Cutler, 2000-06-15 Who holds ultimate authority for the education of America s children teachers or parents Although the relationship between home and school has changed dramatically over the decades William Cutler s fascinating history argues that it has always been a political one and his book uncovers for the first time how and why the balance of power has shifted over time Starting with parental dominance in the mid nineteenth century Cutler chronicles how schools growing bureaucratization and professionalization allowed educators to gain increasing control over the schooling and lives of the children they taught Central to his story is the role of parent teacher associations which helped transform an adversarial relationship into a collaborative one Yet parents have also been controlled by educators through PTAs leading to the perception that they are company unions Cutler shows how in the 1920s and 1930s schools expanded their responsibility for children s well being outside the classroom These efforts sowed the seeds for later conflict as schools came to be held accountable for solving society s problems Finally he brings the reader into recent decades in which a breakdown of trust racial tension and parents rights have taken the story full circle with parents and schools once again at odds Cutler s book is an invaluable guide to understanding how parent teacher cooperation which is essential for our children s educational success might be achieved *Educational Management* Harry Tomlinson, 2013-10-30 Education management and leadership is a key area of study in education Educational Management Major Themes in Education brings together the most important literature in the field exploring the historical context the training and development of leaders and their roles in leading people and managing resources in education The collection provides a focus on the major issues which are current in educational management throughout the world The four volumes are arranged thematically as follows Volume 1 Educational Values Values and Religion Emotions and Gender Politics and Micropolitics Volume 2 Educational Theory Theory School of Effectiveness and School Improvement Financial Management and LSM Further Education Volume 3 Educational Leadership Leadership and Headteachers Learning Leadership Middle Leadership Volume 4 Educational Change History and Research Strategy Marketing Change and Culture A new introduction by the editor provides an overview of the field and guides the reader through this wealth of material Titles also available in this series include *Literacy* June 2004 4 Volumes 495 *Special Educational Needs and Inclusive Education* August 2004 4 Volumes 495 and the forthcoming *Early Years Education* 2005 c 4 Volumes c 475 *Educational Technology* Greg Kearsley, 1994 *Early Years Education: Curriculum issues in early childhood education* Rod Parker-Rees, Jenny Willan, 2006 This collection of papers provides a useful resource for scholars who
