Love With A Difference:

Love in Contemporary British Drama Korbinian Stöckl, 2021-01-18 Despite the recent turn to affects and emotions in the humanities and despite the unceasing popularity of romantic and erotic love as a motif in fictional works of all genres the subject has received surprisingly little attention in academic studies of contemporary drama *Love in Contemporary British Drama* reflects the appeal of love as a topic and driving force in dramatic works with in depth analyses of eight pivotal plays from the past three decades Following an interdisciplinary and historical approach the study collects and condenses theories of love from philosophy and sociology to derive persisting discourses and to examine their reoccurrence and transformation in contemporary plays Special emphasis is put on narratives of love's compensatory function and precariousness and on how modifications of these narratives epitomise the peculiarities of emotional life in the social and cultural context of the present Based on the assumption that drama is especially inclined to draw on shared narratives for representations of love the book demonstrates that love is both a window to remnants of the past in the present and a proper subject matter for drama in times in which the suitability of the dramatic form has been questioned

Love in the Post-Reconceptualist Era of Curriculum Work Allan Michel Jales Coutinho, 2023-03-08 By employing the autobiographical method of currere and bifocalization this book sheds light on the significance of love and the ethics of caregiving as means to transform curriculum studies into a post reconceptualist and collective endeavor Advancing an understanding of curriculum as a collective public moral enterprise it critically asks whether we can build a world where love is not negotiated but only proliferated Through the creation of short and interconnected autobiographical narratives about the meanings of love the author provides pivotal insights for curricularists who labor in conflicting and paradoxical contexts As such the book seeks to demonstrate how the labor of love fortification may be accomplished in a world of agonistic antagonistic and competitive becoming's Highlighting the role of caregiving this book questions the role of evaluations in post reconceptualization and provides insights for educators and policymakers on how to promote actualization and reconciliation in schools in contexts across the global north and south Engaging with a long scholarly tradition that ultimately seeks to understand the meanings of love in our lives and in our work supporting the historization of the field of curriculum and with an international focus this book will appeal to scholars and students with interests in curriculum studies and curriculum theory

Love and Christian Ethics Frederick V. Simmons, 2016-12-15 At the heart of Christian ethics is the biblical commandment to love God and to love one's neighbor as oneself But what is the meaning of love Scholars have wrestled with this question since the recording of the Christian gospels and in recent decades teachers and students of Christian ethics have engaged in vigorous debates about appropriate interpretations and implications of this critical norm In *Love and Christian Ethics* nearly two dozen leading experts analyze and assess the meaning of love from a wide range of perspectives Chapters are organized into three areas influential sources

and exponents of Western Christian thought about the ethical significance of love perennial theoretical questions attending that consideration and the implications of Christian love for important social realities Contributors bring a richness of thought and experience to deliver unprecedentedly broad and rigorous analysis of this central tenet of Christian ethics and faith William Werpehowski provides an afterword on future trajectories for this research Love and Christian Ethics is sure to become a benchmark resource in the field Love and Politics Fiona Mackay,2001-08-02 This volume is the first to use insights from recent feminist theory on the ethic of care to study the slow progress women have made toward political equality Using empirical case study materials including her own interviews with female politicians Mackay examines care as both a political practice and a political idea using it to explain the current situation with regard to women s representation and to offer a prescription and resource for change **The Politics of Conjugal Love** Conor Sweeney,Brian T.

Trainor,2019-06-27 Does the New Testament teach that a wife must submit to her husband as head If so does it have a lasting value beyond the cultural milieu in which it was first articulated The Politics of Conjugal Love takes a fresh approach to this classic issue in theological anthropology paying specific attention to the role of theological hermeneutics in its interpretation Conor Sweeney and Brian T Trainor contend that both subordinationist and anti subordinationist readings of headship and submission miss the mark Their alternative is a baptismally specified trinitarian reading in which headship and submission appear as modes intrinsic to both life in Christ and the love proper to the highest mode of trinitarian love

