Gender and Violence in the Middle East David Ghanim Ph.D.,2009-03-20 Gender and Violence in the Middle East argues that violence is fundamental to the functioning of the patriarchal gender structure that governs daily life in Middle Eastern societies Ghanim contends that the inherent violence of gender relations in the Middle East feeds the authoritarianism and political violence that plague public life in the region In this societal sense men as well as women may be said to be victims of the structural violence inherent in Middle Eastern gender relations The author shows that the varieties of physical violence against women for which the Middle East is notorious honor killings obligatory beatings female genital mutilation are merely eruptions of an ethos of psychological violence and the threat of physical violence that pervades gender relations in the Middle East Ghanim documents and analyzes the complementary roles of both sexes in sustaining the system of violence and oppressive control that regulates gender relations in Middle Eastern societies He reveals that women are not only victims of violence but welcome the opportunity to become perpetrators of violence in the married female life cycle of subordination followed by domination The mother in law plays a crucial role in supporting the structure of patriarchal control by stoking tensions with her daughter in law and provoking her son to commit sanctioned violence on his wife The author applies his deep analysis of gender and violence in the Middle East to illuminate the motivational profiles of male and female political suicidalists from the Middle East and the martyrological adulation that they are accorded in Middle Eastern societies

Gender and the Making of Modern Medicine in Colonial Egypt Hibba Abugideiri,2016-04-15 Gender and the Making of Modern Medicine in Colonial Egypt investigates the use of medicine as a tool of empire to serve the state building process in Egypt by the British colonial administration It argues that the colonial state effectively transformed Egyptian medical practice and medical knowledge in ways that were decidedly gendered On the one hand women medical professionals who had once trained as doctresses hakimas were now restricted in their medical training and therefore saw their social status decline despite colonial modernity s promise of progress On the other hand the introduction of colonial medicine gendered Egyptian medicine in ways that privileged men and masculinity Far from being totalized colonial subjects Egyptian doctors paradoxically reappropriated aspects of Victorian science to forge an anticolonial nationalist discourse premised on the Egyptian woman as mother of the nation By relegating Egyptian women whether as midwives or housewives to maternal roles in the home colonial medicine was determinative in diminishing what control women formerly exercised over their profession homes and bodies through its medical dictates to care for others By interrogating how colonial medicine was constituted Hibba Abugideiri reveals how the rise of the modern state configured the social formation of native elites in

ways directly tied to the formation of modern gender identities and gender inequalities in colonial Egypt

Rethinking Muslim Women and the Veil Katherine Bullock, 2007-01-01 Until now the bulk of the literature about the veil has been written by outsiders who do not themselves veil This literature often assumes a condescending tone about veiled women assuming that they are making uninformed decisions choices about veiling makes them subservient to a patriarchal culture and religion Rethinking Muslim Women and the Veil offers an alternative viewpoint based on the thoughts and experiences of Muslim women themselves This is the first time a clear and concise book length argument has been made for the compatibility between veiling and modernity Katherine Bullock uncovers positive aspects of the veil that are frequently not perceived by outsiders Rethinking Muslim Women and the Veil looks at the colonial roots of the negative Western stereotype of the veil It presents interviews with Muslim women to discover their thoughts and experiences with the veil in Canada The book also offers a positive theory of veiling The author argues that in consumer capitalist cultures women can find wearing the veil a liberation from the stifling beauty game that promotes unsafe and unhealthy ideal body images for women This book also includes an extensive bibliography on topics related to Muslim women and the veil

Women in Iraq Noga Efrati, 2012-01-24 Noga Efrati outlines the first social and political history of women in Iraq during the periods of British occupation and the British backed Hashimite monarchy 1917 1958 She traces the harsh and long lasting implications of British state building on Iraqi women particularly their legal and political enshrinement as second class citizens and the struggle by women s rights activists to counter this precedent Efrati concludes with a discussion of post Saddam Iraq and the women s associations now claiming their place in government Finding common threads between these two generations of women Efrati underscores the organic roots of the current fight for gender equality shaped by a memory of oppression under the monarchy Efrati revisits the British strategy of efficient rule largely adopted by the Iraqi government they erected and the consequent gender policy that emerged The attempt to control Iraq through authentic leaders giving them legal and political powers marginalized the interests of women and virtually sacrificed their well being altogether Iraqi women refused to resign themselves to this fate From the state s early days they drew attention to the biases of the Tribal Criminal and Civil Disputes Regulation TCCDR and the absence of state intervention in matters of personal status and resisted women s disenfranchisement Following the coup of 1958 their criticism helped precipitate the dissolution of the TCCDR and the ratification of the Personal Status Law A new government gender discourse shaped by these past battles arose yet the U S led invasion of 2003 rather than helping cement women s rights into law reinstated the British approach Pressured to secure order and reestablish a pro Western Iraq the Americans increasingly turned to the country s authentic

leaders to maintain control while continuing to marginalize women Efrati considers Iraqi women's efforts to preserve the progress they have made utterly defeating the notion that they have been passive witnesses to history **Gender,**

