much more than hybrid vehicles because Earth's environment has already been destroyed by us to such an extent that if we don't become eco friendly now life on Earth might come to a painful end in a few decades. The rising water levels in the oceans and scorching heat waves have already started making life difficult in many parts of the world. Hybrid humans like hybrid vehicles are driven by double fuel of money and love and are eco friendly because love is one of the greenest energy resources available with human beings. By weaning the world away from the Vicious cycle of prosperity and waking it up to the immense benefits of the Love cycle, hybrid humans will not only keep loneliness and depression out of their personal lives but also help save the world from impending emotional, environmental, and economic catastrophes.
