Harvard's Centre for Middle East Studies. It provides scholars endeavouring to study the contemporary political history of Iran with primary source material consisting of personal accounts of 132 individuals who played major roles in important political events and decisions in Iran from the 1920s to the 1970s or witnessed these events and decisions from close range. Prince Hamid Kadjar was the grandson of Mohammad Ali Shah Qajar, reigned 1907-9, nephew of Ahmad Shah, reigned 1909-25, and son of Crown Prince Mohammad Hassan Mirza, 1909-25, and Mohtaram al Saltaneh Razzaghi, the second of five wives married to the Crown Prince. He was born in Tabriz on April 23, 1918. In October 1925, the Iranian Majles parliament disposed of the Qajars after 140 years of rule. On the same day, Prince Hamid's father, who was holding fort in Tehran during Ahmad Shah's extended stay in Europe, was expelled from the country. He headed for Paris and joined the rest of his family. At the age of seven, he was sent to England to live and study under the guardianship of a prominent English family. In 1942, as the Second World War engulfed Europe, Prince Hamid volunteered for the Royal Navy and was commissioned as a sub-lieutenant. Prince Hamid lived his years of retirement with his wife in London. After a brief illness, he died on May 5, 1998, and was buried in Brookwood Cemetery in Surrey. In an obituary, *The Times* of London, May 9, 1988, said: "Though very much a Persian in appearance, Prince Hamid had a bluff and breezy British quarterdeck manner combined with a shrewd insight into both British and Iranian affairs. He excelled as a raconteur and had a wide circle of British friends."

Eminent Persians Abbas Milani, 2022-08-01. As the 25th anniversary of the Islamic Revolution approached, Abbas Milani realized that very little, if any, attention had been given to the entire prerevolutionary generation. Political upheavals and a tradition of neglecting the history of past regimes have resulted in a cultural memory loss, erasing the contributions of a generation of individuals. *Eminent Persians* seeks to rectify that loss. Milani's groundbreaking portrait of modern Iran reveals the country's rich history through the lives of the men and women who forged it. Consisting of 150 profiles of the most important innovators in Iran between World War II and the Islamic Revolution, the book includes politicians, entrepreneurs, poets, artists, and thinkers who brought Iran into the modern era with brilliant success and sometimes terrible consequences. The biographies and essays weave a richly textured tapestry of lives, ideas, and events that reveals the true story of these decades in the life of a nation. The two volumes are divided into sections on politics, economics, and culture, each accompanied by an introductory essay that places the individual stories in their broader historical context. Drawn from interviews, extensive archival material, and private correspondence, *Eminent Persians* is a treasure trove of original documents, many appearing in print for the first time. Detailed sketches of personalities and personal foibles offer a compelling and highly readable account of this remarkable period of history on a human scale.

Hard Times in the Lands of Plenty Benjamin Smith, 2011-05-02. That natural resources can be a curse as well as a blessing is almost a truism in political analysis. In many late-developing countries, the resource curse theory predicts the exploitation of valuable resources will not result in stable, prosperous states but rather in their opposite. Petroleum deposits, for example, may generate so much income that rulers will have little need to establish efficient

tax extracting bureaucracies leading to shallow poorly functioning administrations that remain at the mercy of the world market for oil Alternatively resources may be geographically concentrated thereby intensifying regional ethnic or other divisive tensions In *Hard Times in the Land of Plenty* Benjamin Smith deciphers the paradox of the resource curse and questions its inevitability through an innovative comparison of the experiences of Iran and Indonesia These two populous oil rich countries saw profoundly different changes in their fortunes in the period 1960-1980 Focusing on the roles of state actors and organized opposition in using oil revenues Smith finds that the effects of oil wealth on politics and on regime durability vary according to the circumstances under which oil exports became a major part of a country's economy The presence of natural resources is he argues a political opportunity rather than simply a structural variable Drawing on extensive primary research in Iran and Indonesia and quantitative research on nineteen other oil rich developing countries Smith challenges us to reconsider resource wealth in late developing countries not as a simple curse or blessing but instead as a tremendously flexible source of both political resources and potential complications **Bulletin**, 1987 Directory of Oral History Collections Allen Smith, 1988 **Iran Reframed** Narges Bajoghli, 2023-05-25 A Middle East scholar shares an inside look at what it means to be pro regime in Iran and the debates around the future of the Islamic Republic More than half of Iran's citizens were not alive at the time of the 1979 Revolution Now entering its fifth decade in power the Iranian regime faces the paradox of any successful revolution how to transmit the commitments of its political project to the next generation New media ventures supported by the Islamic Republic attempt to win the hearts and minds of younger Iranians Yet members of this new generation whether dissidents or fundamentalists are increasingly skeptical of these efforts Iran Reframed offers unprecedented access to those who wield power in Iran as they debate and define the future of the Republic Over ten years Narges Bajoghli met with men in Iran's Revolutionary Guard Ansar Hezbollah and Basij paramilitary organizations to investigate how their media producers developed strategies to court Iranian youth Readers come to know these men what the regime means to them and their anxieties about the future of their revolutionary project This book offers a multilayered story about what it means to be pro regime in the Islamic Republic challenging everything we think we know about Iran and revolution **Forthcoming Books** Rose Arny, 1998 1997, 日本の歴史 日本史 日本文化 *Historia antropología y fuentes orales*, 1996
