the rule of law in five common law jurisdictions **Humanitarian Law in Action within Africa** Jennifer Moore, 2012-03-06

In *Humanitarian Law in Action within Africa* Jennifer Moore studies the role and application of humanitarian law by focusing on African countries that are emerging from civil wars. Moore offers an overview of international law including its essential vocabulary and describes four particular subfields of international law: international humanitarian law, international human rights law, international criminal law, and international refugee law. After setting forth this overview, Moore considers practical mechanisms to implement international humanitarian law, focusing specifically on the experiences of Uganda, Sierra Leone, and Burundi. Through the case studies of these countries, Moore describes transitional justice's fundamental components: criminal, social, and historical. Although the African continent has gone through some of the world's greatest humanitarian emergencies, issues such as violence against women, child soldiers, and genocide are not unique to Africa, and as such, the study of humanitarian law by examining Africa's experience is important to conflict resolution and reconstruction throughout the world.

The Oxford Handbook of Law and Anthropology Marie-Claire Foblets, Mark Goodale, Maria Sapignoli, Olaf Zenker, 2022-04-01

The Oxford Handbook of Law and Anthropology is a ground-breaking collection of essays that provides an original and internationally framed conception of the historical, theoretical, and ethnographic interconnections of law and anthropology. Each of the chapters in the Handbook provides a survey of the current state of scholarly debate and an argument about the future direction of research in this dynamic and interdisciplinary field. The structure of the Handbook is animated by an overarching collective narrative about how law and anthropology have and should relate to each other as intersecting domains of inquiry that address such fundamental questions as dispute resolution, normative ordering, social organization, and legal, political, and social identity. The need for such a comprehensive project has become even more pressing as lawyers and anthropologists work together in an ever-increasing number of areas, including immigration and asylum processes, international justice forums, cultural heritage certification and monitoring, and the writing of new national constitutions, among many others. The Handbook takes critical stock of these various points of intersection in order to identify and conceptualize the most promising areas of innovation and sociolegal relevance, as well as to acknowledge the points of tension, open questions, and areas for future development.

Palestinian Refugees and International Law Amjad Abu Khalaf, 2016-05-04

What is the historical framework of the Palestinian refugee crisis, and what durable solutions are available? Which human rights instruments are applicable to Palestinian refugees? What is the place of the UN Relief and Works Agency for Palestinian Refugees within the global refugee framework, and what challenges does the Agency face? This book approaches the question of Palestinian refugees from a legal, historical, and political perspective to address these and other relevant questions. Seeking to impart an understanding of the place of Palestinian refugees under international law, it explores the rights of Palestinian refugees, including the collective rights of self-determination and state sovereignty, and the individual right of return. It discusses the specialized, separate regime established for Palestinian refugees and the

The last couple of years have witnessed an unprecedented battle within Europe between values and pragmatism and between states interests and individuals rights This book examines humanitarian considerations and immigration control from two perspectives one broader and more philosophical the other more practical The impetus to show compassion for certain categories of persons with vulnerabilities can depend on religious philosophical and political thought Manifestation of this compassion can vary from the notion of a charitable act to aid the wretched in their home country to humanitarian assistance for the distant needy in foreign lands and finally to immigration policies deciding who to admit or expel from the country The domestic practice of humanitarian protection has increasingly drawn in transnational law through the expansion of the EU acquis on asylum and the interpretation of the European Court of Human Rights
