

aircraft tanks. In fact, the German supply network had begun to falter during the advances of the summer. It proved impossible to sustain the front-line units using the primitive Russian rail and road network. The Russian railways used a wider track than the German system, and it took longer than anticipated to convert them.

It did not help that the German forces had been fitted out with vehicles from all over Europe. There were 2000 different types in service, with few interchangeable parts. Army Group Centre's spare parts inventory ran to over one million items. By early autumn the Luftwaffe had been forced to ferry its own supplies forward in bombers – in fuel and other essential supplies were all held up in bottlenecks from Poland to the Smolensk–Moscow highway.

The Russians attacked on 5 December. The temperatures plummeted to minus 15 degrees Celsius and more lay more than a metre (3ft) thick in places. Unable to dig in properly, the undermanned German units were torn apart; the few serviceable German tanks were unable to manoeuvre and the fuel was much hundreds of kilometres behind the front.

### Luftwaffe helplessness

The Luftwaffe was unable to help its aircraft tank as enough of fuel tanks to get airborne even if the ground units maintained fire under the engines overnight to keep them from freezing. Russian force tanks, the T-34 and KV-1, had wide tracks and

engines designed to keep running even in Arctic weather. Russian guns and small arms were similarly robust, and their aircraft were simple but reliable, built to function in snow or mud.

The infamous disastrous German Army fell apart. It had suffered some 750,000 casualties between June and December, and losses started once the full fury of winter descended. The army reported over 100,000 frostbite cases in December alone. Frostbite caused more hospitalisation than Russian guns. Hypothermia would soon be killing more.

## Mastery of the air

### JANUARY–MAY 1942

Overextended during Operation Barbarossa, German armies had been checked for the first time in the last month of 1941. Beaten back by fierce Soviet counter-attacks from Leningrad to the Crimea, Hitler's war machine was slowly freezing to a standstill.

THE FLOOD NIGHTINGALE of early 1942 induced numerous problems of the invaders. The Soviet Northwest Front broke through in the Minsk hills, encircling several divisions in turn. In each case, the trapped German troops were clustered around an airfield. With the Luftwaffe flying in supplies, they continued to defend their prisoners until relief was at hand, or – in the case of General von Seydlitz's six divisions at Dnepropetrovsk – broke out. Seydlitz's men took a month to make their way to safety across the

snow. Their epic escape was sustained by parachute drops and an iron determination never to surrender.

In the euphoria that greeted their escape, the German High Command overlooked the physical state of the survivors: months of combat on the frozen steppes with inadequate rations, medical and sanitary facilities had left many men unfit for further service. The Germans also drew the comforting conclusion that they could keep encircled units supplied by air. It was an assumption that would be

**German Military Police Units 1939-45** Gordon Williamson, 2012-06-20 The military policeman must be one of the least appreciated yet most indispensable military figures in modern history In the mobile warfare of the 20th century no army could keep its vital supply routes open without the military policeman This book documents the organisation uniforms and insignia of the many and varied German military police units of World War II Their duties included traffic control maintaining military order and discipline collection and escorting prisoners of war prevention of looting disarming civilians checking captured enemy soldiers for documents collection of fallen enemy propaganda leaflets and providing street patrols in occupied areas

**Luftwaffe Air & Ground Crew 1939-45** Robert F Stedman, 2012-11-20 The Luftwaffe honed in the Spanish Civil War played a vital part in Germany's Blitzkrieg victories in 1939-41 Badly overstretched by war on three fronts in 1942-44 it was crippled by an incompetent commander in chief the losses among experienced aircrew and shortage of fuel In 1944-45 it faced a final battle of attrition in skies ruled by the Allies as the Eastern and Western pincers closed on the Reich but until the very end the dwindling band of veteran pilots among them the greatest aces the world has ever known presented a potent threat This fact packed review of Luftwaffe uniforms and flying kit is illustrated with rare personal photos insignia charts and two dozen meticulously detailed colour figures

