Department of the Interior,1992 **Recovery Program** DIANE Publishing Company,1996-07 A report on the status of the recovery program for federally listed endangered threatened species Contents include a recovery overview an explanation of the recovery policy recovery implementation procedures ecosystem approach to recovery a look at recovery successes Provides a species by species status summary complete list of endangered threatened species mammals birds reptiles amphibians fishes snails clams crustaceans insects arachnids plants Maps figures tables illustrations photos Endangered and Threatened Species Recovery Program ,1992 An accounting of the recovery process for all federally listed and threatened species as of September 30 1992 *Report to Congress* U.S. Fish and Wildlife Service,1994 House Reports , *Endangered Species Bulletin* ,1996 Private Property and the Endangered Species Act Jason F. Shogren,1998 Our whole nation benefits from the preservation of natural habitats and their diversity of animal and plant species yet small groups of private landowners often bear most of the costs of setting land aside for conservation purposes This imbalance has generated many conflicts since the passage of the Endangered Species Act in 1973 and remains one of the most controversial issues to be resolved as the ESA makes its way through Congress for reauthorization To provide policy makers landowners and other stakeholders in the ESA debates with impartial baseline information this book offers multidisciplinary perspectives on the role that private property plays in protecting endangered species in the United States The opening chapter traces the evolution of the ESA and set forth the parameters of the debate over regulation of private property Four subsequent chapters explore the judicial and economic implications of ESA and suggest how issues of scale and diversity affect the implementation of the ESA on private property The volume concludes with eight principles to help frame the ongoing ESA reauthorization debate developed by the University of Wyoming s Institute for Environment and Natural Resources Policy Board the sponsor of the research presented in this book *List of Classes of United States Government Publications Available for Selection by Depository Libraries* ,2000-10 Status and Trends of the Nation's Biological Resources ,1998 Funding the Natural Resource Challenge, a Report to Congress, Fiscal Year ... United States. National Park Service, **Science and the Endangered Species Act** National Research Council,Commission on Life Sciences,Board on Environmental Studies and Toxicology,Committee on Scientific Issues in the Endangered Species Act,1995-10-13 The Endangered Species Act ESA is a far reaching law that has sparked intense controversies over the use of public lands the rights of property owners and economic versus environmental benefits In this volume a distinguished committee focuses on the science underlying the ESA and offers recommendations for

making the act more effective The committee provides an overview of what scientists know about extinction and what this understanding means to implementation of the ESA Habitat its destruction conservation and fundamental importance to the ESA is explored in detail The book analyzes Concepts of species how the term species arose and how it has been interpreted for purposes of the ESA Conflicts between species when individual species are identified for protection including several case studies Assessment of extinction risk and decisions under the ESA how these decisions can be made more effectively The book concludes with a look beyond the Endangered Species Act and suggests additional means of biological conservation and ways to reduce conflicts It will be useful to policymakers regulators scientists natural resource managers industry and environmental organizations and those interested in biological conservation Congressional Record United States.
