**A Refuge in Thunder** Rachel E. Harding, 2000 Drawing principally on primary sources such as police archives Harding describes the development of the religion as an alternative space in which subjugated and enslaved blacks were able to cultivate a sense of individual and collective identity that stood in opposition to the subaltern status imposed upon them from the dominant society BOOK JACKET *Relocating the Sacred* Niyi Afolabi, 2022-11-01 Although Brazil is home to the largest African diaspora the religions of its African descendants have often been syncretized and submerged first under the force of colonialism and enslavement and later under the spurious banner of a harmonious national Brazilian character *Relocating the Sacred* argues that these religions nevertheless have been preserved and manifested in a strategic corpus of shifting masks and masquerades of Afro Brazilian identity Following the re Africanization process and black consciousness movement of the 1970s to 1990s Afro Brazilians have questioned racial democracy seeing how its claim to harmony actually dispossesses them of political power By embracing African deities as a source of creative inspiration and resistance Afro Brazilians have appropriated syncretism as a means of not only popularizing African culture but also decolonizing themselves from the past shame of slavery This book maps the role of African heritage in and relocation of the sacred to three sites of Brazilian cultural production ritual altars literature and carnival culture

**Underworld Work** Ahmad Greene-Hayes, 2025-05-06 A rethinking of African American religious history that focuses on the development and evolution of African spiritual traditions in Jim Crow New Orleans. When Zora Neale Hurston traveled to New Orleans she encountered a religious underworld, a beautiful anarchy of spiritual life. In *Underworld Work* Ahmad Greene Hayes follows Hurston on a journey through the rich tapestry of Black religious expression from emancipation through Jim Crow. He looks within and beyond the church to recover the diverse leadership of migrants, healers, dissidents, and queer people who transformed their marginalized homes, bars, and street corners into sacred space. Greene Hayes shows how while enclosed within an anti-black world, these outcasts embraced African esotericisms, ancestral veneration, faith, healing, spiritualized sex work, and more to conjure a connection to freer worlds past and yet to come. In recovering these spiritual innovations, *Underworld Work* celebrates the resilience and creativity of African religions.

Matter, Magic, and Spirit David Murray, 2013-04-23 The spiritual and religious beliefs and practices of Native Americans and African Americans have long been sources of fascination and curiosity, owing to their marked difference from the religious traditions of white writers and researchers. *Matter, Magic, and Spirit* explores the ways religious and magical beliefs of Native Americans and African Americans have been represented in a range of discourses, including anthropology, comparative religion, and literature. Though these beliefs were widely dismissed as primitive superstition and inferior to higher religions like Christianity, distinctions were still made between the supposed spiritual capacities of the different groups. David Murray's analysis is unique in bringing together Indian and African beliefs and their representations. First tracing the development of European ideas about both African fetishism and Native American primitive belief, he goes on to explore the ways in which the hierarchies of race created by white Europeans coincided with hierarchies of religion as expressed in the developing study of comparative religion and folklore through the nineteenth century. Crucially, this comparative approach to practices that were dismissed as conjure or black magic or Indian medicine points as well to the importance of their cultural and political roles in their own communities at times of destructive change. Murray also explores the ways in which Indian and African writers later reformulated the models developed by white observers, as demonstrated through the work of Charles Chesnutt and Simon Pokagon, and then in the later conjunctions of modernism and ethnography in the 1920s and 1930s through the work of Zora Neale Hurston, Zitkala-Sa, and others. Later sections demonstrate how contemporary writers, including Ishmael Reed and Leslie Silko, deal with the revaluation of traditional beliefs as spiritual resources against a background of New Age spirituality and postmodern conceptions of racial and ethnic identity.

**Terms of Inclusion** Paulina L. Alberto, 2011-05-02 In this history of black thought and

racial activism in twentieth century Brazil Paulina Alberto demonstrates that black intellectuals and not just elite white Brazilians shaped discourses about race relations and the cultural and political terms of inclusion in their modern nation Drawing on a wide range of sources including the prolific black press of the era and focusing on the influential urban centers of S o Paulo Rio de Janeiro and Salvador da Bahia Alberto traces the shifting terms that black thinkers used to negotiate their citizenship over the course of the century offering fresh insight into the relationship between ideas of race and nation in modern Brazil Alberto finds that black intellectuals ways of engaging with official racial discourses changed as broader historical trends made the possibilities for true inclusion appear to flow and then recede These distinct political strategies Alberto argues were nonetheless part of black thinkers ongoing attempts to make dominant ideologies of racial harmony meaningful in light of evolving local national and international politics and discourse Terms of Inclusion tells a new history of the role of people of color in shaping and contesting the racialized contours of citizenship in twentieth century Brazil

**Engaging Coloniality** Raimundo Barreto, Mark A. Lamport, 2025-08-19 The fifteen chapters of *Engaging Coloniality* tell a complex and multifaceted story of Latin American Christianity. Latin America was the first region of the colonized world to be Christianized. As no form of Christianity preexisted the colonial invasion of Latin America, no Latin American Christian story can be told without reference to colonialism. Throughout its five hundred year history in Latin America, Christianity has taken multiple forms. This history is presented as in no other volume available in English. Primarily non Eurocentric perspectives alternate between continuity and transformations. Rather than emphasizing denominational branches, this volume focuses on liberative decolonial and intercultural movements. This book is cutting edge scholarship on Latin American religion and theology and the featured contributors represent the extent of a continent where almost six hundred million Christians live today. Latin American Christian identity has never been homogeneous and the volume describes countless Christian spiritualities and practices resulting from continuous encounters, tensions and negotiations over five centuries. These encounters have not taken place in a historical vacuum but as part of a broader history in which visible and invisible power disparities still inform the limits, challenges and promises of the Christian experiment in the region.

*Bastide on Religion* Michel Despland, 2014-12-18 Roger Bastide developed the theory of acculturation which provides a framework for understanding contact between different cultures and beliefs. *Bastide on Religion* offers a clear introduction to the life and work of this influential scholar. The volume focuses on Bastide's study of Afro Brazilian religions, in particular his study of Candomblé, a religion born from the contact between African and Brazilian cultures. The book outlines Bastide's work on acculturation, his concept of the relationship between religion and culture and his challenge to many dominant approaches to economic development.

Critical Appropriations Simone C. Drake, 2014-05-12 From the novels of Toni Morrison to the music of Beyoncé Knowles, the cultural prevalence of a transnational black identity as created by African American women is more than a product of geographic mobility. Rather, as author Simone C. Drake shows, these constructions illuminate our understanding of a chronically marginalized demographic. In *Critical Appropriations*, Drake contends that these fluid and heterogeneous characterizations of black females arise from multiple creative outlets: literature, film and music videos and reflect African American women's evolving concept of home, community, gender and family. Through a close examination of Toni Morrison's *Paradise*, Danzy Senna's *Caucasia*, Gayl Jones's *Corregidora*, Erna Brodber's *Louisiana* and Kasi Lemmons's film *Eve's Bayou*, as well as Beyoncé Knowles's *B'Day* album and music video collaboration with Shakira, *Beautiful Liar*, Drake reveals how concepts of hybridity, whether positioned as *cr olit Candomblé*, *n gritude*, *Latinidad* or *Brasilidade*, are appropriated in each work of art as a way of challenging the homogeneous paradigm of black cultural studies. This redefined notion of identity enables African American women to embrace a more complex transnational blackness that is not only more liberating but also more pertinent to their experiences. Drawing from this borderless exchange of ideas and a richer concept of self, *Critical Appropriations* offers a rewarding reconsideration of the creative implications for African American women.
