**You shall thank your enemies and love your story** Madeline Bosio,2018-04-21 The book explains and describes the pathways leading to neurotic behaviours beginning from early years of life when we set up behavioural patterns that turn out to be fallacious as regard our needs as well as our interactions with others There are dreams which are defensive constructions in the name of unsatisfied needs of our childhood against realities and family dynamics too different and dangerous to cope with in a developmental stage when a child has no instruments to face or deal with such troubled waters Certain fears in adulthood overwhelming though irrational to intellect are the outcome of those moments when a child was unable to face reality being at the mercy of oneself impotent thus in danger and without a protecting caregiver In this healing process shared with a psychotherapist in a long and painful revisitation of what occurred the unveiling of an emotional world silenced long ago we dismantle paths built with so much struggle When we plough into the past with the experiential model there will be a change in our way of being and an enrichment in our interactions with others The book has a second part dealing with sex abuse in childhood and disruptive relationships **Two Scars Against One** LaJoyce Martin,1995-09
