Luker,Priya Vaughan,2021-12-29 Illuminating their breadth and diversity this book presents a comprehensive and
multidisciplinary view of legal documents and their manifold forms uses materialities and meanings In 1951 Suzanne Briet a
librarian at the Bibliotheque Nationale in Paris famously said that an antelope in a zoo could be a document thereby radically
changing the way documents were analysed and understood In the fifty years since this pronouncement the digital age has
introduced a potentially limitless range of digital and technological forms for the capture and storage of information In their
multiplicity and their ubiquity documents pervade our everyday life However the material intellectual aesthetic and political
dimensions and effects of documents remain difficult to pin down Taking a multidisciplinary and international approach this
collection tackles the question what is a legal document in order to explore the material aesthetic and intellectual attributes
of legal documentation the political and colonial orders reflected and embedded in documents and the legal archival and
social systems which order and utilise information As well as scholars in law documentary theory history Indigenous studies

reconfigurations and shifts that have shaped the field and understandings of it The author reflects on a career of
safeguarding heritage offering perspectives from the positions of consumer researcher educator and communicator and at a
range of scales from local level debates to macro level perspectives on the role of heritage preservation in international
relations The book situates heritage preservation in the context of soft power and the international system and examines how
it intersects with cultural diplomacy These interrelationships crystalize in the illicit trafficking of cultural goods inspiring
reflections on private and common goods interoperability and decoloniality Grounded in nuanced understandings of world
heritage and heritage of humanity the author critically examines the foundation trajectory and remit of UNESCO and
highlights cases of cultural and natural heritage language and tourism These discussions in turn inform treatments of two
