e.g. blockchain are also covered. The Handbook is divided into ten sections: current environment, records creation and recordkeeping systems, appraisal and acquisition, arrangement and description, storage and preservation, digital preservation, user services, community outreach and advocacy, risk management, security and privacy, and management and leadership. Some terms touch on more than one category, which made sorting a challenge. Readers are encouraged to consult both the table of contents and the index as a topic may be addressed in more than one entry. A total of 111 entries by 105 authors are defined and described in The Handbook. The majority, 79, of the contributors were from the US; 12 from Canada; 7 from the United Kingdom; 3 from Australia; 1 each from Germany, Jamaica, New Zealand, and the Russian Federation.
