## **Reform In Detroit Hazen S Pingree And Urban Politics:**

Reform in Detroit Melvin G.. Holli,1966      *Urban Politics* Bernard H. Ross,Myron A. Levine,2011-08-10 This popular text mixes the best classic theory and research on urban politics with the most recent developments in urban and metropolitan affairs Its very balanced and realistic approach helps students to understand the nature of urban politics and the difficulty of finding effective solutions in a suburban and global age The eighth edition provides a comprehensive review and analysis of urban policy under the Obama administration and brand new coverage of sustainable urban development A new chapter on globalization and its impact on cities brings the history of urban development up to date and a focus on the politics of local economic development underscores how questions of economic development have come to dominate the local arena The book traces the changing style of community participation including the emergence of CDCs BIDs and other new style service organizations It analyzes the impacts of the New Regionalism the New Urbanism and much more at an approachable level The eighth edition is significantly shorter and more affordable than previous editions and the entire text has been thoroughly rewritten to engage students Boxed case studies of prominent recent and current urban development efforts provide material for class discussion and concluding material demonstrates the tradeoff between more ideal and more pragmatic urban politics Source material provides Internet addresses for further research      *People & Politics in Urban America* Robert W. Kweit,2013-10-31 This revised textbook for courses on urban politics challenges the notion that the field is dominated by political economy showing that despite the undeniable importance of economic issues citizens do play a significant part in urban politics      **Political Monopolies in American Cities** Jessica Trounstone,2008-09-15 Around the same time that Richard J Daley governed Chicago greasing the wheels of his notorious political machine during a tenure that lasted from 1955 to his death in 1976 Anthony Dutch Hamann s reform government centralized authority to similar effect in San Jose In light of their equally exclusive governing arrangements a similarity that seems to defy their reputations Jessica Trounstone asks whether so called bosses and reformers are more alike than we might have realized Situating her in depth studies of Chicago and San Jose in the broad context of data drawn from more than 240 cities over the course of a century she finds that the answer a resounding yes illuminates the nature of political power Both political machines and reform governments she reveals bias the system in favor of incumbents effectively establishing monopolies that free governing coalitions from dependence on the support of their broader communities Ironically Trounstone goes on to show the resulting loss of democratic responsiveness eventually mobilizes residents to vote monopolistic regimes out of office Envisioning an alternative future for American cities Trounstone concludes by suggesting solutions designed to free urban politics from this damaging cycle      **The Republic for Which It Stands** Richard White,2017-08-04 The Oxford History of the United States is the most respected multivolume history of the American nation In the newest volume in the series The Republic for Which It Stands acclaimed historian Richard White offers a fresh and integrated interpretation of Reconstruction and the Gilded

Age as the seedbed of modern America At the end of the Civil War the leaders and citizens of the victorious North envisioned the country's future as a free labor republic with a homogenous citizenry both black and white The South and West were to be reconstructed in the image of the North Thirty years later Americans occupied an unimagined world The unity that the Civil War supposedly secured had proved ephemeral The country was larger richer and more extensive but also more diverse Life spans were shorter and physical well being had diminished due to disease and hazardous working conditions Independent producers had become wage earners The country was Catholic and Jewish as well as Protestant and increasingly urban and industrial The dangerous classes of the very rich and poor expanded and deep differences ethnic racial religious economic and political divided society The corruption that gave the Gilded Age its name was pervasive These challenges also brought vigorous efforts to secure economic moral and cultural reforms Real change technological cultural and political proliferated from below more than emerging from political leadership Americans mining their own traditions and borrowing ideas produced creative possibilities for overcoming the crises that threatened their country In a work as dramatic and colorful as the era it covers White narrates the conflicts and paradoxes of these decades of disorienting change and mounting unrest out of which emerged a modern nation whose characteristics resonate with the present day

America's Three Regimes : A New Political History Morton Keller Professor of History Brandeis University, 2007-09-26

