Reformers And Revolutionaries In Modern Iran New Perspectives On The Iranian Left:

Reformers and Revolutionaries in Modern Iran Dr Stephanie Cronin, 2013-04-15 The contributors of this book undertake a fundamental reexamination and reappraisal of the phenomenon of leftist activism in Iran

A Social History of Modern Tehran Ashkan Rezvani Naraghi, 2023-01-05 Tehran the capital of Iran since the late eighteenth century is now one of the largest cities in the Middle East Exploring Tehran's development from the nineteenth to the mid twentieth century Ashkan Rezvani Naraghi paints a vibrant picture of a city undergoing rapid and dynamic social transformation Rezvani Naraghi demonstrates that this shift was the product of a developing discourse around spatial knowledge in which the West became the model for the social practices of the state and sections of Iranian society As traditional social spaces such as coffee houses bathhouses and mosques were replaced by European style cafes theatres and sports clubs Tehran and its people were irreversibly altered Using an array of archival sources Rezvani Naraghi stresses the agency of everyday inhabitants in shaping urban change This enlightening history not only allows us to better understand the contours of contemporary Tehran but to develop a new way of imagining talking about and building the city

No Conquest, No Defeat Ariane Tabatabai, 2020 An extremely timely history of what drives Iran's security policies towards both its neighbors and its adversaries further afield

US Foreign Policy in the Middle East Kylie Baxter, Shahram Akbarzadeh, 2012-08-21 Over the last sixty years Washington has been a major player in the politics of the Middle East From Iran in the 1950s to the Gulf War of 1991 to the devastation of contemporary Iraq US policy has had a profound impact on the domestic affairs of the region Anti Americanism is a pervasive feature of modern Middle East public opinion But far from being intrinsic to Muslim political culture scepticism of the US agenda is directly linked to the regional policies pursued by Washington By exploring critical points of regional crisis Kylie Baxter and Shahram Akbarzadeh elaborate on the links between US policy and popular distrust of the United States The book also examines the interconnected nature of events in this geo strategically vital region Accessible and easy to follow it is designed to provide a clear and concise overview of complex historical and political material Key features include maps illustrating key events and areas of discontent text boxes on topics of interest related to the Arab Israeli Wars Iranian politics foreign interventions in Afghanistan and Iraq the wars of the Persian Gulf September 11 and the rise of Islamist movements further reading lists and a selection of suggested study questions at the end of each chapter

Liberalism for a New Century Neil Jumonville, Kevin Mattson, 2007-06-04 Here finally the collection we've been waiting for thoughtful and lively essays on the relevance of liberalism for this new century by some of its keenest observers Robert B Reich Professor of Public Policy University of California Berkeley

A Rebel's Journey Peyman Vahabzadeh, 2019-08-01 Following the 1953 coup that toppled the democratically elected government of Mossadeq and restored the rule of the Shah in Iran Mostafa Sho aiyan became a key figure on the country's militant left From a life underground he contributed significantly to the study of Iranian history and politics and developed a unique theory of

revolution A Rebel's Journey provides fascinating insights into the life and work of this singular theoretician Peyman Vahabzadeh sets Shayan's thought in the context of his time and place and explores how his revolutionary theory might contribute to today's expanding movements for social justice and liberation

Iran's Struggle for Economic Independence Evaleila Pesaran, 2011-04-25 It is often assumed that Iran must necessarily submit to the forces of globalization and liberalize its economy but the country's ruling elites have continued throughout the post revolutionary era to resist these pressures for neo liberal economic reform seeking to survive in the battlefield of today's globalizing economy whilst remaining loyal to their own rules of engagement This book analyzes the dynamics of economic reform in the Islamic Republic of Iran as they have played out in this post revolutionary struggle for economic independence from 1979 up to the present day It shows how although some groups within the Iranian elite are in favor of opening up the economy to the inflow of foreign capital believing that lasting independence requires economic growth powered in part by investment from abroad others argue that such economic liberalization might endanger Iran's national interests and put the survival of the post revolutionary regime at risk By examining the political causes of the ongoing tug of war that has taken place between these two sides of reform and counter reform this book provides a new approach to understanding the complex process of economic policy making in the Islamic Republic of Iran which will be relevant to future examinations of the political economy of the Middle East

