzi and case furnishings and domestic objects created by the leading artists in Bologna including Lavinia Fontana Bartolomeo Passerotti Denys Calvaert and the Carracci The study also draws on an array of historical sources including sixteenth century theories of portraiture prescriptive writings on women and the family philosophical and practical treatises on the home economy sumptuary legislation books of secrets prescriptive writings on old age and household inventories to provide new historical perspectives on the domestic life

of the propertied classes in Bologna during the period Author Erin Campbell contends that these images of unidentified women are not only crucial to our understanding of the cultural operations of art within the early modern world but also by working from the margins to revise the center provide an opportunity to present new conceptual frameworks and question our assumptions about old age portraiture and the domestic interior **American Art Annual** ,1908 **British Art in the Nuclear Age** Catherine Jolivette,2017-07-05 Rooted in the study of objects British Art in the Nuclear Age addresses the role of art and visual culture in discourses surrounding nuclear science and technology atomic power and nuclear warfare in Cold War Britain Examining both the fears and hopes for the future that attended the advances of the nuclear age nine original essays explore the contributions of British born and gr rtists in the areas of sculpture textile and applied design painting drawing photo journalism and exhibition display Artists discussed include Francis Bacon John Bratby Lynn Chadwick Prunella Clough Naum Gabo Barbara Hepworth Peter Lanyon Henry Moore Eduardo Paolozzi Peter Laszlo Peri Isabel Rawsthorne Alan Reynolds Colin Self Graham Sutherland Feliks Topolski and John Tunnard Also under discussion is new archival material from Picture Post magazine and the Festival of Britain Far from insular in its concerns this volume draws upon cross cultural dialogues between British and European artists and the relationship between Britain and America to engage with an interdisciplinary art history that will also prove useful to students and researchers in a variety of fields including modern European history political science the history of design anthropology and media studies **Saturday Review of Politics, Literature, Science and Art** ,1907 **Dutch Art** Sheila D.
