Tamanaha,2024-01-08 This book examines law in Micronesia from a novel perspective It draws upon several branches of interpretive analysis including mundane phenomenology symbolic interaction and cultural hermeneutics to construct a comprehensive approach to transplanted systems of state law Rather than the usual focus on legal norms and institutions this approach directs attention to the law related meaningful actions and understandings of legal actors and of non legal actors Application of this approach results in insights about law in Micronesia as well as about law itself and about the ideology of law A wide range of subjects are addressed from the nature of legal thinking to the autonomy of law It is a work in legal theory grounded in psychological sociological and anthropological observations and analysis **Phenomenology of Consciousness and Sociology of the Life-World** Helmut R. access In disciplines as diverse as philosophy sociology the information sciences and linguistics relevance has been proposed as a key concept This book is the first to bring together the often unrelated traditions Researchers from different fields discuss relevance and relate it to the challenges of irrelevance which have so far been neglected despite their significance for our chances of making well informed decisions and understanding others The contributions focus on theoretical and conceptual questions on specific factors and fields and on practical and political implications of relevance and irrelevance as forces which are even stronger when they remain in the background *Logos of Phenomenology and Phenomenology of The Logos.