When historians take the long view they look at ages or eras the Age of Jackson the Progressive Era But these time spans last no longer than a decade or so In this groundbreaking new book Morton Keller divides our nation's history into three regimes each of which lasts many many decades allowing us to appreciate as never before the slow steady evolution of American public life Americans like to think of our society as eternally young and effervescent But the reality is very different A proper history of America must be as much about continuity persistence and evolution as about transformation and revolution To provide this proper history Keller groups America's past into three long regimes Deferential and Republican from the colonial period to the 1820s Party and Democratic from the 1830s to the 1930s and Populist and Bureaucratic from the 1930s to the present This approach yields many new insights We discover for instance that the history of colonial America the Revolution and the Early Republic is a more unified story than usually assumed The Civil War industrialization and the Progressive era did relatively little to alter the character of the democratic party regime that lasted from the 1830s to the 1930s And the populist bureaucratic regime in which we live today has seen changes in politics government and law as profound as those that occurred in the late 18th and early 19th centuries As Keller underscores the sheer staying power of America's public institutions he sheds light on current concerns as well in particular will the current political polarization continue or will more moderate forces prevail Here then is a major contribution to United States history an entirely new way to look at our past our present and our future packed with provocative and original observations about American public life

*Encyclopedia of American Urban History* David Goldfield, 2007 Publisher description

**Place Matters** Peter

Dreier, John H. Mollenkopf, Todd Swanstrom, 2004 Analyzes the problematic trends facing America's cities and older suburbs and challenges us to put America's urban crisis back on the national agenda [An American Urban Residential Landscape, 1890-1920](#) , **Claiming the City** Shelton Stromquist, 2023-02-14 How workers fought for municipal socialism to make cities around the globe livable and democratic and what the lessons are for today Winner of the International Labor History Association ILHA 2023 Book of the Year Award for labor history For more than a century municipal socialism has fired the imaginations of workers fighting to make cities livable and democratic At every turn propertied elites challenged their right to govern Prominent US labor historian Shelton Stromquist offers the first global account of the origins of this new trans local socialist politics He explains how and why cities after 1890 became crucibles for municipal socialism Drawing on the colorful stories of local activists and their social democratic movements in cities as diverse as Broken Hill Christchurch Malm Bradford Stuttgart Vienna and Hamilton OH the book shows how this new urban politics arose Long governed by propertied elites cities in the nineteenth century were transformed by mass migration and industrialization that tore apart their physical and social fabric Amidst massive strikes and faced with epidemic disease fouled streets unsafe water decrepit housing and with little economic security and few public amenities urban workers invented a local politics that promised to democratize cities they might themselves govern and reclaim the wealth they created This new politics challenged the class power of urban elites as well as the centralizing tendencies of national social democratic movements Municipal socialist ideas have continued to inspire activists in their fight for the right of cities to govern themselves [The Longman Companion to America in the Era of the Two World Wars, 1910-1945](#) Patrick Renshaw, 2014-07-10 Between 1910 and 1945 the United States transformed itself into a Super Power By 1945 with rivals in Europe and Asia shattered by world war she dominated global economic financial and political arrangements and monopolised the atomic bomb This new Companion to History is an indispensable guide to this critical period in US history It includes chronologies listing all the major events both foreign and domestic social and economic history with many tables based on inaccessible data scores of mini biographies listings of the major office holders and maps [Power and Society in Greater NY](#) David C. Hammack, 1982-10-02 Who has ruled New York Has power become more concentrated or more widely and democratically dispersed in American cities over the past one hundred years How did New York come to have its modern physical and institutional shape Focusing on the period when New York City was transformed from a nineteenth century mercantile center to a modern metropolis David C Hammack offers an entirely new view of the history of power and public policy in the nation's largest urban community Opening with a fresh and original interpretation of the metropolitan region's economic and social history between 1890 and 1910 Hammack goes on to show how various population groups used their economic social cultural and political resources to shape the decisions that created the modern city As New York grew in size and complexity its economic and social interests were forced to compete and form alliances No single group not even the wealthy was able to exercise continuing control of urban

