Red Gas P. Högselius, 2012-12-28 This book applies a systems and risk perspective on international energy relations author Per Högselius investigates how and why governments businesses engineers and other actors sought to promote and oppose the establishment of an extensive East West natural gas regime that seemed to overthrow the fundamental logic of the Cold War

Gas Infra-red, the Green Heat George Kritzler, 2025-10-14 This book is a self study guide for HVAC energy and non HVAC energy engineers and plant managers who either lack formal training in the subjects of finance accounting and gas IR heating engineering economics or simply need a means to refresh their knowledge in these subjects Many energy and non energy engineers and technical managers feel inadequately equipped to comprehend and apply certain important finance and accounting principles Understanding of finance and accounting principles is important in interfacing and conducting business with accountants financial analysts and members of upper management This book is designed to familiarize energy engineers and other engineering professionals in a relatively simple and easy to understand fashion with decision making skills founded on financial calculations and case study based quantitative analysis
