## **Reclaiming A Plundered Past Archaeology And Nation Building In Modern Iraq Hardcover:**

**Reclaiming a Plundered Past** Magnus T. Bernhardsson, 2013-08-21 The looting of the Iraqi National Museum in April of 2003 provoked a world outcry at the loss of artifacts regarded as part of humanity's shared cultural patrimony. But though the losses were unprecedented in scale, the museum looting was hardly the first time that Iraqi heirlooms had been plundered or put to political uses. From the beginning of archaeology as a modern science in the nineteenth century, Europeans excavated and appropriated Iraqi antiquities as relics of the birth of Western civilization. Since Iraq was created in 1921, the modern state has used archaeology to forge a connection to the ancient civilizations of Mesopotamia and of Islamic empires and so build a sense of nationhood among Iraqis of differing religious traditions and ethnicities. This book delves into the ways that archaeology and politics intertwined in Iraq during the British Mandate and the first years of nationhood before World War II. Magnus Bernhardsson begins with the work of British archaeologists who conducted extensive excavations in Iraq and sent their finds to the museums of Europe. He then traces how Iraqis' growing sense of nationhood led them to confront the British over antiquities law and the division of archaeological finds between Iraq and foreign excavators. He shows how Iraq's control over its archaeological patrimony was directly tied to the balance of political power and how it increased as power shifted to the Iraqi government. Finally, he examines how Iraqi leaders including Saddam Hussein have used archaeology and history to legitimize the state and its political actions. *Reclaiming a Plundered Past* Magnus Thorkell Bernhardsson, 2000

**Writing the Modern History of Iraq** Jordi Tejel, Riccardo Bocco, 2012 The modern history of Iraq is punctuated by a series of successive and radical ruptures: coups d'état, changes of regime, military adventures, and foreign invasions whose chronological markers are relatively easy to identify. Although researchers cannot ignore these ruptures, they should also be encouraged to establish links between the moments when the breaks occur and the longue durée in order to gain a better understanding of the period. Combining a variety of different disciplinary and methodological perspectives, this collection of essays seeks to establish some new markers which will open fresh perspectives on the history of Iraq in the twentieth and twenty-first centuries and suggest a narrative that fits into new paradigms. The book covers the various different periods of the modern state: the British occupation and mandate, the monarchy, the first revolutions, and the decades of Ba'athist rule through the lens of significant groups in Iraq society including artists, film makers, political and opposition groups, members of ethnic and religious groups, and tribes. *The Middle East & South Asia Folklore Bulletin*, 2005

*Inventing Iraq* Toby Dodge, 2003 Dodge offers a sobering look back at the first attempt by a Western power to remake Iraq in its own image. *Iraq Beyond The Headlines: History, Archaeology, And War* Benjamin R Foster, Karen Foster, Patty Gerstenblith, 2005-08-04 This book is the first authoritative and up-to-date survey of the history of Iraq from earliest times to the present in any language. It presents a concise narrative of

the rich and varied history of this land drawing on political social economic artistic technological and intellectual material It also includes excerpts from works of ancient medieval and modern literature written in Iraq some of which are translated for the first time into English The final chapters provide an introduction to the history of archaeology in Iraq set in the wider context of the development of archaeology into a scientific discipline A special section highlights selected objects from the Iraq Museum with emphasis on their cultural significance and current status in the aftermath of the looting in April 2003 The last chapter offers a unique guide to the complex international and national legal regimes for the protection of cultural heritage The American led invasion and occupation of Iraq are a turning point in Iraq s modern history with important cultural consequences for all periods of its past For all who seek to understand more fully the current situation this book includes discussion of cultural and legal issues of the war and occupation placing recent events in their full context The Destruction of Cultural Heritage in Iraq Peter G. Stone, Joanne Farchakh Bajjaly, 2008 Discussion of the issues surrounding the destruction of cultural property in times of conflict has become a key issue for debate around the world This book provides an historical statement as of 1st March 2006 concerning the destruction of the cultural heritage in Iraq In a series of chapters it outlines the personal stories of a number of individuals who were and in most cases continue to be involved These individuals are involved at all levels and come from various points along the political spectrum giving a rounded and balanced perspective so easily lost in single authored reports It also provides the first views written by Iraqis on the situation of archaeology in Iraq under Saddam and an overview and contextualisation of the issues surrounding the looting theft and destruction of the archaeological sites the Iraqi National museum and the libraries in Baghdad since the war was launched in 2003 Beyond this it examines our attitudes towards the preservation of cultural and heritage resources and in particular the growing political awareness of their importance Although related to a single conflict taking place at a specific time in history the relevance of this work goes far beyond these self imposed boundaries PETER STONE is Professor of Heritage Studies and Head of School of Arts and Cultures at Newcastle University JOANNE FARCHAKH BAJJALY is a Lebanese archaeologist and Middle East correspondent for the French magazine *Arch ologia* *Memories of State* Eric Davis, 2005-02-28 Eric Davis eschews traditional histories of Iraq that have tended to emphasize political personalities and struggles amongst them and focuses instead on the relationships between culture and political control civil society and state institutions and intellectuals and policy makers The result is an innovative and multi layered analysis that is a pleasure to read Adeed Dawish author of *Arab Nationalism in the Twentieth Century From Triumph to Despair* Eric Davis s book is a truly impressive tour de force of the cultural history of modern Iraq and the political struggles over the appropriation of national culture and memory It is based not only on meticulous and detailed research but also a thorough familiarity and sympathy with Iraqi society Davis offers a particularly valuable cultural and intellectual history of modern Iraq a country that has appeared in Western public discourse primarily in terms of its geo political aspects and the bloody regime which ruled it until recent times Sami Zubaida

author of *Law and Power in the Islamic World*      **Reclaiming Iraq** Abbas Kadhim, 2012-11-01 While some scholars would argue that there was no Iraq before King Faysal's coronation in 1921 Iraqi history spans fourteen centuries of tribal communities that endured continual occupation in their historic homeland including Mongol invasions in the thirteenth century and subsequent Ottoman and British invasions An Iraqi identity was established long before the League of Nations defined the nation state of Iraq in 1932 Drawing on neglected primary sources and other crucial accounts including memoirs and correspondence *Reclaiming Iraq* puts the 1920 revolt against British occupation in a new light one that emphasizes the role of rural fighters between June and November of that year While most accounts of the revolution have been shaped by the British administration and successive Iraqi governments Abbas Kadhim sets out to explore the reality that the intelligentsia of Baghdad and other cities in the region played an ideological role but did not join in the fighting His history depicts a situation we see even today in conflicts in the Middle East where most military engagement is undertaken by rural tribes that have no central base of power In the study of the modern Iraqi state Kadhim argues Faysal's coronation has detracted from the more significant earlier achievements of local attempts at self rule With clarity and insight this work offers an alternative perspective on the dawn of modern Iraq
