Japan's Role in International Politics since World War II Edward R. Beauchamp, 2013-04-11 The best scholarship on the development of contemporary Japan This collection presents well over 100 scholarly articles on modern Japanese society written by leading scholars in the field These selections have been drawn from the most distinguished scholarly journals as well as from journals that are less well known among specialists and the articles represent the best and most important scholarship on their particular topic An understanding of the present through the lens of the past The field of modern Japan studies has grown steadily as Westerners have recognized the importance of Japan as a leading world economic force and an emerging regional power The post 1945 economic success of the Japanese has however been achieved in the context of that nation s history social structure educational enterprise and political environment It is impossible to

understand the postwar economic miracle without an appreciation of these elements Japan's economic emergence has brought about and in some cases exacerbated already existing tensions and these tensions have in turn had a significant impact on Japanese economic life The series is designed to give readers a basic understanding of modern Japan its institutions and its people as we stand on the threshold of a new century often referred to as the Pacific Century Japan's Economic Power and Security Christopher W. Hughes, 2013-01-11 Is Japan re-emerging as a normal or even a great military power in regional and global security affairs This Adelphi Paper assesses the overall trajectory of Japan's security policy over the last decade and the impact of a changing Japanese military posture on the stability of East Asia The paper examines Japan's evolving security debate set against the background of a shifting international environment and domestic policymaking system the status of Japan's national military capabilities and constitutional prohibitions post Cold War developments in the US Japan alliance and Japan's role in multilateral regional security dialogue UN PKO and US led coalitions of the willing It concludes that Japan is undoubtedly moving along the trajectory of becoming a more assertive military power and that this trend has been accelerated post 9/11 Japan is unlikely though to channel its military power through greatly different frameworks than at present Japan will opt for the enhanced and probably inextricable integration of its military capabilities into the US Japan alliance rather than pursuing options for greater autonomy or multilateralism Japan's strengthened role as the defensive shield for the offensive sword of US power projection will only serve to bolster US military hegemony in East Asia and globally *Korea's Economic Prospects* O. Yul Kwon, William Shepherd, 2001-01-01 very well presented academic book in Korea's Economic Prospects a valuable source of research material on the economy and its prospects It will help one to understand the factors leading to the Korean recovery which has recently been recognised by the credit rating agency Marie Aim e Tourres The Journal of Development Studies This book examines the major issues arising from the Korean financial crisis of 1997 It considers the strong prospects for rapid economic recovery and the emerging changes in Korea's international economic relations and business environment The authors investigate the causes of the financial crisis and provide an evaluation of remedial measures and reforms currently being introduced in both private and public sectors of the Korean economy The book identifies a paradigm shift in Korean economic policy and discusses Korea's new role in both the regional and global economy It also examines the major developments reshaping Korea's international business environment through fundamental policy shifts in trade foreign direct investment labor relations management practices and the emerging trends in e-commerce **The Utilization of the World's Air Space and Free Outer Space in the 21st Century: Proceedings of the International Conference on Air and Space Policy, Law and Industry for the 21st Century, Held in Seoul from 23-25 June, 1997** Jiarui Cheng, Chia-Jui Cheng, Tu-hwan Kim, Doo Hwan Kim, 2000-04-27 Proceedings of the International Conference on Air and Space Policy Law and Industry for the 21st Century held in Seoul from 23-25 June 1997 Striving for Peace, Security, and Development of the World Joseph

Rotblat,1993 The momentous events of the past year have changed the political face of the globe the ideological struggle that dominated the world for most of this century is over erstwhile mortal enemies have become friends and partners But old attitudes have survived and modern weapons are in abundance New foci of conflict have emerged military confrontations are taking place the world is still in turmoil The welcome deep cuts in nuclear weapons have still left thousands of warheads in the arsenals and the spread of these weapons to new states would further increase the danger of a nuclear confrontation The release of the pressure pent up under oppressive regimes created a powerful drive for independence often achieved only after bloody wars Many of the new states are economically non viable poverty and famine are frequent adjuncts of independence If military conflicts are to be avoided a comprehensive strategy must be formulated to improve the standards of living in the developing countries and enhance their security A strategy is also needed to protect the environment from the effects of further industrialization and greater use of energy What is needed is a concept of a sustainable equitable and liveable world for all its inhabitants All these problems were analysed by scientists and scholars who met at a Pugwash Conference The arguments used by them and the proposed solutions are presented in this book under six themes World Peace Nuclear Disarmament Issues Arms Control Security in the Asia Pacific Region Development Strategies and World Economic Order Energy and the Environment

The New Security Agenda in the Asia-Pacific Region Denny Roy,2016-07-27 The field of security studies is undergoing a major re evaluation in the post Cold War era and this has important implications for the region The security dangers of the 1990s and beyond are different and more complex than those of the Cold War and strategic thinkers both in the academic and policy making spheres must begin to understand the new environment lest they fall into the old trap of planning for the next conflict based on the conditions of the last conflict This book is designed to survey the new environment assessing what

has changed and what remains the same and suggesting what types of demands future strategists will face *After the Cold War* Keith Philip Lepor, 1997-01-01 Twenty specially commissioned essays from world leaders assess the possibilities and the perils of the new strategic political and economic interrelationships that are emerging around the world