Vanguard of the Imam Afshon Ostovar, 2016-03-03 Iran's Revolutionary Guards are one of the most important forces in the Middle East today As the appointed defender of Iran's revolution the Guards have evolved into a pillar of the Islamic Republic and the spearhead of its influence Their sway has spread across the Middle East where the Guards have overseen loyalist support to Bashar al Assad in Syria and been a staunch backer in Iraq's war against ISIS bringing its own troops Lebanon's Hezbollah and Shiite militias to the fight Links to terrorism human rights abuses and the suppression of popular democracy have shrouded the Revolutionary Guards in controversy In spite of their prominence the Guards remain poorly understood to outside observers In Vanguard of the Imam Afshon Ostovar has written the first comprehensive history of the organization Situating the rise of the Guards in the larger contexts of Shiite Islam modern Iranian history and international affairs Ostovar takes a multifaceted approach in demystifying the organization and detailing its evolution since 1979 Politics power and religion collide in this story wherein the Revolutionary Guards transform from a rag tag militia established in the midst of revolutionary upheaval into a military and covert force with a global reach The Guards have been fundamental to the success of the Islamic revolution The symbiotic relationship between them and Iran's clerical rulers underpins the regime's nearly unshakeable system of power The Guards have used their privileged position at home to export Iran's revolution beyond its borders establishing client armies in their image and extending Iran's strategic footprint in the process Ostovar tenaciously documents the Guards transformation into a power player and explores why the group matters now more than ever to regional and global affairs The book simultaneously serves as a history of modern Iran and provides a

crucial and engrossing entryway into the complex world of war politics and identity in the Middle East

Power, Perception, and Politics in the Making of Iranian Grand Strategy Kevjn Lim, 2022-07-04 This book explains changes to Iranian grand strategy over the past four decades and it does so by advancing a multicausal model that unifies the three main paradigms of International Relations IR theory Hence ideas constructivism mediate between the structure of material capabilities realism and agents liberalism and interact with each to produce respectively threat perception and political preferences Using these two explanatory factors the author demonstrates how the Islamic Republic s grand strategy has systematically varied over time to produce a mix of outcomes that includes balancing expansionism bandwagoning appeasement engagement and retrenchment Beyond its theoretical contribution this book is policy relevant in that it explains and predicts the external conduct of what is arguably the Middle East s most consequential actor with implications reverberating far beyond the region Academic in conception and rigor the book is intended not only for specialists and practitioners but appeals to the lay reader interested in the broader Middle East West Asia the region s relationship with major powers and regional conflict dynamics

This Flame Within Manijeh Moradian, 2022-08-29 In *This Flame Within* Manijeh Moradian revises conventional histories of Iranian migration to the United States as a post 1979 phenomenon characterized by the flight of pro Shah Iranians from the Islamic Republic and recounts the experiences of Iranian foreign students who joined a global movement against US imperialism during the 1960s and 1970s Drawing on archival evidence and in depth interviews with members of the Iranian Students Association Moradian traces what she calls revolutionary affects the embodied force of affect generated by experiences of repression and resistance from encounters with empire and dictatorship in Iran to joint organizing with other student activists in the United States Moradian theorizes affects of solidarity that facilitated Iranian student participation in a wide range of antiracist and anticolonial movements and analyzes gendered manifestations of revolutionary affects within the emergence of Third World feminism Arguing for a transnational feminist interpretation of the Iranian Student Association s legacy Moradian demonstrates how the recognition of multiple sources of oppression in the West and in Iran can reorient Iranian diasporic politics today

Research Handbook on Law and Religion Rex Ahdar, 2018-09-28 Offering an interdisciplinary international and philosophical perspective this comprehensive Research Handbook explores both perennial and recent legal issues that concern the modern state and its interaction with religious communities and individuals

