Hess, 1999 This comprehensive handbook summarizes the state of gender studies by examining the crucial research of the past decade and by encouraging thinking about how the questions central to studying gender have themselves changed The book is an important step towards constructing a new analytical framework approach for the social sciences one that calls into question disciplinary boundaries The contributors illustrate how the use of gender by scholars in various and overlapping fields of study has helped alter concepts and research designs **Battling Pornography** Carolyn Bronstein, 2011-06-27 Pornography catapulted to the forefront of the American women's movement in the 1980s In Battling Pornography Carolyn Bronstein locates the origins of anti pornography sentiment in the turbulent social and cultural history of the late 1960s and 1970s Based on extensive original archival research the book reveals that the seeds of the movement were planted by groups who protested the proliferation of advertisements Hollywood films and other mainstream media that glorified sexual violence Over time feminist leaders redirected the emphasis from violence to pornography to leverage rhetorical power Battling Pornography presents a fascinating account of the rise and fall of this significant American social movement and documents the contributions of influential activists on both sides of the pornography debate including some of the best known American feminists

**Boundaries of Touch** Jean Halley, 2010-10-01 A history of the shifting and conflicting ideas about when where and how we should touch our children Discussing issues of parent child contact ranging from breastfeeding to sexual abuse Jean O Malley Halley traces the evolution of mainstream ideas about touching between adults and children over the course of the twentieth century in the United States Debates over when a child should be weaned and whether to allow a child to sleep in the parent's bed reveal deep differences in conceptions of appropriate adult child contact Boundaries of Touch shows how arguments about adult child touch have been politicized simplified and bifurcated into naturalist and behaviorist viewpoints thereby sharpening certain binary constructions such as mind body and male female Halley discusses the gendering of ideas about touch that were advanced by influential social scientists and parenting experts including Benjamin Spock Alfred C Kinsey and Luther Emmett Holt She also explores how touch ideology fared within and against the post World War II feminist movements especially with respect to issues of breastfeeding and sleeping with a child versus using a crib In addition to contemporary periodicals and self help books on child rearing Halley uses information gathered from interviews she conducted with mothers ranging in age from twenty eight to seventy three Throughout she reveals how the parent child relationship far from being a private or benign subject continues as a highly contested politicized affair of keen public Why We Lost the Sex Wars Lorna N. Bracewell, 2021-03-23 Reexamining feminist sexual politics since the interest 1970s the rivalries and the remarkable alliances Since the historic MeToo movement materialized in 2017 innumerable survivors of sexual assault and misconduct have broken their silence and called out their abusers publicly from well known celebrities to politicians and high profile business leaders Not surprisingly conservatives quickly opposed this new movement but the fact that sex positive progressives joined in the opposition was unexpected and seldom discussed Why We Lost the Sex Wars explores how a narrow set of political prospects for resisting the use of sex as a tool of domination came to be embraced across this broad swath of the political spectrum in the contemporary United States To better understand today s multilayered sexual politics Lorna N Bracewell offers a revisionist history of the sex wars of the 1970s 80s and 90s Rather than focusing on what divided antipornography and sex radical feminists Bracewell highlights significant points of contact and overlap between these rivals particularly the trenchant challenges they offered to the narrow and ambivalent sexual politics of postwar liberalism Bracewell leverages this recovered history to illuminate in fresh and provocative ways a range of current phenomena including recent controversies over trigger warnings the unimaginative politics of sex positive feminism and the rise of carceral feminism By foregrounding the role played by liberal concepts such as expressive freedom and the public private divide as well as the long neglected contributions of Black and Third World feminists Bracewell upends much of what we think we know about the sex wars and makes a strong case for the continued relevance of these debates today Why We Lost the Sex Wars provides a history of feminist thinking on topics such as pornography commercial sex work LGBTQ identities and BDSM as well as discussions of such notable figures as Patrick Califia Alan Dershowitz Andrea Dworkin Elena Kagan Audre Lorde Catharine MacKinnon Cherr e Moraga Robin Morgan Gayle Rubin Nadine Strossen Cass Sunstein Ageing, Gender, Embodiment and Dance E. Schwaiger, 2011-11-08 This book explores the nexus between gender ageing and culture in dancers practicing a variety of genres It challenges existing cultural norms which equate ageing with bodily decline and draws on an interdisciplinary theoretical framework to explore alternatives for developing a culturally valued mature subjectivity through the practice of dance Feminist Psychology Vera Sonja Maass, 2021-12-06 Detailing the field of feminist psychology since its origins this book assesses its early figures theory and research as well as current and emerging theory and research and its associations with general feminist beliefs Feminist psychology developed as a reaction to historical