Rebuilding Lives Post-disaster Julie Drolet, 2019 Social workers are increasingly engaged in supporting individuals and communities in long-term disaster recovery. *Rebuilding Lives Post-Disaster* brings together an international team of social work researchers who have investigated the experiences, perspectives, challenges, and complexities in disaster recovery. It features country case studies drawing from field research undertaken in disaster-affected communities in Canada, the United States, Australia, India, Pakistan, Taiwan, Sri Lanka, and China. In so doing, the volume provides a comprehensive perspective on the realities of disaster recovery and explores key concepts such as resilience, community-based disaster risk reduction, and social and gendered construction of vulnerability and capabilities. Global social work Carolyn Noble, Helle Strauss, Brian Littlechild, 2014-06-30 *Global social work: crossing borders, blurring boundaries* is a collection of ideas, debates, and reflections on key issues concerning social work as a global profession, such as its theory, its curricula, its practice, its professional identity, its concern with human rights and social activism, and its future directions. Apart from emphasising the complexities of working and talking about social work across borders and cultures, the volume focuses on the curricula of social work programs from as many regions as possible to showcase what is being taught in various cultural, sociopolitical, and regional contexts. Exploring the similarities and differences in social work education across many countries of the Americas, Asia, Europe, and the Pacific, the book provides a reference point for moving the current social work discourse towards understanding the local and global context in its broader significance.

Building Equality and Opportunity Through Social Guarantees Estanislao Gacitúa-Marió, Andrew Norton, Sophia V. Georgieva, 2009 This book examines the validity of a social guarantees approach as a framework for evaluating, monitoring, and improving the design of social policy. Social guarantees are defined as sets of policy mechanisms that determine citizens' entitlements related to basic services and ensure their fulfillment on the part of the state. The social guarantee concept gives operational expression to fundamental human rights principles by providing mechanisms for awareness, participation, equity, and redress in the delivery of social policy. In addition, the social guarantees approach responds to an emerging

Health Reforms Across The World: The Experience Of Twelve Small And Medium-sized Nations With Changing Their Healthcare Systems Kieke G. Okma, Tim Tenbensel, Luca Crivelli, 2020-02-24 This book presents the

health reform experiences over the past three decades of twelve small and medium sized nations that are not often included in international comparative studies in this field The major conclusion of the study is that despite many similarities in policy goals policy challenges and in the menu of policy options for countries that seek to offer universal coverage to their population the health reforms of the nations in this book did not converge into one direction or model However we found several widespread policy experiences that are relevant for others too For example user fees are unpopular everywhere Governments often try to soften the consequences by exempting large groups of users thus largely defeating the very purpose of those fees As a second example the introduction of new payment modes for medical care like the shift from fee for service to case based payment took much longer than originally expected everywhere and also failed to deliver their promises of improved transparency or efficiency gains A third example is that proposals for universal coverage often ignore the challenges of implementing new financing models that elsewhere took decades if not centuries to develop The conclusions contain both empirical findings and theoretical conclusions of interest to policy makers and scholars of international comparison It is accessible for academics healthcare managers and students as well as a wider audience of readers interested in the changes in healthcare across the world Informal Institutions and Citizenship in Rural Africa

Lauren M. MacLean, 2010-05-24 This book challenges previous assumptions about institutions social capital and the nature of the African state by investigating the history of political and economic change in villages on either side of the Ghana Cote d'Ivoire border Prior to European colonial rule these Akan villages had very similar political and cultural institutions By the late 1990s however Lauren M MacLean found puzzling differences in the informal institutions of reciprocity and indigenous notions of citizenship MacLean argues that divergent histories of state formation not only shape how villagers help each other but also influence how local groups and communities define citizenship and then choose to engage with the state on an everyday basis She examines the historical construction of the state role in mediating risk at the local level across three policy areas political administration social service delivery and agriculture **Current Literature on Science of Science**

,2000 **Current Awareness Bulletin** ,2000 **Canadian Journal of African Studies** ,2001 **Globalisation** ,2003 **Environment & Planning** ,2005 **Environment and Planning** ,2005 **Canada Assistance Plan Annual Report** Canada. Human Resources Development Canada,1994 **Visible Hands** ; ; Unrisd,2019-08-15 This volume is a compilation of an United Nations research institute for social development report for Geneva in 2000 It provides a comprehensive analysis of the progress to date exploring efforts to reassert the value of equity and social cohesion in an increasingly individualistic world **Transnational Social Policies** International Development Research Centre (Canada),1999 Relationships between social policy and human development are the subject of much research and theorizing The literature in this area however examines these issues strictly within national contexts What influence will international agendas such as NAFTA the World Summit for Social Development and Habitat II have Transnational Social Policies specifically addresses the

worldwide trend for national policies on human and social development to be increasingly influenced by agendas that are international or transnational in nature In doing so the book examines the underlying international developmental ethical economic and political issues shaping national policies in health education and employment in the developing world This book s focus on the transnational character of the social policy debate makes it a truly unique and original contribution to the literature It will appeal to the academic community worldwide in international development public policy and administration and social work policymakers researchers and practitioners in the field of public social policy and the international community of individuals and organizations working in international social development Solidarity in Crisis Lauren Mathews Morris MacLean,2002 Visible Hands United Nations Research Institute for Social Development,2000 This text shows how the visible hands of public participation and democratic governance are crucial in creating a decent society The World Summit for Social Development in 1995 laid out an ambitious agenda to create an economic political social cultural and legal environment for social development This volume provides a comprehensive analysis of the progress to date exploring efforts to reassert the value of equity and social cohesion in an increasingly individualistic world It reveals the failings of unregulated markets and the importance of a well run public sector as well as a healthy and educated population
