**The Judgment of Paris** Ross King, 2012-01-11 Another fascinating book by the author of Brunelleschi's Dome and Michelangelo and the Pope's Ceiling a saga of artistic rivalry and cultural upheaval in the decade leading to the birth of Impressionism If there were two men who were absolutely central to artistic life in France in the second half of the nineteenth century they were Edouard Manet and Ernest Meissonier While the former has been

labelled the Father of Impressionism and is today a household name the latter has sunk into obscurity It is difficult now to believe that in 1864 when this story begins it was Meissonier who was considered the greatest French artist alive and who received astronomical sums for his work while Manet was derided for his messy paintings of ordinary people and had great difficulty getting any of his work accepted at the all important annual Paris Salon Manet and Meissonier were the Mozart and Salieri of their day one a dangerous challenge to the establishment the other beloved by rulers and the public alike for his painstakingly meticulous oil paintings of historical subjects Out of the fascinating story of their parallel careers Ross King creates a lens through which to view the political tensions that dogged Louis Napoleon during the Second Empire his ignominious downfall and the bloody Paris Commune of 1871 At the same time King paints a wonderfully detailed and vivid portrait of life in an era of radical social change When Manet painted *Dejeuner sur l'herbe* or *Olympia* he shocked not only with his casual brushstrokes but with his subject matter top hatted white collar workers and their mistresses were not considered suitable subjects for Art Ross King shows how benign as they might seem today these paintings changed the course of history The struggle between Meissonier and Manet to see their paintings achieve pride of place at the Salon was not just about artistic competitiveness it was about how to see the world Full of fantastic tidbits of information and a colourful cast of characters that includes Baudelaire Courbet and Zola with walk on parts for Monet Renoir Degas and Cezanne The Judgment of Paris casts new light on the birth of Impressionism and takes us to the heart of a time in which the modern French identity was being forged

Oscar Wilde's Elegant Republic David Charles Rose,2016-01-14 Why was Paris so popular as a place of both innovation and exile in the late nineteenth century Using French English and American sources this first volume of a trilogy provides a possible answer with a detailed exploration of both the city and its communities who forming a varied cast of colourful characters from duchesses to telephonists artists to beggars and dancers to diplomats crowd the stage Through the throng moves Oscar Wilde as the connecting thread Wilde exploratory Wilde triumphant Wilde ruined This use of Wilde as a central figure provides both a cultural history of Paris and a view of how he assimilated himself there By interweaving fictional representations of Paris and Parisians with historical narrative Paris of the imagination is blended with the topography of the city described by Victor Hugo as this great phantom composed of darkness and light This original treatment of the belle poque is couched in language accessible to all who wish to explore Paris on foot or from an armchair *Picasso* Jeffrey S. Weiss,Valerie J. Fletcher,Kathryn A. Tuma,Pablo Picasso,National Gallery of Art (U.S.),2003 Between spring and winter 1909 Picasso executed more than sixty portraits of his companion Fernande Olivier These works produced in a variety of formats and mediums exhibit a range of artistic approaches dedicated to a single subject that stands out in the history of portraiture Even more significant this series of works coincided with the invention of Cubism Published to accompany a major exhibition

originating at the National Gallery of Art Washington this richly illustrated volume illuminates Picasso's radical reformulation of human physiognomy. Containing eighty-two color illustrations and sixty-eight duotones, the catalogue explores the Fernande portraits and related works as a single oeuvre culminating in the magnificent *Head of a Woman Fernande*, one of Picasso's rare pre-1912 excursions into sculpture. By so doing it allows us to examine Picasso's process in an unprecedented fashion. What emerges is a new picture of the artist pursuing his subject with obsessive repetition and struggling to resolve artistic problems during a time of crisis in his work. Also included are previously unpublished studio photographs that offer further insight into the conceptual nature of the artist's process. The text narrates the internal development of the Fernande portrait series, situates it within the broader history of representation, and considers the powerful impact of Cézanne on Picasso's work during this period. Seizing a single extended moment in the early history of Cubism, this catalogue reveals Cubism's great achievement, its startling invention, its remarkable expressive power, and its profound formal and psychological implications for modern art.

**Jewish Dealers and the European Art Market, c. 1860–1940** Silvia Davoli, Tom Stammers, 2025-01-23

Before the tragedy of the Holocaust, many of the leading art and antiques dealers across Europe were Jewish, establishing dynamic cross-Channel, international, and transatlantic networks. Aside from a few famous examples, however, we are only at the beginning of exploring the diversity of Jewish dealers, commercial and cultural worlds, and reflecting on the particular conditions that made possible their dramatic expansion within the profession. Adopting a wider geography than any previous study, this book brings together a team of distinguished international contributors to consider Jewish art dealers as an interconnected cohort tied together by common strategies and a shared vulnerability. After an extended historiographical introduction, the volume presents case studies and trends from 1860–1940, including Jewish family businesses in Western Europe, the role of Jews as mediators of art from East Asia, the antisemitism and suspicion faced by Jewish dealers, Jews as theorists, exhibition makers, and promoters of modern art, and the geographical mobility and professional reinvention of Jewish dealers in times of economic and political crisis. With a wide variety of illustrations, including paintings, decorative arts, historic photographs, and archival material, the volume adopts a mix of methodological approaches to analyse a key chapter in Jewish cultural history and in the history of the international art market. Includes Afterword by Charles Dellheim, author of *Belonging and Betrayal: How Jews Made the Art World Modern*. 2021