Crime, Poverty and Survival in the Middle East and North Africa Stephanie Cronin, 2019-11-28 The concept of the dangerous classes was born in a rapidly urbanizing and industrializing nineteenth century Europe It described all those who had fallen out of the working classes into the lower depths of the new societies surviving by their wits or various amoral disreputable or criminal strategies This included beggars and vagrants swindlers pickpockets and burglars prostitutes and pimps ex soldiers ex prisoners tricksters drug dealers the unemployed or unemployable indeed every type of the criminal and marginal This book examines the dangerous

classes in the Middle East and North Africa their lives and the strategies they used to avoid evade cheat placate or occasionally resist the authorities Chapters cover the narratives of their lives their relationship with respectable society their political inclinations and their role in shaping systems and institutions of discipline and control and their representation in literature and in popular culture The book demonstrates the liminality of the dangerous classes and their capacity for re invention It also indicates the sharpening relevance of the concept to a Middle East and North Africa now in the grip of an almost permanent sense of crisis its younger generations crippled by a pervasive sense of hopelessness prone to petty crime and vulnerable to induction as foot soldiers into drug and people smuggling petty gangsterism and jihadism The Caliph and the Imam Toby Matthiesen,2023 The authoritative account of the sectarian division that for centuries has shaped events in the Middle East and the Islamic world In 632 soon after the prophet Muhammad died a struggle broke out among his followers as to who would succeed him The majority argued that the new leader of Islam should be elected by the community s elite Others believed only members of Muhammad s family could lead This dispute over who should guide Muslims the appointed Caliph or the bloodline Imam marks the origin of the Sunni Shii split in Islam Toby Matthiesen explores this hugely significant division from its origins to the present day Moving chronologically his book sheds light on the many ways that it has shaped the Islamic world outlining how over the centuries Sunnism and Shiism became Islams two main branches particularly after the Muslim Empires embraced sectarian identity It reveals how colonial rule institutionalised divisions between Sunnism and Shiism both on the Indian subcontinent and in the greater Middle East giving rise to pan Islamic resistance and Sunni and Shii revivalism It then focuses on the fall out from the 1979 revolution in Iran and the US led military intervention in Iraq As Matthiesen shows however though Sunnism and Shiism have had a long and antagonistic history most Muslims have led lives characterised by confessional ambiguity and peaceful co existence Tensions arise when sectarian identity becomes linked to politics Based on a synthesis of decades of scholarship in numerous languages The Caliph and the Imam will become the standard text for readers looking for a deeper understanding of contemporary sectarian conflict and its historical roots **Marxist Historiographies** Q. Edward Wang,Georg G. Iggers,2015-07-16 Marxist Historiographies is the first book to examine the ebb and flow of Marxist historiography from a global and cross cultural perspective Since the eighteenth century few schools of historical thought have exerted a more lasting impact than Marxism and this impact extends far beyond the Western world within which it is most commonly analysed Edited by two highly respected authors in the field this book deals with the effect of Marxism on historical writings not only in parts of Europe where it originated but also in countries and regions in Africa Asia North and South America and the Middle East Rather than presenting the chapters geographically it is structured with respect to how Marxist influence was shown in the works of historians in a particular area This title takes a dual approach to the subject some chapters are national in scope addressing the Marxist impact on historical practices within a country whereas others deal with the varied expressions of Marxist

historiography throughout a wider region Taking a truly global perspective on this topic Marxist Historiographies demonstrates clearly the breadth and depth of Marxism s influence in historical writing throughout the world and is essential reading for all students of historiography The Oxford Handbook of Contemporary Middle-Eastern and North African History Jens Hanssen, Amal N. Ghazal, 2021 Features a mix of junior and senior scholars based in the Middle East South East Asia Australia North America and Europe Develops multidisciplinary approaches to history including environmental studies social anthropology law gender political science sociology religious studies and media studies Book jacket Ali Shariati and the Future of Social Theory Dustin J. Byrd, Seyed Javad Miri, 2017-08-28 In Ali Shariati and the Future of Social Theory Religion Revolution and the Role of the Intellectual Dustin J Byrd and Seyed Javad Miri bring together a collections of essays by a variety of scholars who explore the lasting influence of the Iranian sociologist and revolutionary Ali Shariati Thought to be the most important intellectual behind the Iranian Revolution of 1979 these essays engage in a future oriented remembrance of Shariati s life and praxis with the practical attempt to clarify expand and apply his liberational Islamic thought to modern conditions Making use of Shariati s writings on Shi a Islam and western philosophy this text is especially important for those who want to understand the role that intellectuals both religious and secular can have in the liberation of mankind Contributors are Mahdi Ahouie Bader Mousa al Saif Sophia Rose Arjana M K rad Atalar Dustin J Byrd Eric Goodfield Teo Lee Ken Georg Leube Seyed Javad Miri Carimo Mohomed Chandra Muzaffar Khosrow Bagheri Noaparast Fatemeh Shayan and Esmaeil Zeiny **Iran in the Middle East** Houchang Chehabi, Peyman Jafari, Maral Jefroudi, 2015-07-01 Iran s interaction with its neighbours is a topic of wide interest But while many historical studies of the country concentrate purely on political events and high profile actors this book takes the opposite approach writing history from below it instead focuses on the role of everyday lives Modern Iranian historiography has been dominated by ideas of nationalism modernization religion autocracy revolution and war Iran in the Middle East adds new dimensions to the study of four crucial areas of Iranian history the events and impact of the Constitutional Revolution Iran s transnational connections the social history of Iran and developments in historiography Featuring eminent scholars such as Ali Ansari Janet Afary and Erik Jan Zürcher this book makes a significant contribution to the understanding of Iran in a transnational context by exploring the key social actors in the constitutional revolution trade and the role of women The authors emphasize the role of societal transformations social movements class gender and ethnic identities analyzing both national and individual identity What emerges is a concise and unique look at Iranian social history from both within the country s internal relationships with its social groups and from its external relations with neighbouring countries It will prove essential reading to scholars and students of Iran and the wider Middle East region **Roving Revolutionaries** Houri Berberian, 2019-04-16 Three of the formative revolutions that shook the early twentieth century world occurred almost simultaneously in regions bordering each other Though the Russian Iranian and Young Turk Revolutions all exploded between 1904 and 1911 they have never been

