Rediscovering McGill's Heritage:

An Intellectual Heritage Ann-Marie Hansen, Kristin Neel, 2013 **Rediscovering McGill's Heritage** Joan Edward, Anastasia Onyszchuk, 1997-01-01 **This is Our Place, this is Our Home** Joan Edward, 2006 This collection of revealing journal entries and biographical sketches describes some of the island's most colourful inhabitants. Interspersed with line drawings it reflects the land's rugged grandeur and the people's enduring strength. *A Noble Roster* Ian C. Pilarczyk, McGill University. Faculty of Law, 1999 [The Rediscovery of America](#) Ned Blackhawk, 2023-04-25 A sweeping and overdue retelling of U.S. history that recognizes that Native Americans are essential to understanding the evolution of modern America. The most enduring feature of U.S. history is the presence of Native Americans yet most histories focus on Europeans and their descendants. This long practice of ignoring Indigenous history is changing however with a new generation of scholars insists that any full American history address the struggle, survival and resurgence of American Indian nations. Indigenous history is essential to understanding the evolution of modern America. Ned Blackhawk interweaves five centuries of Native and non-Native histories from Spanish colonial exploration to the rise of Native American self-determination in the late twentieth century. In this transformative synthesis he shows that European colonization in the 1600s was never a predetermined success. Native nations helped shape England's crisis of empire the first shots of the American Revolution were prompted by Indian affairs in the interior. California Indians targeted by federally funded militias were among the first casualties of the Civil War the Union victory forever recalibrated Native communities across the West. twentieth century reservation activists refashioned American law and policy. Blackhawk's retelling of U.S. history acknowledges the enduring power agency and survival of Indigenous peoples yielding a truer account of the United States and revealing anew the varied meanings of America. [Rediscovered Self](#) Ronald Niezen, 2009-05-18 In a series of thematically linked essays Ronald Niezen discusses the ways new rights standards and networks of activist collaboration facilitate indigenous claims about culture adding coherence to their histories institutions and group qualities. Drawing on historical legal and ethnographic material on aboriginal communities in northern Canada Niezen illustrates the ways indigenous peoples worldwide are identifying and acting upon new opportunities to further their rights and identities. He shows how within the constraints of state and international legal systems activist lobbying strategies and public ideas and expectations indigenous leaders are working to overcome the injuries of imposed change political exclusion and loss of identity. Taken together the essays provide a critical understanding of the ways in which people are seeking cultural justice while rearticulating and at times re-dignifying the collective self. The Rediscovered Self shows how through the processes and aims of justice distinct ways of life begin to be expressed through new media formal procedures and transnational collaborations. [McGill University](#) Stanley Brice Frost, 1984-05-01 The appointment of John William Dawson as principal in 1855 brought modern ideas of education to Montreal and he imparted to the emerging institution his own deep commitment

to science The Molson Hall in 1862 the first Medical School on campus in 1872 the Redpath Museum in 1882 the Macdonald Physics Building the Redpath Library and the Macdonald Workman Engineering Building all in 1893 were the major external evidences of the great intellectual advances that had been made Equally the admission of women students in 1884 marked the immense social developments in Montreal society An early contribution to elementary teaching through the work of the McGill Normal School was followed by the institution of examinations for a far flung network of affiliated secondary schools and by the encouragement and supervision of local colleges By the time Dawson retired in 1893 McGill's influence was already reaching across the new Dominion of Canada and the university was ready to make the transition into the twentieth century