psychological thought initiated by men who controlled the theory and research of the field By holding all of society to norms based in male behavior this so called masculine psychology effectively assigned women lower societal status than men and had disturbing effects on women s health and self esteem Feminist Psychology focuses on gender differences social structure and the values and principles of women s rights within the world s individual social and political spheres Contrary to popular notion feminist psychology does not involve man hating but instead focuses on loving the concept that women have equal potential to set and achieve goals and to contribute to society In this volume psychologist Vera Maass explains the history theory research and current state of this growing field which is becoming increasingly popular as colleges offer majors or concentrations in feminist psychology and argues that women are both different from and equal to men Against Obscenity Leigh Ann Wheeler, 2004 Through the activities of Gilman and her associates Wheeler explains how the rise and fall of women's anti-obscenity leadership shaped American attitudes toward and regulation of sexually explicit material even as it charted a new era in women's politics The Dinner Party Jane F. Gerhard, 2013-06-01 Judy Chicago's monumental art installation The Dinner Party was an immediate sensation when it debuted in 1979 and today it is considered the most popular work of art to emerge from the second wave feminist movement Jane F Gerhard examines the piece's popularity to understand how ideas about feminism migrated from activist and intellectual circles into the American mainstream in the last three decades of the twentieth century More than most social movements feminism was transmitted and understood through culture art installations Ms Magazine All in the Family and thousands of other cultural artifacts But the phenomenon of cultural feminism came under extraordinary criticism in the late 1970s and 1980s Gerhard analyzes these divisions over whether cultural feminism was sufficiently activist in light of the shifting line separating liberalism from radicalism in post 1970s America She concludes with a chapter on the 1990s when The Dinner Party emerged as a target in political struggles over public funding for the arts even as academic feminists

denounced the piece for its alleged essentialism The path that The Dinner Party traveled from inception 1973 to completion 1979 to tour 1979 1989 to the permanent collection of the Brooklyn Museum 2007 sheds light on the history of American feminism since 1970 and on the ways popular feminism in particular can illuminate important trends and transformations in Her World, Women and Fashion in Singapore 1974-1989 Nadya Wang, 2025-07-24 Between the broader culture 1974 and 1989 significant changes were taking place in the lives of Singaporean women and in their local fashion industry These shifts were not only reflected in but actively shaped by the magazine Her World In Her World Women and Fashion in Singapore Nadya Wang uses dress as a lens through which to view fragments of the magazine over 15 years Advocating for a new and decentred understanding of the evolution of the Singapore woman Wang's writing also traces the creation of a fashion industry that pivoted from seeking validation from global fashion cities to establishing itself as the lead of a Southeast Asian fashion community Visual analysis of archival materials is combined with oral history interviews to demonstrate how the women of Singapore engaged with local and global ideas fashion and beauty commodities and imagery of models and beauty queens in their self fashioning Challenging existing understandings of their agency this book attests to the creativity and adaptability of Singapore women and Singapore fashion designers Women. Doctors and Cosmetic Surgery R. Parker, 2010-03-10 This book explores an innovative study of women who undergo cosmetic study and the doctors who carry it out It situates cosmetic surgery as a personal choice made by women against the social and cultural reality of the way women s bodies are scrutinised in Western countries Race and Sexuality Salvador Vidal-Ortiz, Brandon Andrew Robinson, Cristina Khan, 2018-04-27 The connections between race and sexuality are constant in our lives yet they are not often linked together in productive analytical ways This illuminating book delves into the interrelation of race and sexuality as inseparable elements of our identities and social lives. The authors approach the topic through an interdisciplinary lens focusing on power social arrangements and hierarchies and the production of social difference Their analysis maps the historical discursive and structural manifestations of race and sexuality noting the everyday effects that the intersections of these categories have on people's lived experiences Considering both US based and transnational cases this book presents an empirical grounding for understanding how race and sexuality are mutually constitutive categories Providing a comprehensive overview of racialized sexualities this book is an essential text for any advanced course on race sexuality and intersectionality Matters of Choice Iris Ofelia López, 2008 In Matters of Choice Iris Lopez presents a comprehensive analysis of the dichotomous views that have portrayed sterilization either as part of a coercive program of population control or as a means of voluntary even liberating fertility control by individual women Drawing upon her twenty five years of research on sterilized Puerto Rican women from five different families in Brooklyn Lopez untangles the interplay between how women make fertility decisions and their social economic cultural and historical constraints Weaving together the voices of these women she covers the history of sterilization and eugenics societal pressures to have fewer children a lack of