Governance and Islam Kandiyoti Deniz Kandiyoti, 2019-08-05 Following a period of rapid political change both globally and in relation to the Middle East and South Asia this collection sets new terms of reference for an analysis of the intersections between global state non state and popular actors and their contradictory effects on the politics of gender The volume charts the shifts in academic discourse and global development practice that shape our understanding of gender both as an object of policy and as a terrain for activism Nine individual case studies systematically explore how struggles for political control and legitimacy determine both the ways in which dominant gender orders are safeguarded and the diverse forms of resistance against them *Islam and Gender* Ziba Mir-Hosseini, 2021-05-11 Following the Islamic Revolution of 1979 and

the re introduction of Shar'ica law relating to gender and the family women's rights in Iran suffered a major setback However as the implementers of the law have faced the social realities of women's lives and aspirations positive changes have gradually come about Here Ziba Mir Hosseini takes us to the heart of the growing debates concerning the ways in which justice for women should be achieved Through a series of lively interviews with clerics in the Iranian religious center of Qom she seeks to understand the varying notions of gender that inform Islamic jurisprudence and to explore how clerics today perpetuate and modify these notions Mir Hosseini finds three main approaches to the issue insistence on traditional patriarchal interpretations based on complementarity but inequality between women and men attempts to introduce balance into traditional interpretations or a radical rethinking of the jurisprudential constructions of gender She introduces the debates among the commentators by examining key passages in both written and oral texts and by narrating her meetings and discussions with the authors Unique in its approach and its subject matter the book relates Mir Hosseini's engagement as a Muslim woman and a social anthropologist educated and working in the West with Shi'i Muslim thinkers of various backgrounds and views In the literature on women in Islam there is no account of such a face to face encounter either between religion and gender politics or between the two genders **The Penguin Dictionary of Islam** Azim

Nanji, 2008-04-24 Islam today is a truly global faith yet it remains somewhat of an enigma to many of us Each and every day our newspapers are saturated with references to Islam Quran Taliban Hijab Fatwa Allah Sunni Jihad Shia the list goes on But how much do we really understand Are we in fact misunderstanding The Penguin Dictionary of Islam provides complete impartial answers It includes extensive coverage of the historical formations of the worldwide Muslim community and highlights key modern Muslim figures and events Understanding Islam is vital to understanding our world and this text is the definitive authority designed for both general and academic readers **The World of Obituaries** Mushira Eid, 2002 This

unusual book the world of obituaries looks at obituaries as a rich source of information on cultural representation of gender It examines obituaries published from 1938 to 1998 in three cultures Egypt Iran and the United States to analysis how

women and men are represented in their death notices and how these representations have change over time It also shows how obituaries viewed as texts at times converge within but often diverge from expected norms Mushira Eid has applied quantitative and qualitative analytical techniques to 4 400 obituaries using names titles and occupations as linguistic symbols of identity Data were collected for a month at ten year intervals to measure change From them she demonstrates differences within the world of obituaries relates this world to the world at large and constructs a model based on this comparison Resulting facts are placed within the context of women s movements in the three cultures and other sociocultural and political events that influenced the perception of gender roles *The World of Obituaries* offers a unique synthesis of information on women and public space in three cultures It opens a new window on gende **Palestinian Women** Cheryl Rubenberg,2001 This work provides a case study of the deleterious effects of patriarchy among Palestinians living in rural villages and refugee camps of the West Bank its negative consequences for men as well as women for democratization and for progress toward the creation of a more just society *The Human Rights Covenants at 50* Daniel Moeckli,Helen Keller,Corina Heri,2018-06-06 Half a century ago on 16 December 1966 the UN General Assembly adopted the International Covenant on Civil and Political Rights ICCPR and the International Covenant on Economic Social and Cultural Rights ICESCR While the adoption of the two UN human rights covenants was celebrated all over the world their 50th anniversary has received very little attention from the international community The present book marks this anniversary by taking stock of the first half century of the existence of what are probably the world s two most important human rights treaties It does so by reflecting on what the covenants have achieved or failed to achieve in the years that have passed by determining and comparing their current influence in the various regions of the world and by assessing their potential roles in the future The book contains papers that were presented during a symposium held in Zurich in 2016 which brought together experts and stakeholders from a range of disciplines and world regions Some fundamental issues that are addressed by the contributors are as old as the two covenants themselves They concern for example the division of human rights into first and second generation rights and the question of whether there should be one central monitoring body possibly a world court or more than just one However the contributors go beyond such questions that have been explored before they develop new answers to old questions and point to new challenges *Daughters Of Tunis* Paula Holmes-Eber,2018-02-19 *Daughters of Tunis* is an innovative ethnography that carefully weaves the words and intimate personal stories of four Tunisian women and their families with a statistical analysis of women s survival strategies in a rapidly urbanizing industrializing Muslim nation Delineating three distinct network strategies Holmes Eber demonstrates the public role of neighborhoods as informal social security systems and the impact of women s education class and migration on women s resources and networks An engaging warm and oftentimes humorous portrait of Muslim women s responses to development *Daughters of Tunis* is an exciting new approach to ethnography merging the historically disparate methods of both qualitative and quantitative analysis *The*
