Reconstructing Prehistoric Pueblo Societies:

Reconstructing Prehistoric Pueblo Societies School of American Research (Santa Fe, N.M.),1970 **Reconstructing Prehistoric Pueblo Societies** William A. Longacre,School of American Research,1972-01-01 Puebloan Societies Peter M. Whiteley,2018-10-15 Puebloan sociocultural formations of the past and present are the subject of the essays collected here The contributors draw upon the insights of archaeology ethnology and linguistic anthropology to examine social history and practice including kinship groups ritual sodalities architectural forms economic exchange environmental adaptation and political order as well as their patterns of transmission over time and space The result is a window onto how major Puebloan societies came to be and how they have changed over time As an interdisciplinary conjunction Puebloan Societies demonstrates the value of reengagement among anthropological subfields too often isolated from one another The volume is an analytical whole greater than the sum of its parts a new synthesis in this fascinating region of human cultural history

The Sociopolitical Structure Of Prehistoric Southwestern Societies Steadman Upham,Kent G Lightfoot,Roberta A. Jewett,2019-06-26 This book examines current archaeological approaches for studying the organizational structure of prehistoric societies in the American Southwest It presents the historical background of the divergent theoretical models that have been used to interpret Southwestern socio political organizations *Dynamics of Southwest Prehistory* Linda S. Cordell,George J. Gumerman,2006-05-28 Emerging from a School of American Research this work reviews the general status of archaeological knowledge in 9 key regions of the Southwest to examine broader questions of cultural development which affected the Southwest as a whole and to consider an overall conceptual model of the prehistoric Southwest after the advent of sedentism Recent Research on Chaco Prehistory William James Judge,John D. Schelberg,1985 **Communities and Households in the Greater American Southwest** Robert J. Stokes,2019-07-01 Communities and Households in the Greater American Southwest presents new research on human organization in the American Southwest examining families households and communities in the Ancestral Puebloan Mogollon and Hohokam major cultural areas as well as the Fremont Jornada Mogollon and Lipan Apache areas from the time of earliest habitation to the twenty first century Using historical data dialectic approaches problem oriented and data driven analysis and ethnographic and gender studies methodologies the contributors offer diverse interpretations of what constitutes a site village and community how families and households organized their domestic space and how this organization has influenced researchers interpretations of spatially derived archaeological data Today s archaeologists and anthropologists understand that communities operate as a multi level organizational contextual and referential human creation which informs their understanding of how people actively negotiate their way through and around community constraints The chapters in this book creatively examine these interactions revealing the dynamic nature of ancient and modern groups in the American Southwest The book has two broad complementary themes one focusing on household decision making identity and structural relations with the greater

community the other concerned with community organization and integration household roles within the community and changes in community organization violence and destabilization coalescence and cooperation over time Communities and Households in the Greater American Southwest weaves a rich tapestry of ancient and modern life through innovative approaches that will be of interest not only to Southwestern archaeologists but to all researchers and students interested in social organization at the household and community levels Contributors James R Allison Andrew Duff Lindsay Johansson Michael Lindeman Myles Miller James Potter Alison E Rautman J Jefferson Reid Katie Richards Oscar Rodriguez Barbara Roth Kristin Safi Deni Seymour Robert J Stokes Richard K Talbot Scott Ure Henry Wallace Stephanie M Whittlesey

Chimney Rock J. McKim Malville, 2004-01-01 This volume sheds new light on the geography and the history of the Chimney Rock Archaeological Area in southwestern Colorado Home until the mid twelfth century to the ancestral Pueblo peoples the Chaco Canyon and Chimney Rock area holds a wealth of information for present day archaeologists to uncover The contributors suggest varied pre historical uses for the towering double spires of Chimney Rock as a logging camp military garrison home of Chacoan priests astronomical observatory and or ceremonial pilgrimage center Chimney Rock The Ultimate Outlier is a model of multi faceted inquiry into a physically intriguing and certainly symbol laden ancient North American residential site *The Chemistry of Prehistoric Human Bone* Theron Douglas Price, 1989-08-10 **Hopi**

