[Haven: The Mediterranean Crisis and Human Security](#) John Morrissey, 2020-10-30. The Mediterranean refugee crisis presents states across Europe with a common security challenge: how to intervene responsibly in mitigation and support. This book seeks to advance the UN concept of human security by showing how a human security approach to the crisis can effectively conceptualize and respond to the intricacies of the challenges faced. It argues for a politics of solidarity by proffering integrated solutions that call out the failure of top-down statist security measures. Leading international authors from a range of disciplines document key dimensions of the crisis, including the legal mechanisms enabling or blocking asylum, the biopolitical systems for managing displaced peoples, and the multiple overlapping historical precedents of today's challenges.

Safe Zone Lokman B. Çetinkaya, 2017-02-04. Using legal arguments consistent with international law, this book explores whether and under which circumstances a State or States may establish and militarily enforce safe zones in countries that produce large-scale refugee outflows so as to protect its or their own interests by averting said outflows as well as to alleviate human suffering in today's world of civil and internal warfare. Though large-scale refugee outflows have become an increasingly frequent problem in interstate relations, international law offers no clear remedy. Accordingly, interpretation and adaptation of the existing rules and principles of international law, in addition to State practice and the jurisprudence of international courts, are required in order to find appropriate and lawful responses to such situations. The book examines countermeasures, necessity, and humanitarian intervention as possible legal grounds to justify the establishment of safe zones. Since the proposal of a safe zone for Syria remains on the international community's agenda, the specific conditions of this case are particularly addressed in order to assess the suitability and legality of a possible safe zone in Syria.
