Literature and Food explores the relationship between food and literature in transnational contexts serving as both an introduction and a guide to the field in terms of defining characteristics and development. Balancing a wide reaching view of the long histories and preoccupations of literary food studies with attentiveness to recent developments and shifts, the volume illuminates the aesthetic, cultural, political, and intellectual diversity of the representation of food and eating in literature.

Posterity Dorie McCullough Lawson, 2008-04-22 An elegantly designed, beautifully composed volume of personal letters from famous American men and women that celebrates the American Experience and illuminates the rich history of some of America's most storied families. Posterity is at once an epistolary chronicle of America and a fascinating glimpse into the hearts and minds of some of history's most admired figures and storied families. Spanning more than three centuries, these letters contain enduring lessons in life, love, character, and compassion that will surprise and enlighten. Included here are letters from Thomas Jefferson to his daughter warning her of the evils of debt; General Patton on D Day to his son, a cadet at West Point, about what it means to be a good soldier; W. E. B. Du Bois to his daughter about character beneath the color of skin; Oscar Hammerstein about why, after all his success, he doesn't stop working; Woody Guthrie writing from a New Jersey asylum to nine-year-old Arlo about universal human frailty; Eleanor Roosevelt chastising her grown son for his Christmas plans; and Groucho Marx as a dog to his twenty-five-year-old son. Here are renowned Americans in their own words and in their own times, seen as they were seen by their children. Here are our great Americans as mothers and fathers. **American**

Women Writers, Poetics, and the Nature of Gender Study Maryann Pasda DiEdwardo, 2016-12-14 This volume studies processes of creating voices of the past to analyze and to juxtapose, discussing the nature of the educational community viewed through feminist theory to reveal hidden ideas surrounding stereotypes, gender status, and power in the postcolonial era. The contributions brought together here explore the various facets of language to focus on metaphorical, grammatical constructions unique and specific with form and function. They interpret various works to capture the essence of style as well as rhetorical function of basic structure of grammar, diction, and syntax in a literary work as message and meaning. Furthermore, the book also discusses useful pedagogical and theoretical processes used by the literary scholar concerning the power of writing for cultural change. As such, the book will appeal to those who wish to heal through writing. The proceeds of the book support the author's local soup kitchen and crisis centers for domestic abuse. **Playing House in the**

American West Cathryn Halverson, 2013-11-26 Examines an eclectic group of western women's autobiographical texts, canonical and otherwise. *Playing House in the American West* argues for a distinct regional literary tradition characterized by strategic representations of unconventional domestic life. The controlling metaphor Cathryn Halverson uses in her engrossing study is playing house. From Caroline Kirkland and Laura Ingalls Wilder to Willa Cather and Marilynne Robinson, from the mid-nineteenth to the late twentieth centuries, western authors have persistently embraced wayward or eccentric housekeeping to prove a woman's difference from western neighbors and eastern readers alike. The readings in *Playing*

House investigate the surprising textual ends to which westerners turn the familiar terrain of the home evaluating community arguing for different conceptions of race and class and perhaps most especially resisting traditional gender roles Western women writers Halverson argues render the home as a stage for autonomy resistance and imagination rather than as a site of sacrifice and obligation The western women examined in *Playing House in the American West* are promoted and read as representatives of a region as insiders offering views of distant and intriguing ways of life even as they conceive of themselves as outsiders By playing with domestic conventions they recast the region they describe portraying the West as a place that fosters female agency individuality and subjectivity

Food and the Memory Harlan Walker, 2001 This is the eighteenth volume of the ongoing series of papers and submissions to the Oxford Symposium on Food Cookery the longest running food history conference in the world The subject this year is more speculative than is often the case and contributors have ranged widely over a topic which allows them to explore the psychological bases of food consumption and the development of cookery as well as more obvious excursions down memory lane in pursuit of food and drink

Richard Nixon John A. Farrell, 2018-02-06 From a prize winning biographer comes the defining portrait of a man who led America in a time of turmoil and left us a darker age We live today John A Farrell shows in a world Richard Nixon made At the end of WWII navy lieutenant Nick Nixon returned from the Pacific and set his cap at Congress an idealistic dreamer seeking to build a better world Yet amid the turns of that now legendary 1946 campaign Nixon's finer attributes gave way to unapologetic ruthlessness The story of that transformation is the stunning overture to John A Farrell's magisterial biography of the president who came to embody postwar American resentment and division Within four years of his first victory Nixon was a U S senator in six the vice president of the United States of America Few came so far so fast and so alone Farrell writes Nixon's sins as a candidate were legion and in one unlawful secret plot as Farrell reveals here Nixon acted to prolong the Vietnam War for his own political purposes Finally elected president in 1969 Nixon packed his staff with bright young men who devised forward thinking reforms addressing health care welfare civil rights and protection of the environment It was a fine legacy but Nixon cared little for it He aspired to make his mark on the world stage instead and his 1972 opening to China was the first great crack in the Cold War Nixon had another legacy too an America divided and polarized He was elected to end the war in Vietnam but his bombing of Cambodia and Laos enraged the antiwar movement It was Nixon who launched the McCarthy era who played white against black with a southern strategy and spurred the Silent Majority to despise and distrust the country's elites Ever insecure and increasingly paranoid he persuaded Americans to gnaw as he did on grievances and to look at one another as enemies Finally in August 1974 after two years of the mesmerizing intrigue and scandal of Watergate Nixon became the only president to resign in disgrace Richard Nixon is a gripping and unsparing portrayal of our darkest president Meticulously researched brilliantly crafted and offering fresh revelations it will be hailed as a master work