**German Army Elite Units 1939-45** Gordon Williamson, 2012-03-20 In World War II a number of German Army units and divisions were classed as elites and were distinguished by special insignia of various kinds For some this status was simply a matter of lineage e.g. the Infantry Regiment List which traced its identity to the Bavarian unit with which Hitler had served in World War I Some like the Grossdeutschland and Panzer Lehr divisions were raised from particularly high grade personnel Other titles honoured extraordinary battlefield exploits or heroic sacrifice like the Brandenburg and Hoch und Deutschmeister divisions This fact packed introduction to these famous units is illustrated with rare photographs and detailed colour plates

**Panzer Crewman 1939-45** Gordon Williamson, 2012-06-20 In World War II the Panzer crews spearheaded every major campaign or

battle from the invasions of Poland and France to the last great counter offensive in the Ardennes Germany's Panzer crews fought on every front and along the way earned a formidable reputation for élan in attack and steadfastness in defence This book charts the recruitment training service conditions and combat experience of a typical World War II German tank crewman serving on various fronts from the scorching heat of the Western Desert to the frozen tundra of the Eastern Front It features many unpublished photographs from both private collectors and Panzer veterans themselves *The German Army 1939-45* (5) Nigel Thomas, 2012-08-20 This book covers the high command the developments in unit organisation the campaigns and the uniforms and equipment of the German Army in the last two years of the war in North West Europe and Italy Despite the huge pressure of fighting on three fronts ever worsening shortages of manpower and equipment and Allied command of the skies Germany's decimated divisions fought on with impressive skill and determination This period also saw a fascinating mixture of obsolescent newly designed and field made combat clothing which gave the German soldier a radically different appearance from his predecessor of just five years before Men at Arms 311 316 326 330 and 336 are also available in a single volume special edition titled German Army in World War II **Fighter Command Air Combat Claims 1939-45** John Foreman, 2003 An essential reference series listing every combat claim submitted by RAF fighter pilots during World War Two Part One covers the Fall of France and Battle of Britain Part Two covers the period after the Battle of Britain when RAF Fighter Command went on the offensive over Occupied Europe The West at War 1939-45 Nick Maddocks, 2005-04-21 The West at War due to accompany a major 6 part series for ITV1 West of England produced by Testimony Films and to be broadcast across May June 2005 commemorates the 60th anniversary of the end of World War II and features the stories of servicemen and women from Bristol and the South West The Aerial War: 1939-45 David Baker, 2020-06-01 The war is a war of machines it will be won on the assembly line Lord Beaverbrook Minister of Aircraft Production Just as vital as the battle on land or the struggle at sea the air war ultimately tipped the balance of power in World War II Many campaigns rode on the capabilities of their airforce as British Spitfires were pitted against Messerschmitt Bf 109s and Japanese Zeros Aerospace expert David Baker explores this battle in the skies detailing the technical leaps that were made and little known histories about the men and women involved from pilots to factory workers Featuring magnificent photographs and illustrations The Aerial War gives a brilliant insight into many key battles and highlights the integral role that aviation played in securing an Allied victory *Blitz on Britain 1939-45* Alfred Price, 2016-07-22 During the latter half of the 1930s the fear of a possible aerial knock out on Great Britain became a dominating factor in the formulation of national policy This text examines how justified these pre war fears were in light of the Luftwaffe's capabilities in 1939 and describes the bombing attacks on Britain during the years that followed together with the operations of the defences to parry them From the start the air defences proved able to take a heavy toll on the bombers attacking Britain by day By night it was a different matter Initially the fighter and gun defences were lucky if between them they were able to knock out one or two

bombers out of three or four hundred involved in a night attack From this poor beginning the defences improved out of all recognition and when the Germans launched a series of attacks on London early in 1944 it cost them one bomber and four trained crewmen for every five British civilians killed Blitz on Britain makes compelling reading for anyone interested in the Luftwaffe s wartime raids on Britain and how the air defences ultimately succeeded in defeating this long running aerial onslaught

