*Redwood Classic* Ralph Warren Andrews, 1958 This book is one man's memorial to the magnificent natural redwood Sequoia trees in California which today number only a fraction of the groves of 125 years ago Through outstanding photographs Ralph Andrews presents 239 different views of redwood trees three thousand years old on average at various stages of use Straight elegant trees are so wide 20 men touching fingers to fingers can stand around the trunk These trees were used to build lumbering empires and they kept thousands employed Many of the lumbermen themselves are quoted in memories of their work on the old trees hardships inventions earthquakes and fires sawmills logging camps and shipping are remembered Redwood Classic Ralph Andrews, 1987-01-01 *California Redwood (Classic Reprint)* Pacific Lumber Company, 2017-10-14 Excerpt from California Redwood It is estimated that there is standing today about 75 billion feet of Redwood timber At the present rate of production there is over a century's supply within this comparatively limited area in California Paradoxical as it may seem America's oldest tree is the least known and the last to be put to extensive use in the service of mankind It was not until 1850 that any Redwood was cut for the market About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Hearings** United States.