The Metaphysics of Love Stella Sandford, 2001-11-01 Emmanuel Levinas is best known for having reintroduced the question of ethics into the Continental philosophical tradition In *The Metaphysics of Love* however Stella Sandford argues that an over emphasis on ethics in the reception of Levinas s thought has covered over both the basis and the details of his philosophical project a metaphysics which affirms the necessity to think of an unqualified transcendence as a first principle Sandford s book is at the same time a powerful feminist critique of both Levinas s gendered philosophical categories and the attempt to reclaim aspects of this philosophy for feminist theory

Sex, Love, Race Martha Hodes, 1999 Since the colonial era North America has been defined and continually redefined by the intersections of sex violence and love across racial boundaries Motivated by conquest economics desire and romance such crossings have profoundly affected American society by disturbing dominant ideas about race and sexuality *Sex Love Race* provides a historical foundation for contemporary discussions of sex across racial lines which despite the numbers of interracial marriages and multi racial children remains a controversial issue today The first historical anthology to focus solely and widely on the subject *Sex Love Race* gathers new essays by both younger and well known scholars which probe why and how sex across racial boundaries has so threatened Americans of all colors and classes Traversing the whole of American history from liaisons among Indians Europeans and Africans to twentieth century social scientists fascination with sex between Asian Americans and whits the essays cover a range of

regions and of racial ethnic and sexual identities in North America Back cover **Psychoanalyzing Cinema j.**
jagodzinski,2012-10-01 The essays within this collection explore the possibilities and potentialities of all three positions
presenting encounters that are at times contradictory at other times supportive as well as complementary The collection

proverb goes that blood is thicker than water But do common bloodlines in fact demand special duties or prescribe affections
Does this maxim presume that we can or should only love others biologically similar to ourselves Are we nobler if we do or
somehow defective if we don't Thicker than Water examines the roots of this belief by studying the omnipresent discourse of
bloodlines and kindred relations in the literature of early modern Europe specifically its role in the creation and maintenance
of oppressive social structures Lauren Weindling examines how drama from England France and Italy tests these
assumptions about blood and love exposing their underlying political function Among the key texts that Weindling studies are
Shakespeare's Romeo and Juliet Othello and The Merchant of Venice Pierre Corneille's Le Cid Giambattista della Porta's La
Sorella and its English analog Thomas Middleton's No Wit Help Like a Woman's John Ford's 'Tis Pity She's a Whore and
Machiavelli's La Mandragola Each of these plays in some way offers an extreme limit case for these beliefs in plots of love
courtship and marriage e.g blood feuds or incest They also illustrate that blood functions not as a biological basis for
affinities but discursively Moreover they feature the voices of marginalized groups unprivileged by this ideology which
present significant counterpoints to this bloody worldview Those outsiders reveal that finding alternative vocabularies to the
bloody discourse of elite groups is both extremely difficult and often ineffectual further evidenced by their persistence today
Much critical work on blood has examined this discourse as it manifests onstage as evidence of guilt the product of violence
or in bleeding figures This book instead examines the work that blood does unseen in its connection to discourses of love and
kinship arbitrating social and emotional connections between persons and thus underwriting our deepest forms of social

by various authors ,1892 **The Ambivalence of Scarcity and Other Essays** Paul Dumouchel,2014-10-01 First
published in French in 1979 The Ambivalence of Scarcity was a groundbreaking work on mimetic theory Now expanded upon
with new specially written and never before published conference texts and essays this revised edition explores Ren Girard's
philosophy in three sections economy and economics mimetic theory and violence and politics in modern societies The first
section argues that though mimetic theory is in many ways critical of modern economic theory this criticism can contribute to
the enrichment of economic thinking The second section explores the issues of nonviolence and misrecognition m

connaissance which have been at the center of many discussions of Girard's work. The final section proposes mimetic analyses of the violence typical of modern societies from high school bullying to genocide and terrorist attacks. Politics, Dumouchel argues, is a violent means of protecting us from our own violent tendencies and it can at times become the source of the very savagery from which it seeks to protect us. The book's conclusion analyzes the relationship between ethics and economics, opening new avenues of research and inviting further exploration. Dumouchel's introduction reflects on the importance of René Girard's work in relation to ongoing research especially in social sciences and philosophy. **Lads' Love**
