formation An original and thought provoking work Education and the Limits of Reason offers a fresh perspective on classic texts by Dostoevsky Tolstoy and Nabokov and encourages readers to reconsider conventional views of teaching and learning This book will appeal to a wide range of academics researchers and postgraduate students in the fields of education literature and philosophy Women in Ancient Greece Sue Blundell,1995 Largely excluded from any public role the women of ancient Greece nonetheless appear in various guises in the art and writing of the period and in legal documents These representations in Sue Blundell s analysis reveal a great deal about women s day to day experience as well as their legal and economic position and how they were regarded by men A History of Feminist and Gender Economics Giandomenica Becchio,2019-10-30 This book offers a historical exploration of the genesis of feminist economics and gender economics as well as their theoretical and methodological differences Its narrative also serves to embed both within a broader cultural context Although both feminist economics and gender neoclassical economics belong to the cultural process related to the central role of the political economy in promoting women s emancipation and empowerment they differ in many aspects Feminist economics mainly influenced by women s studies and feminism rejected neoclassical economics while gender neoclassical economics mainly influenced by home economics and the new home economics adopted the neoclassical economics approach to gender issues The book includes diverse case studies which also highlight the continuity between the story of women s emancipation and the more recent developments of feminist and gender studies This volume will be of great interest to researchers and academia in the fields of feminist economics gender studies and the history of economic thought

University Women Sara Z. MacDonald,2021-11-15 Bessie Scott nearing the end of her first year at university in the spring of 1890 recorded in her diary Wore my gown for first time It didn t seem at all strange to do so Often deemed a cumbersome tradition by men the cap and gown were dearly prized by women as an outward sign of their hard won admission to the rank of undergraduates For the first generations of university women higher education was an exhilarating and transformative experience but these opportunities would narrow in the decades that followed In University Women Sara MacDonald explores the processes of integration and separation that marked women s contested entrance into higher education Examining the period between 1870 and 1930 this book is the first to provide a comparative study of women at universities across Canada MacDonald concludes that women s higher education cannot be seen as a progressive narrative a triumphant story of trailblazers and firsts of doors being thrown open and staying open The early promise of equal education was not fulfilled in the longer term as a backlash against the growing presence of women on campuses resulted in separate academic programs closer moral regulation and barriers that restricted their admission into the burgeoning fields of science technology engineering and mathematics The modernization of higher education ultimately marginalized women students researchers and faculty within the diversified universities of the twentieth century University Women uncovers the systemic inequalities based on gender race and class that have shaped Canadian higher education It is indispensable reading for those