Dwellings Catherine M. Cameron, 2015-09-01 The dramatic split of the Hopi community of Orayvi in 1906 had lasting consequences not only for the people of Third Mesa but also for the very buildings around which they centered their lives This book examines architectural and other effects of that split using architectural change as a framework with which to understand social and cultural processes at prehistoric Southwestern pueblos Catherine Cameron examines architectural change at Orayvi from 1871 to 1948 a period of great demographic and social upheaval Her study is unique in its use of historic photographs to document and understand abandonment processes and apply that knowledge to prehistoric sites Photos taken by tourists missionaries and early anthropologists during the late nineteenth century portray original structures while later photos show how Orayvi buildings changed over a period of almost eighty years Census data relating to house size and household configuration shed additional light on social change in the pueblo Examining change at Orayvi afforded an opportunity to study the architectural effects of an event that must have happened many times in the past the partial abandonment of a pueblo by tracing the effects of sudden population decline on puebloan architecture Cameron s work provides clues to how and why villages were abandoned and re established repeatedly in the prehistoric Southwest as it offers a unique window on the relationship between Pueblo houses and the living people who occupied them

Placemaking David Stea, Mete Turan, 2024-11-07 Originally published in 1993 as part of the Ethnoscapes Current Challenges in the Environmental Social Sciences series reissued now with a new series introduction Placemaking Production of Built Environment in Two Cultures is a book about the context of placemaking the production of vernacular architecture

and settlement It is an attempt at prototheory the formation of a perspective with which to view built environment produced by traditional societies Focusing on two examples carved dwellings and other masonry structures of Anatolian Turkey and pre and post conquest Southwestern pueblos in the US Architectural and settlement phenomena are analyzed primarily in terms of the social forces that gave rise to them rather than their formal properties *Encyclopedia of Prehistory* Peter N. Peregrine,Melvin Ember,2012-12-06 The Encyclopedia of Prehistory represents temporal dimension Major traditions are an attempt to provide basic information also defined by a somewhat different set of on all archaeologically known cultures sociocultural characteristics than are eth covering the entire globe and the entire nological cultures Major traditions are prehistory of humankind It is designed as defined based on common subsistence a tool to assist in doing comparative practices sociopolitical organization and research on the peoples of the past Most material industries but language ideology of the entries are written by the world s and kinship ties play little or no part in foremost experts on the particular areas their definition because they are virtually and time periods unrecoverable from archaeological con The Encyclopedia is organized accord texts In contrast language ideology and ing to major traditions A major tradition kinship ties are central to defining ethno is defined as a group of populations sharing logical cultures **Advances in Archaeological Method and Theory** Michael B Schiffer,2014-06-30 Advances in Archaeological Method and Theory Volume 1 presents the progressive explorations in methods and theory in archeology This book discusses the strategy for appraising significance which is needed to maximize the preservation and wise use of cultural resources Organized into 10 chapters this volume begins with an overview of planning for the best long term use of cultural resources which is the essence of conservation archeology This text then examines importance of the concept in cultural ecological studies Other chapters consider the methods used in determining the density size and growth rate of human populations This book discusses as well the use of demographic variables in archeological explanation The final chapter deals with the decisions that must be made in designing a survey and to identify the alternative consequences for data recovery of various strategies This book is a valuable resource for archeologists and planners **The Origins of Southwestern Agriculture** R. G. Matson,2016-12-15 Presents a new model for the origins of Basketmaker II culture based on the evolution of maize use focusing on the changes in maize growing rather than on the changes in or to the people involved *Perspectives On Southwestern Prehistory* Paul Minnis,Charles L Redman,2019-05-28 Recent archaeoglogical work in the American Southwest and Northern Mexico has fueled a great deal of regionally specific research archaeologists faced with an avalanche of new and unassimilated data tend to focs on their own areas to the exclusion of the broader panregional view Perspectives on Southwestern Prehistory advocates the larger f

Research, Education and American Indian Partnerships at the Crow Canyon Archaeological Center Susan C.

