Sustainability and Design Ethics Tom Russ, 2010-03-25 From microcosm to macrocosm ecodesign green design environmental design and triple bottom line are quickly becoming more than just catchy phrases that describe touchy feely trends Increases in climate uncertainty and energy costs as well as food water and services insecurity are just a few of the challenges driving the growing demand for sus Landscape Architecture ,2000 **Principles of Brownfield**

Regeneration Justin Hollander, Niall Kirkwood, Julia Gold, 2010-09-02 The U S EPA defines brownfields as idle real property the development or improvement of which is impaired by real or perceived contamination The authors of Principles of Brownfield Regeneration argue that compared to greenfields farmland forest or pasturelands that have never been developed brownfields offer a more sustainable land development choice They believe that brownfields are central to a sustainable strategy of thwarting sprawl preserving or regenerating open space reducing greenhouse gas emissions and reinvesting in urbanized areas Drawing on interviews with people involved in brownfield projects as well as on their own considerable expertise the authors use five case studies to describe the steps for cleaning up a site and creating viable land for development or open space Local Economic Development and the Environment Susan M. Opp, Jeffery L. Osgood, Jr., 2013-03-22 A clear and practical examination of complex issues Local Economic Development and the Environment Finding Common Ground provides a broad academic look at the intersection of two important areas for local administrators In addition to managing development in a strained economic climate most administrators are also expected to be stewards of the environment However economic conditions often leave them with limited options for pursuing economic development and at the same time being environmentally mindful Many find themselves without a clear understanding of the concepts tools and best practices available to accomplish this herculean task Translating complex environmental and economic concepts into easily applicable practices the book Gives practitioners the information they need to communicate with consultants constituents and officials and to avoid ideological obstacles Compares regulatory differences between states and other geographical differences Includes examples from across the country to highlight variations in environmental regulations and laws Provides technical legal and political insights into the process of pursuing local economic development projects that incorporate protection and awareness Contains case studies that demonstrate the concepts in action allowing readers to fully grasp the complexities associated with sustainable economic development Discusses how local administrators can balance the economic and environmental needs of the future Bridging the gap between policy making intention and outcome this book connects readers with a larger body of research that not only underpins practical applications but also helps them avoid legal technical and political obstacles It provides an arsenal of best practices and everyday easy to use strategies for
