Reform Is A Verb Notes On Reform Refom:

The New Reform Judaism Dana Evan Kaplan, 2013-11-01 This is the book that American Jews and particularly American Reform Jews have been waiting for a clear and informed call for further reform in the Reform movement In light of profound demographic social and technological developments it has become increasingly clear that the Reform movement will need to make major changes to meet the needs of a quickly evolving American Jewish population Younger Americans in particular differ from previous generations in how they relate to organized religion often preferring to network through virtual groups or gather in informal settings of their own choosing Dana Evan Kaplan an American Reform Jew and pulpit rabbi argues that rather than focusing on the importance of loyalty to community Reform Judaism must determine how to engage the individual in a search for existential meaning It should move us toward a critical scholarly understanding of the Hebrew Bible that we may emerge with the perspectives required by a postmodern world Such a Reform Judaism can at once help us understand how the ancient world molded our most cherished religious traditions and guide us in addressing the increasingly complex social problems of our day Genocide, Critical Issues of the Holocaust Alex Grobman, Daniel Landes, Sybil Milton, 1983

Rethinking the Carolingian reforms Arthur Westwell, Ingrid Rembold, Carine van Rhijn, 2023-04-25 The Carolingian period c 750 900 has traditionally been described as one of reform or renaissance where cultural and intellectual changes were imposed from above in a programme of correctio This view leans heavily on prescriptive texts issued by kings and their entourages foregrounding royal initiative and the cultural products of a small intellectual elite However attention to understudied texts and manuscripts of the period reveals a vibrant striving for moral improvement and positive change at all levels of society This expressed itself in a variety of ways for different individuals and communities whose personal relationships could be just as influential as top down prescription The often anonymous creators and copyists in a huge range of centres emerge as active participants in shaping and re shaping the ideals of their world A much more dynamic picture of Carolingian culture emerges when we widen our perspective to include sources from beyond royal circles and intellectual elites This book reveals that the Carolingian age did not witness a coherent programme of reform nor one distinct to this period and dependent exclusively on the strength of royal power Rather it formed a particularly intense well funded and creative chapter in the much longer history of moral improvement for the sake of collective salvation

Political Reason and the Language of Change Adriana Luna-Fabritius, Ere Nokkala, Marten Seppel, Keith Tribe, 2022-08-26 This collection of essays re examines ideas of change and movements for change in early modern Europe without presuming that progressive change was the outcome of reforms Reform today implies rational incremental change to public institutions and procedures Improvement has a more general application emphasising the positive outcome to which reform is oriented But the language of reform is today used of historical personalities and movements that did not themselves use the term and who in many

cases were not necessarily seeking the progressive change that we would understand today The activities of reform were embedded in contemporary politics and while improvement was part of a contemporary vocabulary its real presence has been obscured by the range of natural languages in which it was expressed Contributors to this volume seek to establish what was meant by contemporary usage Bringing together scholars of Russia Southern Western Central and Northern Europe this collection sheds new light on both common and divergent features of a political process too often treated as a uniform movement towards modernity This volume is a useful resource for students and scholars interested in Enlightenment studies intellectual history and conceptual history in early modern Europe The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