**Cambridgeshire at War 1939-45** Glynis Cooper,2020-03-20 Few could believe that within twenty years of the war to end all wars being won the world was once again at war Veterans of the Great War feared going through the same thing again and even worse many knew that this time their children would also be involved in the fighting What had all the sacrifice been about Cambridgeshire the city of Cambridge and the University of Cambridge were badly hit by the Great War with many lives lost families ripped apart and a way of life that had changed forever Building and economic recovery had been hindered by the Great Depression The county was not ready to face another war nor for the problems of warfare in the air Yet somehow the county the city and the university all found the strength to unite against the enemy once more and ensure that Germany would never win the war The book chronicles life on the Home Front during the Second World War which itself reached into every home and affected every citizen changing the life and the face of the county It is also a timely reminder of the difficulties hardships restrictions and morale faced by the city as the war dragged on and how the local community overcame the odds that were stacked against them

World War II produced many histories which differ according to when and by whom they were written Many historians tend to write in order to justify their home nation In the recent Brexit debate it was claimed many times that we won the war and we do not need Europe politicians were as guilty of this as everyone else Britain survived rather than won the war single handedly and managed only because of the Allies In France at the L'Hôtel National des Invalides in a museum dedicated to World War II the photographs and notes tended to imply that Germany was defeated by the French with some American assistance All countries have their bias and special points of view regarding their shared history of World War II always somewhat nationally self centred This book confronts these nationalistic populist views and in places challenges accepted versions of traditional national histories *German Combat Equipments 1939-45* Gordon L. Rottman, 2013-08-20

The field equipment of the German Army in World War II was closely related to that used throughout World War I and earlier yet it was of relatively light weight ruggedly constructed well designed functional and generally of a high quality though this deteriorated in the later war years A high degree of design standardisation was maintained in most categories of equipment though materials and their colours often varied widely There were also many different specialisations for the various arms of service as well as theatres of combat such as the Afrikakorps in the Western Desert This title investigates all manner of German combat equipments throughout World War II from belt buckles to magazine pouches *Hampshire at War, 1939-45* Murray Rowlands, 2018-03-30

Hampshire at War 1939-45 looks at the pivotal role Hampshire played during the Second World War including principal details of the genesis for D Day and how the Battle for Britain happened on a day by day basis The author highlights the people's experience of total war from the blitz in Portsmouth Gosport and Southampton along with raids throughout the county not to mention the role played by the Royal Navy at sea and in the dockyards As well as saluting the role of civilians who created and built Spitfires and Hurricanes the book places a rightful spotlight on the role Hampshire's women played in the final victory Hampshire's major effort towards final victory arose from the towns and hamlets of the county Training for the secret war and espionage took place in Beaulieu and the training for the Cockleshell Heroes took place around Southsea Hampshire's war involved the arrival of men and women from all over the world but in particular from Canada and America with important cultural changes for everyone living there When invasion threatened in 1940 a defence

of Britain had to be organised and Hampshire's coast was particularly vulnerable Details of how German troops would be resisted after landings in the Solent and along Hampshire's coast are also explored Hampshire at War 1939-1945 traces the progress of evacuating its children from vulnerable cities such as Southampton and Portsmouth and records the experiences of the children themselves But most importantly Murray Rowlands provides the experience of living through the Second World War as it happened

**The British Army 1939-45 (1)** Martin Brayley, 2013-06-20 The Second World War was Britain's last conflict as a world power For a year it saw Britain standing alone against the fascist dictatorships winning it demanded the sacrifice of the entire national wealth This first book of three describes the uniforms developed for European service It traces the appearance of the Tommy from pre war mobilization through the years of defeat and endurance to D Day and the long fighting advance to Northern Germany The book also includes a campaign summary infantry organization tables lists of arms and services and basic specifications of a number of heavy weapons