studied through their linkages until now Roving Revolutionaries probes the interconnected aspects of these three revolutions through the involvement of Armenian revolutionaries whose movements and participation within these empires where Armenians were minorities and across frontiers tell us a great deal about the global transformations that were taking shape Exploring the geographical and ideological boundary crossings that occurred Hourii Berberian's archivally grounded analysis of the circulation of revolutionaries ideas and print tells the story of peoples and ideologies amid upheaval and collaboration In doing so it illuminates our understanding of revolutions and movements Why Civil Resistance Works Erica Chenoweth, Maria J. Stephan, 2011-08-09 For more than a century from 1900 to 2006 campaigns of nonviolent resistance were more than twice as effective as their violent counterparts in achieving their stated goals By attracting impressive support from citizens whose activism takes the form of protests boycotts civil disobedience and other forms of nonviolent noncooperation these efforts help separate regimes from their main sources of power and produce remarkable results even in Iran Burma the Philippines and the Palestinian Territories Combining statistical analysis with case studies of specific countries and territories Erica Chenoweth and Maria J Stephan detail the factors enabling such campaigns to succeed and sometimes causing them to fail They find that nonviolent resistance presents fewer obstacles to moral and physical involvement and commitment and that higher levels of participation contribute to enhanced resilience greater opportunities for tactical innovation and civic disruption and therefore less incentive for a regime to maintain its status quo and shifts in loyalty among opponents erstwhile supporters including members of the military establishment Chenoweth and Stephan conclude that successful nonviolent resistance ushers in more durable and internally peaceful democracies which are less likely to regress into civil war Presenting a rich evidentiary argument they originally and systematically compare violent and nonviolent outcomes in different historical periods and geographical contexts debunking the myth that violence occurs because of structural and environmental factors and that it is necessary to achieve certain political goals Instead the authors discover violent insurgency is rarely justifiable on strategic grounds *The International Relations of the Contemporary Middle East* Tareq Y. Ismael, Glenn E. Perry, 2013-10-01 The Middle East a few decades ago was seen to be an autonomous subsystem of the global international political system More recently the region has been subordinated to the hegemony of a singular superpower the US bolstered by an alliance with Israel and a network of Arab client states The subordination of the contemporary Middle East has resulted in large part from the disappearance of countervailing forces for example global bipolarity that for a while allowed the Arab world in particular to exercise a modicum of flexibility in shaping its international relations The aspirations of the indigenous population of the Middle East have been stifled by the dynamics of the unequal global power relationships and domestic politics of the countries of the region are regularly subordinated to the prerogatives of international markets and the strategic competition of the great powers Employing the concept of imperialism defined as a pattern of alliances between a center rulers in the Center developed country and a center client regime in the Periphery

underdeveloped country as an overall framework to analyse the subordination of the region this book is essential reading for students and scholars of the Middle East International Relations and Politics in general
