Redesigning Rural Development A Strategic Perspective The Johns Hopkins Studies In Development:

Redesigning Rural Development Bruce F. Johnston, William C. Clark, 1982 *The Challenge of Rural Development in the EU Accession Countries* Csaba Csáki, Zvi Lerman, 2001-01-01 From the Abstract This volume examines the reforms and policy changes necessary in the rural sectors of the ten countries that have started the accession process for eventual membership in the European Union Bulgaria Czech Republic Estonia Hungary Latvia Lithuania Poland Romania Slovakia and Slovenia The papers in this volume are selected from the presentations at the Third World Bank FAO EU Accession Workshop held in Sofia Bulgaria on June 17 20 2000 and are organized around four topics i defining the concepts of rural development options for EU accession candidate countries ii rural development in the European Union iii rural development in Central and Eastern Europe and iv international experiences and the role of international organizations in supporting rural development in the EU accession candidate countries This volume is intended for agricultural policy makers and government officials in the candidate countries EU officials World Bank and FAO staff development scholars and all others interested in the process of rural development in Central and Eastern Europe **Rural Development** Katar Singh, 2009-01-06 This title addresses the basic concepts elements dogmas paradigms determinants policy instruments strategies policies and programmes and management of rural development The book emphasizes in particular the pivotal role of human resources as both a means and an end of development **Searching for Rural Development** Merilee S. Grindle, 2019-01-24 Throughout the Third World rural people must leave their homes in ever greater numbers to seek temporary work in urban centers in distant rural areas or across international borders This temporary labor migration less an option than a necessity for many is symptomatic of rural stagnation and increasing economic dependence and is most prevalent in regions where the base for agricultural development is poor Searching for Rural Development addresses the critical question of how rural development strategies can help provide more secure livelihoods for the millions who are now unable to sustain themselves and their families in local communities Focusing on Mexico Merilee S Grindle examines how rural families adapt to the paucity of local employment opportunities by pursuing complex strategies of income diversification She assesses various options for creating jobs in rural and semirural areas and considers how recommended rural development policies can be implemented through the political process *Values and Participation* Bambang Budijanto, 2009 *The Chinese People's Movement* Tony Saich, 2019-07-26 The pro democracy demonstrations of April May 1989 heralded the awakening of public opinion in urban China the brutal suppression in June revealed a Communist Party leadership severely out of touch with its own society and its aspirations The contributors to this timely book a number of whom witnessed the events described place these dramatic events within the broader context of China's developmental experience Rather than an instant reaction and description however this book grows out of the ongoing research interests and keen observational skills of the contributors Therefore it provides as historical developmental societal cultural and political context for the tragic event in terms of their antecedents ramifications

and impact on the history of the Chinese People's movement **Except-Africa** Emery Roe, It is a commonplace that the problems of African rural development are becoming increasingly complex that is they have grown more numerous interrelated and varied This complexity has generated a multitude of development scenarios Among these is the doomsday scenario applied to every nation on the continent best captured in the phrase Everything works except in Africa Emery Roe argues that crisis scenarios generated by an expert usually non African elite are self serving and counterproductive Except Africa takes up the challenge of devising development scenarios that do justice to the continent's variegated reality

Planning Education Reforms in Developing Countries Dennis A. Rondinelli, John Middleton, Adriaan Verspoor, 1990 This work the first to apply contingency theory to education reform planning is particularly useful in that it has applications to planning both in developing countries and in the United States and Europe The basic approach applies to a wide variety of development programs and will influence project management and policy administration **Social Impact Assessment**

And Monitoring Michael J Carley, Eduardo Bustelo, 2019-05-28 This systematic critical review of more than 600 recent publications in social impact assessment SIA and related fields is based on the authors belief that SIA is more than an analytical technique it is also a logical and timely response to our ever growing need for more and better information to facilitate decision making in an increasingly c

International Organization and Global Governance Thomas G. Weiss, Rorden Wilkinson, 2013-10-15 Featuring a diverse and impressive array of authors this volume is the most comprehensive textbook available for all interested in international organization and global governance Organized around a concern with how the world is and could be governed the book offers in depth and accessible coverage of the history and theories of international organization and global governance discussions of the full range of state intergovernmental and nonstate actors and examinations of key issues in all aspects of contemporary global governance The book's 50 chapters are arranged into 7 parts and woven together by a comprehensive introduction to the field separate section introductions designed to guide students and faculty and helpful pointers to further reading International Organization and Global Governance is a self contained resource enabling readers to better comprehend the role of myriad actors in the governance of global life as well as to assemble the many pieces of the contemporary global governance puzzle *Comparative Public*

Administration Eric E. Otenyo, Nancy S. Lind, Lawrence R. Jones, 2006-07-24 Public administration scholars and practitioners are increasingly concerned with the need to broaden the field's scope beyond particularistic accounts of administration in given countries This title brings together seminal readings in comparative development public administration and contemporary public management scholarship **Agricultural Economics and Rural Sociology** Wallace C. Olsen, 1991

