Royal Priesthood in the English Reformation Malcolm B. Yarnell III, 2013-12-12 Royal Priesthood in the English Reformation assesses the understandings of the Christian doctrine of royal priesthood long considered one of the three major Reformation teachings as held by an array of royal clerical and popular theologians during the English Reformation Historians and theologians often present the doctrine according to more recent debates rather than the contextual understandings manifested by the historical figures under consideration Beginning with a radical reevaluation of John Wyclif and an incisive survey of late medieval accounts the book challenges the predominant presentation of the doctrine of royal priesthood as primarily individualistic and anticlerical in the process clarifying these other concepts It also demonstrates that the late medieval period located more religious authority within the monarchy than is typically appreciated After the revolutionary use of the doctrine by Martin Luther in early modern Germany it was wielded variously between and within diverse English royal clerical and lay factions under Henry VIII and Edward VI yet the Old and New Testament passages behind the doctrine were definitely construed in a monarchical direction With Thomas Cranmer the English evangelical presentation of the universal priesthood largely received its enduring official shape but challenges came from within the English magisterium as well as from both radical and conservative religious thinkers Under the sacred Tudor queens who subtly and successfully maintained their own sacred authority the various doctrinal positions hardened into a range of early modern forms with surprising permutations

Growing Consensus II Lydia Veliko, Jeffrey Gros, 2005 Growing Consensus II is a comprehensive collection of the major American ecumenical documents between 1992 and 2004 Among churches included are Catholic historic Protestant Orthodox Anabaptist and Evangelical

Luther's First Front Robert C. Croken, 1990 Since the Reformation in the sixteenth century one of the basic divisions between Catholics and Protestants has been the concept of the mystery of the Eucharist and its meaning to modern Man In this new study Robert C Croken tries to

explain why Luther's view of the Eucharist is pivotal to ecumenical dialogue among Christians. The sacrificial dimension of the Eucharist is one of the tenets Luther opposed although this basic theme has often been neglected in recent research. This study focuses on Luther's rejection of the Eucharist as a sacrifice and a good work, a major doctrinal shift from previous Catholic belief. Explaining the historical origins of the debate, Robert Croken shows the reader where the Roman Catholic and Lutheran churches have grown apart and where they have found agreement. This book is a systematic study of Martin Luther's writings in the context of his break with Rome and will be of value to scholars and theologians of modern Christianity searching for common ground in ecumenical discussions. **Encyclopedia of Protestantism** Hans J.

Hillerbrand, 2004-08-02 This Encyclopedia is the definitive reference to the history and beliefs that continue to exert a profound influence on Western thought. **We Are All Priests** Roger Whittall, 2023-12-11 In this book Roger Whittall argues that Luther's teaching on the common priesthood, the priesthood of believers, was a persistent element of Luther's ecclesiology and closely related to his understanding of the church as the communion of saints. Whittall's focus is the common priesthood's activity in the Christian community moving beyond its contested relationship to the church's ordained ministry or the views that limit its appearance to Luther's early polemical writings. Rather, the common priesthood stands alongside the public ministry. They are equal partners in the church's mandate to receive and speak God's word to respond in prayer, praise, and joyful service of God's world and all its people. This wide-ranging investigation features later material not often considered in relation to the common priesthood. For Luther, priesthood was a biblical expression of Christian spiritual life, worship, and service, forming both the personal faith of individual Christians and the corporate nature of the Christian community. Whittall also examines Luther's use of key biblical texts to link church and priesthood through the themes of unity and community, equality, and participation. Understood in this way, this priesthood still speaks powerfully to the identity and mission of the church today. **Rites of Ordination** Paul F. Bradshaw, 2013 A Pueblo book. Includes index. Includes bibliographical references and index. Table of Contents: Historical and typological background; Ministry in the earliest Christian communities; Ministry and ordination in the third and fourth centuries; Early ordination rites; Ordination rites in the churches of the East; Ordination rites in the medieval West; The theology of ordination in the Middle Ages; Orders and ministry in the churches of the Reformation; The Roman Catholic Church from the Council of Trent to the present; Other modern ordination rites. **Martin Luther's Theology** Bernhard Lohse, 1999-01-01 This definitive analysis of the theology of Martin Luther surveys its development during the crises of Luther's life, then offers a systematic survey by topics. Containing a wealth of quotations from less-known writings by Luther and written in a way that will interest both scholar and novice, Lohse's magisterial volume is the first to evaluate Luther's theology in both ways. Lohse's historical analysis takes up Luther's early exegetical works and then his debates with traditions important to him in the context of the various controversies leading up to his dispute with the Antinomians. The systematic treatment shows how the meaning of ancient Christian doctrines took

