This Journal Belongs to:

What is shadow work?

Shadow work is a psychological term that refers to the exploration and integration of the unconscious aspects of the self, particularly those that are perceived as negative or undesirable. It is a process of self-discovery and personal growth that involves bringing awareness to and working with the shadow, which is the part of the psyche that contains all of the unconscious thoughts, feelings, and desires that are outside of our conscious awareness. Shadow work can be a challenging and transformative process, but it is also an important part of personal development and can help individuals to understand and integrate their unconscious material in order to live a more authentic and fulfilling life.
