Luminous Mind:

The Continuity of Madhyamaka and Yogācāra in Indian Mahāyāna Buddhism Ian Charles Harris, 2023-11-27 In the past European scholars have tended to treat both Madhyamaka and Yogācāra as separate and fundamentally opposed trends in Mahāyāna Buddhist thought Drawing heavily on early textual evidence this work questions the validity of such a Mahāyāna schools hypothesis By down playing the late commentarial traditions the author attempts a general reappraisal of the epistemological and ontological writings of Nagarjuna Asanga and Vasubandhu He concludes that the overlap in all areas of doctrine is significant but particularly with respect to the teachings on the levels of truth the enlightened and unenlightened states the status of language and the nature of reality It is hoped that such investigations may provide the basis for a new theory on the proliferation of Indian Mahāyāna Buddhism as an organic process of assimilation to new audiences and specific contemporary problems rather than in the more schismatic manner favoured by past researchers Luminous Mind

God or the Divine? Bernhard Nitsche, Marcus Schmücker, 2023-03-20 Is there a language of transcendence which does not fall under the well worn categories of monism theism pantheism biblical or pagan monotheism personal or tripersonal God or an impersonal absolute conceived as immanent and or transcendent The present set of studies from different fields of research centers on the question whether it is possible to speak at all of transcendence or a divinity and if it is under what limitations does such speech proceed In current discussion in theology and in philosophy of religion there is a pervasive awareness that the inherited terms and alternatives developed in the western tradition no longer facilitate an adequate understanding of the divine Increasing familiarity with the languages of immanence and transcendence under erasure in Hindu and Buddhist thought has further jumbled our coordinates while holding out the promise of a more subtle and vital engagement with the matter itself of religious inquiry A further long established distinction between personal and impersonal also takes on rich new hues in Asian contexts where the very notion of person may undergo unsettling critiques Transgressing the categories of personal and impersonal points to the mystical depth of religious traditions emphasizes their openness and reintegrates essential elements of both perspectives Advancing with curiosity and caution all the contributors take seriously the diversity of historical religious traditions while nevertheless searching for a fresh language that may connect these traditions and provide a common ground of understanding
