George Herbert Locke and the Transformation of Toronto Public Library, 1908-1937 Lorne D. Bruce,2020-12-31 George H Locke chief librarian of the Toronto Public Library between 1908 and 1937 was Canada s foremost library administrator in the first part of the twentieth century During this period free public libraries and librarianship in Ontario expanded rapidly due to the philanthropy of Andrew Carnegie improvements in library education and the influence of American library services Locke was closely associated with all these trends however his outlook was primarily guided by his Methodist upbringing the Anglo Canadian academic tradition of British Idealism and his association with John Dewey s contribution to American progressive education These religious and intellectual strands encouraged personal action to improve social conditions As director of Toronto s libraries he brought his ambitious ideas to bear in many ways the building of neighbourhood branches library service for children formal education for librarians suitable reading for immigrants and young adults and the idea of the public library as a municipal partner in the self education of adult Canadians By 1930 Toronto s public library system was recognized as one of the best in North America and George Locke s reputation as a visionary leader had vaulted him to the Presidency of the American Library Association Although he had created a large organization that might have succumbed to bureaucratic practices and formalized centralization Locke resisted this development He remained faithful to his moral intellectual and humanistic values acquired during his early schooling and university career For Locke libraries and librarians were less about organization and formal duties Both needed to be faithful to the main principle of serving the public interest by delivering knowledge and by guiding individual self development through experiential learning and transcendent ideals Government Publications Bernard M. Fry,Peter Hernon,2013-10-02 Government Publications Key Papers is a compilation of papers that covers various topics related to government publications The book presents materials drawn from a variety of sources such as public domains book chapters and periodicals from different countries The text contains 61 chapters organized into 15 parts each part covers a specific area such as sorting and labeling of publications library systems reference services and municipal and state publications The book dedicates several parts to British Canadian and Australian publications This book will be of great value to individuals who have an interest in government information **Encyclopedia of Library and Information Science** Allen Kent,Harold Lancour,Jay E. Introduction to Reference Work: Reference services and reference processes William A. Katz,1978 The Public Library Magazine St. Louis Public Library,1897 **Knowledge and Special Libraries** Suzanne Connolly,James Matarazzo,2009-11-03 First Published in 1998 Formerly a library was viewed as a place for information storage and information was viewed as simply bits of data Furthermore many wielded information as a tool of power in that those who had more information had more authority It is becoming increasingly clear that shared collective knowledge of an organization is of far greater value than that of each individual s privately held data In view of the librarian s changing profession it has also become clear that they are now being charged with the mission to explore and implement new and innovative methods to encourage sharing and to better manage information The articles selected for this compendium are well thought out and organized and are drawn from the fields of information and library science and business management Since most special libraries are corporate libraries the selections are taken from these different disciplines to provide perspectives from both a business standpoint and an information management one The selections contain many different predictions about libraries and librarians of the future They focus on new roles and highlight the importance of the profession With the rapid growth of technology end users are being inundated with choices They need expert advice from experienced practitioners Currently much of the literature focuses solely on the management of libraries as opposed to environment in which libraries operate The purpose of this reader is to correct that **Ancient and medieval** ,1912
