Lucretius Iii De Rerum Natura Classical Texts Series:

De Rerum Natura IV Titus Lucretius Carus,1986 Lucretius De Rerum Natura IV Titus Lucretius Carus,1986 Book IV of Lucretius great philosophical poem deals mainly with the psychology of sensation and thought The heart of this book is a new text incorporating the latest scholarship on the text of Lucretius with a clear prose facing translation The commentary concentrates on the thought of the text relating it to other philosophers beside Epicurus and the poetry of the Latin placing the text in relation to Roman literature in general and attempting to demonstrate the poetic genius of Lucretius The introduction deals with the didactic tradition in ancient literature and Lucretius place in it the structure of De Rerum Natura the salient features of the philosophy of Epicurus and the transmission of the text *Lucretius* Philip de May,2009-05-14 What is the world made of How can we be happy What happens after death Drawing on the philosophical teachings of Epicurus Lucretius ambitiously seeks to answer these and other big questions in his masterful poem On the nature of things at the same time he coats his words in the honey of the Muses to make potentially difficult material more appealing to his readers This book offers a selection of key passages from the poem in addition it gives students insight into its artistic inventiveness provides a cultural and historical frame of reference and offers access to the Epicurean philosophy that underlies it **De Rerum Natura** ,1987 **List of Books Forming the Reference Library in the Reading Room of the British Museum** British Museum. Dept. of Printed Books,1910 *The Oxford encyclopedia of ancient Greece and Rome. - Vol. 1 - 7* Michael Gagarin,2010 An Elementary Treatise on Solid Geometry William Steadman Aldis,2025-06-25 Reprint of the original first published in 1880 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **Euripides** Euripides,Frederick Apthorp Paley,1880 **Examples in algebra, by W.F. McMichael and R. Prowde-Smith. [With] Answers** William Fisher McMichael,1879 *The Phoenissae of Euripides, with brief notes by F.A. Paley* Euripides,1879 **Style in Latin Poetry** Paolo Dainotti,Alexandre Pinheiro Hasegawa,Stephen Harrison,2024-02-19 Though stylistics undoubtedly plays a crucial role in the scholarship on Latin poetry from commentaries to textual criticism from intertextuality to literary criticism in recent years for various reasons it has not received the attention it deserves This book published a generation after Adams and Mayer s seminal 1999 volume Aspects of the Language of Latin Poetry ideally aims to complement and update it on a smaller scale offering the reader a collection of stimulating papers from international scholars on the style of some of the most significant voices of Latin poetry from early drama to the Flavian period **Opera** Euripides,1880 **Mirrors of the Divine** Emily R. Cain,2023-01-30 Mirrors of the Divine brings into focus how four influential authors of the late ancient world Tertullian of Carthage Clement of Alexandria Gregory of Nyssa and Augustine of Hippo employ language of vision and of mirrors in their discursive struggles to construct Christian agency identity and epistemology Early Christian authors described the vision of God through the Pauline verse 1

Corinthians 13 12 For now we see in a mirror dimly but then we will see face to face Yet each author interpreted this verse differently based on a diverse set of assumptions about how they understood seeing and mirrors to function does vision occur by something leaving or entering the eye Is one impacted by seeing or by being seen Do mirrors offer trustworthy knowledge Spanning the second through fourth centuries CE in both Eastern and Western Christianity *Mirrors of the Divine* analyzes these four authors theological writings on vision and knowledge of God to explore how contradictory theories of sight shaped their cosmologies theologies subjectivities genders and discursive worlds As Emily R Cain demonstrates how the authors portray eyes reveals how they envisioned one's relationship to the world while how they portray mirrors reveals how they imagined the unknown Both have dramatic impacts on how one interprets what it means to see God through a mirror dimly She shows that arguments about the phenomenon of visual perception are deeply intertwined with broader debates about identity agency and epistemology and uncovers some of the most self-conscious ways that late ancient Christians thought of themselves their worlds and their God

Routledge Encyclopedia of Philosophy Edward Craig, 1998 Volume five of a ten volume set which provides full and detailed coverage of all aspects of philosophy including information on how philosophy is practiced in different countries who the most influential philosophers were and what the basic concepts are