policy Building on his account of this interplay among numerous elites Hammack concludes with a new interpretation of the history of power in New York and other American cities between 1890 and 1950 This book makes a major contribution to the study of community power of urban and regional history and of public policy And by taking the meaning and distribution of power as his theme Hammack is able to reintegrate economic social and political history in a rich and comprehensive work Lucid instructive and discerning The most commanding analysis of its subject that I know John M Blum professor of history Yale University A powerful and persuasive treatment of a marvelous subject Nelson W Polsby professor of political science University of California Berkeley *Progressive Cities* Bradley Robert Rice,2014-10-01 Although the commission government movement is often treated by historians as an element of the reform surge of the Progressive Era this is the first full scale study of the origins spread and decline of the commission idea Commission government originated in Galveston Texas where business leaders conceived the plan as a temporary measure to speed recovery from the great hurricane of 1900 Other cities in Texas and across the nation soon followed by 1920 about 500 municipalities had adopted the plan in which elected representatives serve as heads of city departments and collectively as a policy making body Beginning with Galveston and Houston and Des Moines Iowa Bradley Robert Rice presents detailed case studies of the earliest commission cities and shows how the plan was developed and modified to suit each community s needs He goes on to chronicle the adoption of the commission plan by other cities across the country that strove for businesslike efficiency as a reaction against corruption and machine politics in urban government Most commission charters included a wide ranging package of municipal reforms such as the short ballot at large representation nonpartisanship civil service and direct legislation Yet Rice shows that the commission plan generally offered little in the way of social reform to accompany its reorganization of municipal government Applying a model of innovation diffusion the author analyzes how and why the new form of city government spread across Progressive Era America He also thoroughly explores the relationship between the commission plan and other Progressive Era reforms and reports on the reasons for its decline from both a social and a practical perspective *Progressive Cities* is described by Professor Bruce M Stave editor of the *Journal of Urban History* as a sound piece of work which should make a useful and worthwhile contribution to the existing scholarship on urban reform and should appeal to an audience which cuts across disciplines history political science urban studies and urban planning *Trolley Wars* Scott Molloy,2007 A groundbreaking study of public transportation in the Gilded Age and its place in the emerging American city *Seth Low: the Reformer in an Urban and Industrial Age* Gerald Kurland,1971 *Reader's Guide to American History* Peter J. Parish,2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader s Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history

describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history *Making Sense of the City* Zane L. Miller, 2001 Through an examination of such topics as city charters city planning texts neighborhood organizations municipal recreation programs urban government reforms urban identity and fair housing campaigns the authors offer insight into the process through which ideas about the nature of the city have affected action in the urban environment

BOOK JACKET America in the Age of the Titans Sean Dennis Cashman, 1988-08 Detailing the events of the Progressive Era and World War I 1901-20 *America in the Age of the Titans* is the only interdisciplinary history covering this period currently available The book contains the results of research into primary sources and recent scholarship with an emphasis on leading personalities and anecdotes about them Sean Dennis Cashman's sequel to *America in the Gilded Age* gives special attention to industry and inventions and social and cultural history He covers developments in science technology and industry the Progressive movement and the presidencies of Theodore Roosevelt immigration the new woman and labor including the Industrial Workers of the World and the Great Red Scare the transportation and communications revolution in radio and motion pictures the cultural contribution of artists architects and creative writers and America's foreign policies across the world Written in a lively accessible style with over sixty illustrations this book is an excellent introduction to these momentous years It provides an assessment of the contributions of the titans political scientific and industrial **The Crisis of the Middle-Class Constitution** Ganesh Sitaraman, 2018-02-06 In this original provocative contribution to the debate over economic inequality Ganesh Sitaraman argues that a strong and sizable middle class is a prerequisite for America's constitutional system For most of Western history Sitaraman argues constitutional thinkers assumed economic inequality was inevitable and inescapable and they designed governments to prevent class divisions from spilling over into class warfare The American Constitution is different Compared to Europe and the ancient world America was a society of almost unprecedented economic equality and the founding generation saw this equality as essential for the preservation of America's republic Over the next two centuries generations of Americans fought to sustain the economic preconditions for our constitutional system But today with economic and political inequality on the rise Sitaraman says Americans face a choice Will we accept rising economic inequality and risk oligarchy or will we rebuild the middle class and reclaim our republic *The Crisis of the Middle Class Constitution* is a tour de force of history philosophy law and politics It makes a compelling case that inequality is more than just a moral or economic problem it threatens the very core of our constitutional system

**Crisis and Commission Government in Memphis** Lynette Boney Wrenn, 1998 This centralization of political power in a small commission aided the efficient transaction of municipal business but the public policies that resulted from it tended to benefit upper class Memphians while neglecting the less affluent residents and neighborhoods