their place within the central teaching of justification by faith **Councils of the Catholic Reformation** Nelson H. Minnich, 2024-10-28 This new collection by Nelson Minnich deals with the general councils of the Catholic Reformation in the late medieval and early modern periods The volume opens with overviews of the various editions of and current scholarship on these general councils Three studies then give special attention to the role of theologians in these councils their changing legal status consultative or deliberative voting rights and their individual roles and those of the various theological schools in drafting the decrees Another article examines the legal status of theologians accused of heresy and schism Two examine the contest between the councils of Pisa Milan Asti Lyon and Lateran V for legitimacy studying in particular the contrasting image of Julius II suspended for contumacy by Pisa but the strong leader of Lateran V and the role ceremonies played in securing legitimacy Last there are three studies devoted to the Council of Trent the status of the Protestants who came to the council its debates on the priesthood of all believers and the influence of Lateran V on its procedures debates and decrees

Serving the People of God's Presence Terry L. Cross, 2020-10-27 Leading theologian Terry Cross articulates the doctrine of the church's ministry from a Pentecostal perspective demonstrating how Pentecostals can contribute to and learn from the church catholic This companion volume to Cross's previous book *The People of God's Presence* proposes a radical revision of the structural framework of the local church within the often overlooked corporate priesthood of all believers Cross explores principles for leadership and ministry from the New Testament and the early church helping all believers to do the work of ministry

The Old Protestantism and the New Brian Gerrish, 2004-11-11 A study of the fundamental religious ideas of the Reformation and their relationship to liberal Protestantism *Church, Word, and Spirit* James E. Bradley, Richard Alfred Muller, 1987 *Theology of Ministry* Thomas F. O'Meara, 1999 A completely revised edition of a widely used text that

surveys the history theology and present condition of ministry both clerical and lay in today's church **Martin - God's**

Court Jester Eric W. Gritsch, 2009-05-01 In the sea of Luther studies this volume stands out as one of the best available in English It is a condensed retrospective of the most significant Reformation research of the last decade and it is clearly written with verve insight and humor CHOICE Gritsch has provided us with a full scale one volume biography of Luther The work is meticulously documented and the bibliography at the end will alone warrant the price of the book Roland H

Bainton This book will be an invaluable source of information for students of the Lutheran Reformation Ecumenists will find in its pages a great resource in their efforts to deal with issues that have been church divisive Carl J Peter Catholic University of America Bonds of Imperfection Oliver O'Donovan, Joan Lockwood O'Donovan, 2004 Two of today's leading experts on the

Christian political tradition plumb significant moments in premodern Christian political thought using them in original and adventurous ways to clarify criticize and redirect contemporary political perspectives and discussions Drawing on the Bible and the Western history of ideas Oliver and Joan Lockwood O'Donovan explore key Christian voices on the political political action political institutions and political society Covered here are Bonaventure Thomas Ockham Wycliff Erasmus Luther

Grotius Barth Ramsey and key modern papal encyclicals The authors discussion takes them across a wide range of political concerns from economics and personal freedom to liberal democracy and the nature of statehood Ultimately these insightful essays point to political judgment as the strength of the past theological tradition and its eclipse as the weakness of present political thought The House Where God Lives Gary D. Badcock,2009-09-15 In a culture dominated by the individualistic values of political and social liberalism Gary Badcock says that we seldom hear of the church as the creature of the Word of God The church has been entrusted to us by God and belongs to the structure of the Christian faith itself Ecclesiology is first of all theology because it is primarily about the presence of God Badcock maintains and is thus biblical and creedal one holy catholic and apostolic something that we believe which is what undergirds its empirical sociological and even pastoral function Rather than a hollow shell where humans dream moral dreams and do good deeds the church is the house where God lives **Sacred Sound and Social Change** Lawrence A. Hoffman,Janet R. Walton,1993-01-31 Teachers students composers performers and other practitioners of sacred sound will appreciate this volume because unlike any book currently available on sacred music it treats the history development current practices composition and critical views of the liturgical music of both the Jewish and Christian traditions Contributors trace Jewish music from its place in Hebrew Scriptures through the nineteenth century Reform movement Similar accounts of Christian music describe its growth up to the Protestant Reformation as well as post Reformation development Other essays explore liturgical music in contemporary North America by analyzing it against the backdrop of the continuous social change that characterizes our era