Ryan,2023-08-28 This volume celebrates and examines the Crow Canyon Archaeological Center's past, present, and future by providing a backdrop for the not-for-profit's beginnings and highlighting key accomplishments in research, education, and American Indian initiatives over the past four decades. Specific themes include Crow Canyon's contributions to projects focused on community and regional settlement patterns, human-environment relationships, public education, pedagogy, and collaborative partnerships with Indigenous communities. Contributing authors, deeply familiar with the center and its surrounding central Mesa Verde region, include Crow Canyon researchers, educators, and Indigenous scholars inspired by the organization's mission to further develop and share knowledge of the human past for the betterment of societies. Research, Education, and American Indian Partnerships at the Crow Canyon Archaeological Center guides Southwestern archaeology and public education beyond current practices, particularly regarding Indigenous partnerships, and provides a strategic handbook for readers into and through the mid-twenty-first century. Open access edition supported by the Crow Canyon Archaeological Center, King Family Fund, and subvention supported in part by the Crow Canyon Archaeological Center and the Arizona Archaeological and Historical Society. *Historic Zuni Architecture and Society* Thomas John Ferguson,1996-03 A unique approach to the Zuni Pueblo's history applying the architectural method of space syntax, linking the structure of Zuni society to the structure of the architecture housing it. Drawing heavily on archeological findings, the volume nonetheless disputes the traditional archeological theory of population change as a basis for the changes in Zuni society but does not offer any clear theories of its own. However, Ferguson, adjunct curator of archeology at Arizona State U, does create a vivid historical architectural analysis of the Zuni culture, society, and social and architectural structure from 1540 to the 1980s. Includes numerous diagrams, illustrations, and photographs. Population Circulation and the Transformation of Ancient Zuni Communities Gregson Schachner,2012-04-01 Because nearly all aspects of culture depend on the movement of bodies, objects, and ideas, mobility has been a primary topic during the past forty years of archaeological research on small-scale societies. Most studies have concentrated either on local moves related to subsistence within geographically bounded communities or on migrations between regions resulting from pan-regional social and environmental changes. Gregson Schachner, however, contends that a critical aspect of mobility is the transfer of people, goods, and information within regions. This type of movement, which geographers term population circulation, is vitally important in defining how both regional social systems and local communities are constituted, maintained, and most importantly, changed. Schachner analyzes a population shift in the Zuni region of west-central New Mexico during the thirteenth century AD that led to the inception of major demographic changes: the founding of numerous settlements in frontier zones and the initiation of radical transformations of community organization. Schachner argues that intraregional population circulation played a vital role in shaping social transformation in the region and that many notable changes during this period arose directly out of people's attempts to create new social mechanisms for coping with frequent and geographically extensive residential mobility. By

examining multiple aspects of population circulation and comparing areas that were newly settled in the thirteenth century to some that had been continuously occupied for hundreds of years Schachner illustrates the role of population circulation in the formation of social groups and the creation of contexts conducive to social change

Religion and Politics in the Ancient Americas Sarah Barber, Arthur A. Joyce, 2017-09-20 This exciting collection explores the interplay of religion and politics in the precolumbian Americas Each thought provoking contribution positions religion as a primary factor influencing political innovations in this period reinterpreting major changes through an examination of how religion both facilitated and constrained transformations in political organization and status relations Offering unparalleled geographic and temporal coverage of this subject Religion and Politics in the Ancient Americas spans the entire precolumbian period from Preceramic Peru to the Contact period in eastern North America with case studies from North Middle and South America Religion and Politics in the Ancient Americas considers the ways in which religion itself generated political innovation and thus enabled political centralization to occur It moves beyond a Great Tradition focus on elite religion to understand how local political authority was negotiated contested bolstered and undermined within diverse constituencies demonstrating how religion has transformed non Western societies As well as offering readers fresh perspectives on specific archaeological cases this book breaks new ground in the archaeological examination of religion and society
