American Literature in Transition, 1990-2000 Stephen J. Burn, 2017-12-28 Written in the shadow of the approaching millennium American literature in the 1990s was beset by bleak announcements of the end of books the end of postmodernism and even the end of literature Yet as conservative critics marked the century's twilight hours by launching elegies for the conventional canon American writers proved the continuing vitality of their literature by reinvigorating inherited forms by adopting and adapting emerging technologies to narrative ends and by finding new voices that had remained outside that canon for too long By reading 1990s literature in a sequence of shifting contexts from independent presses to the AIDS crisis and from angelology to virtual reality **American Literature in Transition 1990-2000** provides the fullest map yet of the changing shape of a rich and diverse decade's literary production It offers new perspectives on the period's well known landmarks Toni Morrison Thomas Pynchon David Foster Wallace but also overdue

recognition to writers such as Ana Castillo Evan Dara Steve Erickson and Carole Maso American Literature in Transition, 1980-1990 D. Quentin Miller, 2017-12-28 History has not been kind to the 1980s The decade is often associated with absurd fashion choices neo Conservatism in the Reagan Bush years the AIDS crisis Wall Street ethics and uninspired television film and music Yet the literature of the 1980s is undeniably rich and lasting American Literature in Transition 1980 1990 seeks to frame some of the decade s greatest achievements such as Toni Morrison s monumental novel Beloved and to consider some of the trends that began in the 1980s and developed thereafter including the origins of the graphic novel prison literature and the opening of multiculturalism vis vis the canon wars This volume argues not only for the importance of 1980s American literature but also for its centrality in understanding trends and trajectories in all contemporary literature against the broader background of culture This volume serves as both an introduction and a deep consideration of the literary culture of our most maligned decade

Feminist Criticism and Social Change (RLE Feminist Theory) Deborah Rosenfelt, Judith Newton, 2013-05-20 This lively and controversial collection of essays sets out to theorize and practice a materialist feminist criticism of literature and culture Such a criticism is based on the view that the material conditions in which men and women live are central to an understanding of culture and society It emphasises the relation of gender to other categories of analysis such as class and race and considers the connection between ideology and cultural practice and the ways in which all relations of power change with changing social and economic conditions By presenting a wide range of work by major feminist scholars this anthology in effect defines as well as illustrates the materialist feminist tendency in current literary criticism The essays in the first part of the book examine race ideology and the literary canon and explore the ways in which other critical discourse such as those of deconstruction and French feminism might be useful to a feminist and materialist criticism The second part of the book contains examples of such criticism in practice with studies of individual works writers and ideas An introduction by the editors situates the collected essays in relation both to one another and to a
