Goshen-Gottstein, 2023-06-06 Finalist for The Rabbi Sacks Book Prize 2023 A new paradigm for relations between religions one of acceptance and collaboration requires not only a willingness to move beyond a tradition of hostility and competition but also significant theological rethinking Within Jewish Orthodoxy there have been very few voices that have advanced and justified a vision of other faiths in this light to this day the reigning paradigm is one of practical collaboration while avoiding theologically based engagement or reflection Two of the most important Orthodox Jewish voices advocating change have been those of Irving Yitz Greenberg and Jonathan Sacks This book presents the theological moral and social views of these two leading rabbis It focuses on the significance of covenant for both and how they adapt this concept to enable the development of a Jewish view of other religions In considering how they may have influenced each other it also studies the limitations and internal contradictions that characterize their work as they attempt to point the way forward in a spirit of dialogue to continuing theological reflection on Judaism's approach to world religions *Ecological Imaginations in the World Religions* Tony Watling, 2011-10-20 The field of religion and ecology is an emerging and growing movement that is becoming relevant and influential in the world It seeks to analyse encourage inspire use compare and combine religious traditions to engage and shape environmental issues Tony Watling seeks to ethnographically analyse this important field and its expressions In particular he analyses and compares its explorations of different world religions for ecological themes and the resulting expressions of ecological visions in what he terms religious ecotopias idealized environmentally friendly reimaginings of nature and humanity and correspondingly religion which seek to influence environmental attitudes

*Between Eden and Armageddon* Marc Gopin, 2002-11-07 Recent years have seen a meteoric rise in the power and importance of organized religion in many parts of the world At the same time there has been a significant increase in violence perpetrated in the name of religion While much has been written on the relationship between violence and religious militancy history shows that religious people have also played a critical role in peacemaking within numerous cultures In the new century will religion bring upon further catastrophes Or will it provide human civilization with methods of care healing and the creation of peaceful and just societies In this groundbreaking book Marc Gopin integrates the study of religion with the study of conflict resolution He argues that religion can play a critical role in constructing a global community of shared

moral commitments and vision a community that can limit conflict to its nonviolent constructive variety If we examine religious myths and moral traditions Gopin argues we can understand why and when religious people come to violence and why and when they become staunch peacemakers He shows that it is the conservative expression of most religious traditions that presents the largest challenge in terms of peace and conflict Gopin considers ways to construct traditional paradigms that are committed to peacemaking on a deep level and offers such a paradigm for the case of Judaism Throughout Gopin emphasizes that developing the potential of the world's religions for coping with conflict demands a conscious process on the part of peacemakers and theologians His innovative and carefully argued study also offers a broad set of recommendations for policy planners both inside and outside of government
