*Reflections on British Royalty* Jennifer J. Purcell, Fiona Courage, 2024-02-22 In this original volume Jennifer J. Purcell and Fiona Courage curate and contextualize the rich archival materials of social research organisation Mass Observation on the British popular imagination of the monarchy and the royal family between 1937 and 2022. From the coronation of George VI in 1937 to Elizabeth II's death via war weddings, a jubilee, and a tragedy, this book incorporates everything from diaries and detailed responses to questionnaires, internal organisational documents, and published reports on popular attitudes to royalty in order to reveal the complex nature of Britain's relationship with its monarchy in the modern era. How does the British public imagine the monarchy and its role in British society and governance? What is the relationship between the British people and the Crown? Using material from Mass Observation, which has been asking these questions for over 80 years, *Reflections on British Royalty* gets to the heart of these issues and more besides.      **British Art for Australia, 1860-1953**

Matthew C. Potter, 2018-12-21 Traditional postcolonial scholarship on art and imperialism emphasises tensions between colonising cores and subjugated peripheries. The ties between London and British white settler colonies have been comparatively neglected. Artworks not only reveal the controlling intentions of imperialist artists in their creation but also the uses to which they were put by others in their afterlives. In many cases they were used to fuel contests over cultural identity which expose a mixture of rifts and consensuses within the British ranks which were frequently assumed to be homogeneous. *British Art for Australia 1860-1953: The Acquisition of Artworks from the United Kingdom by Australian National Galleries* represents the first systematic and comparative study of collecting British art in Australia between 1860 and 1953, using the archives of the Australian national galleries and other key Australian and UK institutions. Multiple audiences in the disciplines of art history, cultural history, and museology are addressed by analysing how Australians used British art to carve a distinct identity which artworks were desirable, economically attainable, and why and how the acquisition of British art fits into a broader cultural context of the British world. It considers the often-competing roles of the British Old Masters, e.g. Romney and Constable, Victorian, e.g. Madox Brown and Millais, and modern artists, e.g. Nash and Spencer, alongside political and

economic factors including the developing global art market imperial commerce Australian Federation the First World War and the coming of age of the Commonwealth      *British Painting* Eric Newton,1945      The British Aesthetic Tradition Timothy M. Costelloe,2013-03-18 The British Aesthetic Tradition From Shaftesbury to Wittgenstein is the first single volume to offer readers a comprehensive and systematic history of aesthetics in Britain from its inception in the early eighteenth century to major developments in Britain and beyond in the late twentieth century The book consists of an introduction and eight chapters and is divided into three parts The first part The Age of Taste covers the eighteenth century approaches of internal sense theorists imagination theorists and associationists The second The Age of Romanticism takes readers from debates over the picturesque through British Romanticism to late Victorian criticism The third The Age of Analysis covers early twentieth century theories of Formalism and Expressionism to conclude with Wittgenstein and a number of views inspired by his thought      *British Art and the Environment* Charlotte Gould,Sophie Mesplède,2021-07-21 This book explores the nature of Britain based artists engagement with the transformations of their environment since the early days of the Industrial Revolution At a time of pressing ecological concerns the international group of contributors provide a series of case studies that reconsider the nature culture divide and aim at identifying the contours of a national narrative that stretches from enclosed lands to rising seas By adopting a longer historical view this book hopes to enrich current debates concerning art s engagement with recording and questioning the impact of human activity on the environment The book will be of interest to scholars working in art history contemporary art environmental humanities and British studies      **Art Crossing Borders** Jan Dirk Baetens,Dries Lyna,2019-02-11 Art Crossing Borders offers a thought provoking analysis of the internationalisation of the art market during the long nineteenth century Twelve experts dealing with a wide variety of geographical temporal and commercial contexts explore how the gradual integration of art markets structurally depended on the simultaneous rise of nationalist modes of thinking in unexpected and ambiguous ways By presenting a radically international research perspective Art Crossing Borders offers a crucial contribution to the field of art market studies
