Caring Confrontations for Education and Democracy R. Scott Webster, 2021-11-29 *Caring Confrontations for Education and Democracy* makes a compelling case for redirecting current practices of education to focus on being educated rather than having an education The book offers a detailed analysis of how an education for democracy must encourage commitment to important ideals and strengthen the vulnerabilities of people which make them easily manipulated by politicians and the media It addresses the need for education that focusses on people's mode of being so that in addition to becoming knowledgeable and skilful people develop the disposition that is more appropriate for democratic living Through embodying this approach of authentic spiritual growth through education this book explores the idea of caring confrontations and critical reflection to enable personal change and growth Providing a thoughtful analysis of the role of education in democracy the book will be of great interest to researchers academics and students in the fields of philosophy of education educational theory and democratic education

Renewing Pastoral Practice Neil Pembroke,2013-05-28 This is the first comprehensive treatment of the relationship between the doctrine of the Trinity and pastoral care and counselling Neil Pembroke contends that an in depth reflection on the relational dynamics in the Godhead has the capacity to radically renew pastoral practice Pembroke applies the notion of relational space to care in a parish setting The life of the triune God is defined by both closeness and open space The divine persons indwell each other in love but they also provide space for the expression of particularity This principle of closeness with space is applied in three different pastoral contexts namely community life spiritual friendship and pastoral conversations The specialized ministry of pastoral counselling is the focus in the second half of the book Informing the various explorations is the principle of participation through love the divine persons participate in each other s existence through loving self communication Pembroke shows how this trinitarian virtue is at the centre of three key counselling dynamics the counselling alliance empathy and mirroring

metaphysics as a core consideration and foundation for the evolution of nursing in the context of Watson's Unitary Caring Science. It affirms and invites a maturing of the nursing profession and its developing consciousness of human universe as the substance of Unitary Caring Science along with its basis in the evolving cosmology of love. Within this conceptual framework, the book examines metaphysics and the non-physical invisible spirit realm of human experiences, health and healing, creating a new space to explore the relationship between science and spirit phenomena generally eschewed in Western thought. Addressing such topics as the meaning of metaphysics and why now is an ideal moment to pursue a unity of nursing and metaphysics, the book describes the personal metaphysical and mystical experiences of the author and other contributors as a catalyst for readers to awaken and examine their own such experiences. Using an evolved Unitary Caring Science worldview of what is considered real and true within this paradigm and beyond Western science, the text honors the self in relation to diverse, unique experiences of patients from all backgrounds and belief systems. It explores personal experiences that cannot be explained using the dominant worldview and seeks to integrate science and metaphysics as a core branch of philosophy. A metaphysical understanding of nursing's unitary relational worldview of oneness as foundation for mature discipline and practice provides nurses with a philosophical, theoretical, and scientific foundation for the evolution of humankind. The text also explores the cosmology of Love as the foundational energy of life and the basis of a new call to the nursing profession to awaken their ancient and future role as metaphysicians of caring, health and healing.

Key Features: Provides metaphysical evidence and a deep philosophical understanding of the role of metaphysics and the cosmology of Love within Watson's Unitary Caring Science. Disseminates these teachings through the writings of prominent nurse scholars, philosophers, theologians, scientists, and historians. Includes personal moments, messages, and quotes to create evocative, imaginative meanings and inspiration to metaphysical phenomena. Demonstrates how the concept of soul and spirit can be metaphysically reconciled as a real and true phenomena of concern within nursing. Explores Unitary Caring Science in depth in relation to mature nursing phenomena and a worldview encompassing healing and health.

Love, Friendship, and the Self Bennett W. Helm, 2010-01-07 Bennett Helm presents a reexamination of our common understanding of ourselves as persons in light of the phenomena of love and friendship. He argues that the individualism that is implicit in that understanding cannot be sustained if we are to understand the kind of distinctively personal intimacy that love and friendship essentially involve.