The first of an eight volume series The Literature of the Agricultural Sciences this book analyzes the trends in the published literature of agricultural economics and rural sociology during the past fifty years It uses citation analysis and other bibliometric techniques to identify the primary journals report series and monographs of current importance to the

developed industrial countries as well as those in the Third World

Assessments of Regional and Global

Environmental Risks Alexander E. Farrell, Jill Professor Jäger, 2010-09-30 As environmental challenges grow larger in scale and implications it is increasingly important to apply the best scientific knowledge in the decisionmaking process Editors Farrell and Jäger present environmental assessments as the bridge between the expert knowledge of scientists and engineers on the one hand and decisionmakers on the other When done well assessments have a positive impact on public policy the strategic decisions of private firms and ultimately the quality of life for many people This book is the result of an international interdisciplinary research project to analyze past environmental assessments and understand how their design influenced their effectiveness in bringing scientific evidence and insight into the decisionmaking process The case studies in the book feature a wide range of regional and global risks including ozone depletion transboundary air pollution and climate change Assessments of Regional and Global Environmental Risks offers several important contributions It provides a clear account of the choices faced in the design of environmental assessments and a clear description of the lessons learned from past assessments It illustrates why assessments are social processes not simply reports And while they identify no universal one size fits all design the authors find that to be effective environmental assessments must be viewed by those who produce and use them as being salient credible in their scientific support and legitimate or fair in design and execution Economic

Development Jeffrey Harris Cohen, Norbert Dannhauser, 2002 This volume presents analyses on the theory and practice of economic development in rural and urban communities around the world The 13 contributions cover topics including market systems agricultural knowledge modernization population growth conservation strategies participatory culturally sustainable and urban development globalization and privatization tourism and financial markets Of interest for comparative research in the fields of anthropology development agricultural research geography and the environment Edited by Cohen anthropology Pennsylvania State U and Dannhauser anthropology Texas A M U who are also contributors Annotation copyrighted by Book News Inc Portland OR Epidemiology and the Prevention of Mental Disorders Brian Cooper, Tómas Helgason, 2021-06-23

First published in 1989 Epidemiology and the Prevention of Mental Disorders examines the research undertaken into the methods for studying the occurrence of mental illness in populations during the twenty years prior to publication The book explores the incidence and distribution of conditions such as schizophrenia depression alcoholism addiction and dementia across populations and the risk factors with which they are associated Taking a public health approach to the prevention of mental illness the book reports on epidemiological research in psychiatry emphasising its use in preventative terms and making connections between its use in psychiatry and its use in other fields of medicine It also comments on the development of psychiatric epidemiology as a public health discipline and draws attention to the implications of contemporary changes to biological and social environments on mental health Epidemiology and the Prevention of Mental Disorders will appeal to those with an interest in the history of psychiatric epidemiology and mental health *Development in Practice (Routledge*

Revivals) Doug Porter, Bryant Allen, Gaye Thompson, 2014-06-03 The Magarini Settlement Project in Kenya is typical of many large Third World rural development projects of recent years not least in its failure to fulfil even minimum goals First published in 1991 *Development in Practice* explores the reasons for this projects failure and looks at the lessons to be learned from this experience for development in general Challenging many assumptions and approaches its provocative conclusions will generate much interest amongst development practitioners

Transforming Agrarian Economies

Thomas P. Tomich, Peter Kilby, Bruce F. Johnston, 2018-05-31 The world's 58 poorest countries are diverse in many respects but they share the characteristic of a labor force overwhelmingly dependent on agriculture Challenging the assumption that mass poverty and chronic hunger are insoluble problems this book systematically explores the multiple aspects of economic development in these countries which are home to 60 percent of the world's population The authors offer a broad based development strategy to raise incomes through agricultural productivity growth and expanded rural employment They present rich new information on the rural informal sector and on agriculture industry interactions and they analyze the impact of macroeconomic and social policies on the rural economy Policy instruments aimed at bringing about broad based development are carefully assessed from fiscal policy to development of new seeds and farm implements The book includes detailed case studies of countries that have seized or missed development opportunities Comparison of the successful economic transformations of Japan and the United States shows how key ideas which the authors call strategic notions have enabled policymakers to act with foresight Analyses of strategic choices in China the Soviet Union Taiwan Mexico Kenya and Tanzania also show how development strategies that emerge from the real world political economy reflect a mix of individual interests and strategic notions

International Agricultural Development

Carl K. Eicher, John M. Staatz, 1998-11-20 Other topics include market failures food insecurity rural poverty environmental degradation income and asset inequality fiscally sustainable organizations the changing roles of the public and private sector in research input delivery systems marketing and low rates of agricultural growth in much of sub Saharan Africa

Rethinking Sustainability

Jonathan Mark Harris, 2009-11-12 Bringing together the thoughts of economists political scientists anthropologists philosophers and agricultural policy professionals this volume focuses on the issues of sustainability in development Examining such topics as international trade political power gender roles legal institutions and agricultural research the contributors focus on the missing links in theory and practice that have been barriers to the achievement of truly sustainable development Any theory of sustainable development must take into account economic social and environmental dimensions Until recently the question What is development was often answered predominantly from the economist's perspective with high priority being assigned to expansion of economic output Social political institutional and ethical aspects have often been neglected But now that sustainable development has become a broadly accepted concept it is impossible to maintain a narrowly economic view of development For this reason the varied perspectives offered by the contributors to this volume are crucial to understanding

the process of development as it relates to environmental sustainability and human well being The selection of articles is meant to be stimulating and provocative rather than comprehensive They are roughly divided between those dealing with broad theoretical issues concerning the economic political and social aspects of development Part I and those presenting more applied analysis Part II The common thread is a concern for examining which factors contribute to making development socially just and environmentally sound Rethinking Sustainability will be of interest to economists and social scientists development professionals and instructors seeking to offer their students a broad perspective on development issues Jonathan Harris is Senior Research Associate Global Development and Environment Institute at Tufts University as well as Adjunct Associate Professor of International Economics at Tufts University Fletcher School of Law New Technology and Rural Development M. J. Campbell, 1990 A comparative study of the impact of increased modernization in the rural sector on seven important developing countries This book should be of interest to students and lecturers in development studies