Classical Scholarship and Its History Stephen Harrison, Christopher Pelling, 2021-04-06 It is unusual for a single scholar practically to reorient an entire sub-field of study but this is what Chris Stray has done for the history of UK classical scholarship His remarkable combination of interests in the sociology of scholars and scholarship in the history of the book and of publishing and especially in the detailed intellectual contextualisation of classical scholarship as a form of classical reception has fundamentally changed the way the history of British classics and its study is viewed A generation ago the history of classical scholarship still consisted largely of accounts of particular scholars and groups of scholars written by other scholars from a broadly biographical and heroic individual perspective In these works scholars often sought to find their own place in the great tradition choosing to praise or blame those whose work they admired or deprecated and to identify with particular schools or trends and there were few attempts to provide a broader and less prosopographical perspective Almost all the chapters in the volume originated as papers at a conference in honour of the honorand and have been improved both by discussion there and by the rigorous peer review process conducted by the two experienced editors It covers various aspects of classical reception with a particular focus on the history of scholars their institutions and their writings the main focus is on the UK but there are also substantial engagements with continental Europe and especially the USA the period covered runs from the Renaissance to the present The cast contains a number of world famous names Unusually the volume also contains an essay by the honorand but we are very keen to include this especially as it focusses on the topic of scholarly collaboration

Mirror of the World Meg Roland, 2021-07-28 In the late fifteenth century the production of print editions of Claudius Ptolemy's second century Geography sparked one of the most significant intellectual developments of the era the

production of mathematically based north oriented maps The production of world maps in England however was notably absent during this Ptolemaic revival As a result the impact of Ptolemy s text on English geographical thought has been obscured and minimalized with scholars speculating a possible English indifference to or isolation from European geographic developments Tracing English geographical thought through the material culture of literary and popular texts this study provides evidence for the reception and transmission of Ptolemaic based geography in England during a critical period of geographic innovation and synthesis one that laid the foundation for modern geographical representation With evidence from prose romance book illustration theatrical performance cosmological ceilings and almanacs *Mirror of the World* proposes a new interdisciplinary literary and cartographic history of the influence of Ptolemaic geography in England one that reveals the lively integration of geographic concepts through narrative and non cartographic visual forms

Labor Imperfectus Jacqueline Fabre-Serris,Marco Formisano,Stavros Frangoulidis,2023-11-06 Unfinishedness and incompleteness are a central feature of ancient Greek and Roman literature that has often been taken for granted but not deeply examined many texts have been transmitted to us incomplete How and to what extent has this feature of many texts influenced their aesthetic perception and interpretation and how does it still influence them today Also how do various editorial arrangements of fragmentary texts influence the reconstruction of closure These important questions offer the opportunity to bring together specialists working on Greek and Roman texts across various genres epic tragedy poetry mythographic texts rhetorical texts philosophical treatises and the novel Reading a text by focusing on its current unfinishedness or incompleteness or the textual signs suggesting an unfinished or incomplete state the contributors examine the relations between author reader and text as underscored by the verbal generic and aesthetic features of each work This edited volume brings together a broad spectrum of approaches to ancient and modern texts and aims to reach out to a broad scholarly community consisting not only of Classicists but also scholars of other literature and aesthetics

The American Year Book ,1919 **De Rerum Natura III** Titus Lucretius Carus,1997 Lucretius poem for which Epicurean philosophy provided the inspiration attempts to explain the nature of the universe and its processes with the object of freeing mankind from religious fears The third book not only seeks to demonstrate that since the soul is mortal there can be no after life but also aims to reconcile the reader to the prospect of the end of his consciousness This edition incorporates a new text and prose translation and is designed to set the book in the context of the whole poem and of the Epicurean philosophical system to explain and elucidate its argument and at the same time to analyse some of the literary and artistic features which contribute to Lucretius poetic achievement and stature Latin text with facing page translation

Thackeray and Form of Fiction John Loofbourow,2015-12-08 In a critical examination of Thackeray s style Mr Loofbourow shows how Thackeray hybridized the genre of the romance by adapting the tone and language of the epic the chivalric romance and the pastoral and by carrying parody and satire to a high technical level Thackeray used these techniques with particular success in *Vanity Fair* and *Henry Esmond* Besides

analyzing these two works Mr Loofbourow discusses the significance of epic in the 19th century the expressive values of the novel as a whole and the relevance of Thackeray s methods to the work of such writers as George Eliot Henry James Virginia Woolf and E M Forster His book is an attempt to come to terms with Thackeray s style and a work conceivably destined to become a landmark among the very few acceptable studies of English fiction It should prove indispensable to anyone interested in style in fiction and should at the same time precipitate a new trend in Thackeray scholarship Originally published in 1964 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
